6. “Council” means the city council of De Soto, Iowa.
7. “County” means Dallas County, Iowa.
8. “May” confers a power.
9. “Measure” means an ordinance, amendment, resolution or motion.

Words that are not defined in this Code of Ordinances or by the *Code of Iowa* have their ordinary meaning unless such construction would be inconsistent with the manifest intent of the Council, or repugnant to the context of the provision.

1.03 CITY POWERS. The City may, except as expressly limited by the Iowa Constitution, and if not inconsistent with the laws of the Iowa General Assembly, exercise any power and perform any function it deems appropriate to protect and preserve the rights, privileges, and property of the City and of its residents, and to preserve and improve the peace, safety, health, welfare, comfort, and convenience of its residents, and each and every provision of this Code of Ordinances shall be deemed to be in the exercise of the foregoing powers and the performance of the foregoing functions.

(Code of Iowa, Sec. 364.1)

1.04 INDEMNITY. The applicant for any permit or license under this Code of Ordinances, by making such application, assumes and agrees to pay for any injury to or death of any person or persons whomsoever, and any loss of or damage to property whatsoever, including all costs and expenses incident thereto, however arising from or related to, directly, indirectly or remotely, the issuance of the permit or license, or the doing of anything thereunder, or the failure of such applicant, or the agents, employees or servants of such applicant, to abide by or comply with any of the provisions of this Code of Ordinances or the terms and conditions of such permit or license, and such applicant, by making such application, forever agrees to indemnify the City and its officers, agents and employees, and agrees to save them harmless from any and all claims, demands, lawsuits or liability whatsoever for any loss, damage, injury or death, including all costs and expenses incident thereto, by reason of the foregoing. The provisions of this section shall be deemed to be a part of any permit or license issued under this Code of Ordinances or any other ordinance of the City whether expressly recited therein or not.

1.05 PERSONAL INJURIES. When action is brought against the City for personal injuries alleged to have been caused by its negligence, the City may notify in writing any person by whose negligence it claims the injury was caused. The notice shall state the pendency of the action, the name of the plaintiff, the name and location of the court where the action is pending, a brief statement of the alleged facts from which the cause arose, that the City believes that the person notified is liable to it for any judgment rendered against the City, and asking the person to appear and defend. A judgment obtained in the suit is conclusive in any action by the City against any person so notified, as to the existence of the defect or other cause of the injury or damage, as to the liability of the City to the plaintiff in the first named

action, and as to the amount of the damage or injury. The City may maintain an action against the person notified to recover the amount of the judgment together with all the expenses incurred by the City in the suit.

(Code of Iowa, Sec. 364.14)

1.06 RULES OF CONSTRUCTION. In the construction of this Code of Ordinances, the rules of statutory construction as set forth in Chapter 4 of the *Code of Iowa* shall be utilized to ascertain the intent of the Council with the understanding that the term “statute” as used therein will be deemed to be synonymous with the term “ordinance” when applied to this Code of Ordinances.

1.07 EXTENSION OF AUTHORITY. Whenever an officer or employee is required or authorized to do an act by a provision of this Code of Ordinances, the provision shall be construed as authorizing performance by a regular assistant, subordinate or a duly authorized designee of said officer or employee.

1.08 AMENDMENTS. All ordinances which amend, repeal or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection, or paragraph to maintain an orderly codification of ordinances of the City.

(Code of Iowa, Sec. 380.2)

1.09 CATCHLINES AND NOTES. The catchlines of the several sections of the Code of Ordinances, titles, headings (chapter, section and subsection), editor’s notes, cross references and State law references, unless set out in the body of the section itself, contained in the Code of Ordinances, do not constitute any part of the law, and are intended merely to indicate, explain, supplement or clarify the contents of a section.

1.10 ALTERING CODE. It is unlawful for any unauthorized person to change or amend by additions or deletions, any part or portion of the Code of Ordinances, or to insert or delete pages, or portions thereof, or to alter or tamper with the Code of Ordinances in any manner whatsoever which will cause the law of the City to be misrepresented thereby.

(Code of Iowa, Sec. 718.5)

1.11 SEVERABILITY. If any section, provision, or part of the Code of Ordinances is adjudged invalid or unconstitutional, such adjudication will not affect the validity of the Code of Ordinances as a whole or any section, provision or part thereof not adjudged invalid or unconstitutional.

1.12 WARRANTS. If consent to enter upon or inspect any building, structure or property pursuant to a municipal ordinance is withheld by any person having the lawful right to exclude, the City officer or employee having the duty to enter upon or conduct the inspection may apply to the Iowa District Court in and for the County, pursuant to Section 808.14 of the *Code of Iowa*, for an administrative search warrant. No owner, operator or occupant or any other person having charge, care, or control of any dwelling unit, rooming unit, structure, building, or premises shall fail or neglect, after presentation of a search warrant, to permit entry therein by the municipal officer or employee.

1.13 GENERAL STANDARDS FOR ACTION. Whenever this Code of Ordinances grants any discretionary power to the Council or any commission, board or officer or employee of the City and does not specify standards to govern the exercise of the power, the power shall be exercised in light of the following standard: The discretionary power to grant, deny, or revoke any matter shall be considered in light of the facts and circumstances then existing and as may be reasonably foreseeable, and due consideration shall be given to the impact upon the public

health, safety and welfare, and the decision shall be that of a reasonably prudent person under similar circumstances in the exercise of the police power.

1.14 STANDARD PENALTY. Unless another penalty is expressly provided by this Code of Ordinances for violation of any particular provision, section, or chapter, any person failing to perform a duty required by this Code of Ordinances or otherwise violating any provision of this Code of Ordinances or any rule or regulation adopted herein by reference shall, upon conviction, be subject to a fine of at least sixty-five dollars (\$65.00) but not to exceed six hundred twenty-five dollars (\$625.00). The court may order imprisonment not to exceed thirty (30) days in lieu of a fine or in addition to a fine.

HAZARDOUS SUBSTANCE SPILLS

36.01 Purpose

36.02 Definitions

36.03 Cleanup Required

36.04 Liability for Cleanup Costs

36.05 Notifications

36.06 Police Authority

36.07 Liability

36.01 PURPOSE. In order to reduce the danger to the public health, safety and welfare from the leaks and spills of hazardous substances, these regulations are promulgated to establish responsibility for the treatment, removal and cleanup of hazardous substance spills within the City limits.

36.02 DEFINITIONS. For purposes of this chapter the following terms are defined:

1. “Cleanup” means actions necessary to contain, collect, control, identify, analyze, clean up, treat, disperse, remove or dispose of a hazardous substance.

(Code of Iowa, Sec. 455B.381[1])

2. “Hazardous condition” means any situation involving the actual, imminent or probable spillage, leakage, or release of a hazardous substance onto the land, into a water of the State or into the atmosphere which creates an immediate or potential danger to the public health or safety or to the environment.

(Code of Iowa, Sec. 455B.381[4])

3. “Hazardous substance” means any substance or mixture of substances that presents a danger to the public health or safety and includes, but is not limited to, a substance that is toxic, corrosive, or flammable, or that is an irritant or that generates pressure through decomposition, heat, or other means. “Hazardous substance” may include any hazardous waste identified or listed by the administrator of the United States Environmental Protection Agency under the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act of 1976, or any toxic pollutant listed under section 307 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous substance designated under Section 311 of the Federal Water Pollution Control Act as amended to January 1, 1977, or any hazardous material designated by the Secretary of Transportation under the Hazardous Materials Transportation Act.

(Code of Iowa, Sec. 455B.381[5])

4. “Responsible person” means a person who at any time produces, handles, stores, uses, transports, refines, or disposes of a hazardous substance, the release of which creates a hazardous condition, including bailees, carriers, and any other person in control of a hazardous substance when a hazardous condition occurs, whether the person owns the hazardous substance or is operating under a lease, contract, or other agreement with the legal owner of the hazardous substance.

(Code of Iowa, Sec. 455B.381[7])

36.03 CLEANUP REQUIRED. Whenever a hazardous condition is created by the deposit, injection, dumping, spilling, leaking or placing of a hazardous substance, so that the hazardous substance or a constituent of the hazardous substance may enter the environment or be emitted

into the air or discharged into any waters, including ground waters, the responsible person shall cause the condition to be remedied by a cleanup, as defined in the preceding section, as rapidly as feasible to an acceptable, safe condition. The costs of cleanup shall be borne by the responsible person. If the responsible person does not cause the cleanup to begin in a reasonable time in relation to the hazard and circumstances of the incident, the City may, by an authorized officer, give reasonable notice, based on the character of the hazardous condition, said notice setting a deadline for accomplishing the cleanup and stating that the City will proceed to procure cleanup services and bill the responsible person for all costs associated with the cleanup if the cleanup is not accomplished within the deadline. In the event that it is determined that immediate cleanup is necessary as a result of the present danger to the public health, safety and welfare, then no notice shall be required and the City may proceed to procure the cleanup and bill the responsible person for all costs associated with the cleanup. If the bill for those services is not paid within thirty (30) days, the City Attorney shall proceed to obtain payment by all legal means. If the cost of the cleanup is beyond the capacity of the City to finance it, the authorized officer shall report to the Council and immediately seek any State or Federal funds available for said cleanup.

36.04 LIABILITY FOR CLEANUP COSTS. The responsible person shall be strictly liable to the City for all of the following:

1. The reasonable cleanup costs incurred by the City or the agents of the City as a result of the failure of the responsible person to clean up a hazardous substance involved in a hazardous condition.
2. The reasonable costs incurred by the City or the agents of the City to evacuate people from the area threatened by a hazardous condition caused by the person.
3. The reasonable damages to the City for the injury to, destruction of, or loss of City property, including parks and roads, resulting from a hazardous condition caused by that person, including the costs of assessing the injury, destruction or loss.
4. The excessive and extraordinary cost incurred by the City or the agents of the City in responding at and to the scene of a hazardous condition caused by that person.

36.05 NOTIFICATIONS.

1. A person manufacturing, storing, handling, transporting, or disposing of a hazardous substance shall notify the State Department of Natural Resources and the Police Chief of the occurrence of a hazardous condition as soon as possible but not later than six (6) hours after the onset of the hazardous condition or discovery of the hazardous condition. The Police Chief shall immediately notify the Department of Natural Resources.
2. Any other person who discovers a hazardous condition shall notify the Police Chief, who shall then notify the Department of Natural Resources.

36.06 POLICE AUTHORITY. If the circumstances reasonably so require, the law enforcement officer or an authorized representative may:

1. Evacuate persons from their homes to areas away from the site of a hazardous condition, and
2. Establish perimeters or other boundaries at or near the site of a hazardous condition and limit access to cleanup personnel.

No person shall disobey an order of any law enforcement officer issued under this section.

36.07 LIABILITY. The City shall not be liable to any person for claims of damages, injuries, or losses resulting from any hazardous condition, unless the City is the responsible person as defined in Section 36.02[4].

MINORS

46.01 Curfew

46.03 Contributing to Delinquency

46.02 Cigarettes and Tobacco

46.04 Minors in Liquor Establishments

46.01 CURFEW. The Council has determined that a curfew for minors is necessary to promote the public health, safety, morals and general welfare of the City and specifically to reinforce the primary authority and responsibility of adults responsible for minors; to protect the public from the illegal acts of minors committed after the curfew hour; and to protect minors from improper influences and criminal activity that prevail in public places after the curfew hour.

1. Definitions. For use in this section, the following terms are defined:
 - A. “Emergency errand” means, but is not limited to, an errand relating to a fire, a natural disaster, an automobile accident or any other situation requiring immediate action to prevent serious illness, bodily injury or loss of life.
 - B. “Knowingly” means knowledge which a responsible adult should reasonably be expected to have concerning the whereabouts of a minor in that responsible adult’s custody. It is intended to continue to hold the neglectful or careless adult responsible for a minor to a reasonable standard of adult responsibility through an objective test. It is therefore no defense that an adult responsible for a minor was completely indifferent to the activities or conduct or whereabouts of the minor.
 - C. “Minor” means any unemancipated person under the age of eighteen (18) years.
 - D. “Nonsecured custody” means custody in an unlocked multipurpose area, such as a lobby, office or interrogation room which is not designed, set aside or used as a secure detention area, and the person arrested is not physically secured during the period of custody in the area; the person is physically accompanied by a law enforcement officer or a person employed by the facility where the person arrested is being held; and the use of the area is limited to providing nonsecured custody only while awaiting transfer to an appropriate juvenile facility or to court, for contacting of and release to the person’s parents or other responsible adult or for other administrative purposes; but not for longer than six (6) hours without the oral or written order of a judge or magistrate authorizing the detention. A judge shall not extend the period of time in excess of six hours beyond the initial six-hour period.
 - E. “Public place” includes stores, parking lots, parks, playgrounds, streets, alleys and sidewalks dedicated to public use; and also includes such parts of buildings and other premises whether publicly or privately owned which are used by the general public or to which the general public is invited commercially for a fee or otherwise; or in or on which the general public is permitted without specific invitation; or to which the general public has

access. For purposes of this section, a vehicle or other conveyance is considered to be a public place when in the areas defined above.

F. “Responsible adult” means a parent, guardian or other adult specifically authorized by law or authorized by a parent or guardian to have custody or control of a minor.

2. Curfew Established. It is unlawful for any minor to be or remain upon any of the alleys, streets or public places or to be in places of business and amusement in the City between the hours of 11:00 p.m. and 6:00 a.m. of the following day on days commencing on Sunday, Monday, Tuesday, Wednesday and Thursday and between the hours of 12:00 midnight and 6:00 a.m. on Friday and Saturday.

3. Exceptions. The following are exceptions to the curfew:

A. The minor is accompanied by a responsible adult.

B. The minor is on the sidewalk or property where the minor resides or on either side of the place where the minor resides and the adult responsible for the minor has given permission for the minor to be there.

C. The minor is present at or is traveling between home and one of the following:

(1) Minor’s place of employment in a business, trade or occupation in which the minor is permitted by law to be engaged or, if traveling, within one hour after the end of work;

(2) Minor’s place of religious activity or, if traveling, within one hour after the end of the religious activity;

(3) Governmental or political activity or, if traveling, within one hour after the end of the activity;

(4) School activity or, if traveling, within one hour after the end of the activity;

(5) Assembly such as a march, protest, demonstration, sit-in or meeting of an association for the advancement of economic, political, religious or cultural matters, or for any other activity protected by the First Amendment of the U.S. Constitution guarantees of free exercise of religion, freedom of speech, freedom of assembly or, if traveling, within one hour after the end of the activity.

D. The minor is on an emergency errand for a responsible adult;

E. The minor is engaged in interstate travel through the City beginning, ending or passing through the City when such travel is by direct route.

4. Responsibility of Adults. It is unlawful for any responsible adult knowingly to permit or to allow a minor to be in any public place in the City within the time periods prohibited by this section unless the minor’s presence falls within one of the above exceptions.

5. Enforcement Procedures.

A. Determination of Age. In determining the age of the juvenile and in the absence of convincing evidence such as a birth certificate or driver’s license, a law enforcement officer on the street shall, in the first instance, use his or her best judgment in determining age.

B. Grounds for Arrest; Conditions of Custody. Grounds for arrest are that the person refuses to sign the citation without qualification; persists in violating the ordinance; refuses to provide proper identification or to identify himself or herself; or constitutes an immediate threat to the person's own safety or to the safety of the public. A law enforcement officer who arrests a minor for a curfew violation may keep the minor in custody either in a shelter care facility or in any non-secured setting. The officer shall not place bodily restraints, such as handcuffs, on the minor unless the minor physically resists or threatens physical violence when being taken into custody. A minor shall not be placed in detention following a curfew violation.

C. Notification of Responsible Adult. After a minor is taken into custody, the law enforcement officer shall notify the adult responsible for the minor as soon as possible. The minor shall be released to the adult responsible for the minor upon the promise of such person to produce the child in court at such time as the court may direct.

D. Minor Without Adult Supervision. If a law enforcement officer determines that a minor does not have adult supervision because the law enforcement officer cannot locate the minor's parent, guardian or other person legally responsible for the care of the minor, within a reasonable time, the law enforcement officer shall attempt to place the minor with an adult relative of the minor, an adult person who cares for the child or another adult person who is known to the child.

6. Penalties.

A. Responsible Adult's First Violation. In the case of a first violation by a minor, the law enforcement officer shall, by certified mail, send to the adult responsible for the minor, written notice of the violation with a warning that any subsequent violation will result in full enforcement of the curfew ordinance against both the responsible adult and minor, with applicable penalties.

B. Responsible Adult's Second Violation. Any responsible adult as defined in this section who, following receipt of a warning, knowingly allows the minor to violate any of the provisions of this section is guilty of a municipal infraction.

C. Minor's First Violation. In the case of a first violation by a minor, the law enforcement officer shall give the minor a written warning, which states that any subsequent violation will result in full enforcement of the curfew ordinance against the responsible adult and the minor, with applicable penalties, or, at the peace officer's discretion, may issue the minor a citation for a first violation.

D. Minor's Second Violation. For the minor's second and subsequent violations of any of the provisions of this section, the minor is guilty of a municipal infraction.

46.02 CIGARETTES AND TOBACCO. It is unlawful for any person under eighteen (18) years of age to smoke, use, possess, purchase, or attempt to purchase any tobacco, tobacco products or cigarettes. Possession of cigarettes or tobacco products by a person under eighteen years of age shall not constitute a violation of this section if said person possesses the cigarettes or tobacco products as part of the person's employment and said person is employed by a person who holds a valid permit under Chapter 453A of the *Code of Iowa* and lawfully offers for sale or sells cigarettes or tobacco products.

(Code of Iowa, Sec. 453A.2)

46.03 CONTRIBUTING TO DELINQUENCY. It is unlawful for any person to encourage any child under eighteen (18) years of age to commit any act of delinquency.

(Code of Iowa, Sec. 709A.1)

46.04 MINORS IN LIQUOR ESTABLISHMENTS.

1. Minors are prohibited from entering any place of business that sells beer or alcoholic beverages for consumption on premises except when accompanied by a parent or legal guardian; and even when accompanied by a parent or legal guardian no minor shall remain in such place of business after 8:00 p.m.
2. It is unlawful for the owner, operator, manager or any employee of such business, or the parent or legal guardian of any minor, to allow or permit a minor to enter any place of business that sells beer or alcoholic beverages for consumption on premises in violation of this section.
3. The owner of a business that sells beer or alcoholic beverages for on premise consumption may apply for an exemption from the provisions of this section if more than fifty percent (50%) of the business receipts of such business are from the sale of food. The application for the exemption shall be made to the Council annually when application for the renewal of a liquor control license or beer permit is made. The applicant shall have the burden of showing by competent evidence that the business qualifies for exemption from the regulations of this section.

Caution is urged in the use of this administrative abatement procedure, particularly where cost of abatement is more than minimal or where there is doubt as to whether or not a nuisance does in fact exist. If compliance is not secured following notice and hearings, we recommend you review the situation with your attorney before proceeding with abatement and assessment of costs. Your attorney may recommend proceedings in court under Chapter 657 of the *Code of Iowa* rather than this procedure.

(Code of Iowa, Sec. 364.12[3h])

(Code of Iowa, Sec. 364.12[3h])
7. Installment Payment of Cost of Abatement. 54.02 Definitions

54.03 Registration Requirements

54.04 Security Requirements

54.05 Maintenance Requirements

54.06 Enforcement

54.07 Violations

54.01 PURPOSE. The purpose of this chapter is to protect and preserve the public health, safety, security, and enjoyment of the use of property located within the City of De Soto by residents, visitors, and business by (1) requiring all residential and commercial property owners or title-holders, including lenders and trustees, to have their vacant, foreclosed properties registered with the City of De Soto, if the property registration information has not already been made available to the City of De Soto through other means; and (2) regulating the security and maintenance of residential and commercial vacant, foreclosed properties to prevent blighted and unsecure residences and buildings. The City Council finds that the occurrence of foreclosures may lead to buildings and structures becoming targets for criminal activity. The City Council also finds that foreclosed buildings and structures that remain unoccupied for months or even years are more likely to experience multiple violations of the building, fire, housing and nuisance municipal codes. 57.01 DEFINITIONS. For use in this chapter, the following terms are defined:

1. “Dangerous animal” means[†]:
 - A. Badgers, wolverines, weasels, skunk and mink;
 - B. Raccoons;
 - C. Bats;
 - D. Scorpions.
2. “Vicious animal” means any animal, except for a dangerous animal per se, as listed above, that has attacked, bitten or clawed a person while running at large and the attack was unprovoked, or any animal that has exhibited vicious tendencies in present or past conduct, including such that said animal (a) has bitten more than one person during the animal’s lifetime; or (b) has bitten one person on two or more occasions during the animal’s lifetime; or (c) has attacked any domestic animal or fowl without provocation, causing injury or death while off the property of the owner more than once during the animal’s lifetime. *(Ord. 338 – Jan. 20 Supp.)*

57.02 KEEPING OF DANGEROUS ANIMALS PROHIBITED. No person shall keep, shelter, or harbor any dangerous animal as a pet, or act as a temporary custodian for such animal, or keep, shelter or harbor such animal for any purpose or in any capacity within the City.

57.03 KEEPING OF VICIOUS ANIMALS PROHIBITED. No person shall keep, shelter, or harbor for any reason within the City a vicious animal except in the following circumstances:

1. Animals under the control of a law enforcement or military agency.
2. The keeping of guard dogs; however, guard dogs must be kept within a structure or fixed enclosure at all times, and any guard dog found at large may be processed as a vicious animal pursuant to the provisions of this chapter. Any premises guarded by a guard dog shall be prominently posted with a sign containing the wording “Guard Dog,” “Vicious Dog” or words of similar import, and the owner of such premises shall inform the Mayor or peace officer that a guard dog is on duty at said premises.

[†] **EDITOR’S NOTE:** Certain other dangerous animals, listed in Chapter 717F.1, paragraph 5a, of the *Code of Iowa*, are specifically prohibited and regulated by the Iowa Department of Agriculture and Land Stewardship.

57.04 SEIZURE, IMPOUNDMENT AND DISPOSITION.

1. In the event that a dangerous animal or vicious animal is found at large and unattended upon public property, park property, public right-of-way or the property of someone other than its owner, thereby creating a hazard to persons or property, such animal may, in the discretion of the Mayor or peace officer, be destroyed if it cannot be confined or captured. The City shall be under no duty to attempt the confinement or capture of a dangerous animal or vicious animal found at large, nor shall it have a duty to notify the owner of such animal prior to its destruction.

2. Upon the complaint of any individual that a person is keeping, sheltering or harboring a dangerous animal or vicious animal on premises in the City, the Mayor or peace officer shall cause the matter to be investigated and if after investigation, the facts indicate that the person named in the complaint is keeping, sheltering or harboring a dangerous or vicious animal in the City, the Mayor or peace officer shall order the person named in the complaint to safely remove such animal from the City or destroy the animal within three (3) days of the receipt of such an order. Such order shall be contained in a notice to remove the dangerous or vicious animal, which notice shall be given in writing to the person keeping, sheltering, or harboring the dangerous animal or vicious animal, and shall be served personally or by certified mail. Such order and notice to remove the dangerous animal or vicious animal shall not be required where such animal has previously caused serious physical harm or death to any person, in which case the Mayor or peace officer shall cause the animal to be immediately seized and impounded or killed if seizure and impoundment are not possible without risk of serious physical harm or death to any person.

3. The order to remove a dangerous animal or vicious animal issued by the Mayor or peace officer may be appealed to the Council. In order to appeal such order, written notice of appeal must be filed with the Clerk within three (3) days after receipt of the order contained in the notice to remove the dangerous or vicious animal. Failure to file such written notice of appeal shall constitute a waiver of the right to appeal the order of the Mayor or peace officer.

4. The notice of appeal shall state the grounds for such appeal and shall be delivered personally or by certified mail to the Clerk. The hearing of such appeal shall be scheduled within seven (7) days of the receipt of the notice of appeal. The hearing may be continued for good cause. After such hearing, the Council may affirm or reverse the order of the Mayor or peace officer. Such determination shall be contained in a written decision and shall be filed with the Clerk within three (3) days after the hearing or any continued session thereof.

5. If the Council affirms the action of the Mayor or peace officer, the Council shall order in its written decision that the person owning, sheltering, harboring or keeping such dangerous or vicious animal remove such animal from the City or destroy it. The decision and order shall immediately be served upon the person against whom rendered in the same manner as the notice of removal. If the original order of the Mayor or peace officer is not appealed and is not complied with within three days or the order of the Council after appeal is not complied with within three days of its issuance, the Mayor or peace officer is authorized to seize, impound, or

destroy such dangerous or vicious animal. Failure to comply with an order of the Mayor or peace officer issued pursuant to this chapter and not appealed, or of the Council after appeal, constitutes a simple misdemeanor.

Such pen, kennel, or structure must have secure sides and a secure top attached to the sides or in lieu of a top, walls at least six feet in height and at least six inches taller than any internal structure. All pens or other structures designed, constructed or used to confine vicious dogs must be locked with a key or combination lock when such animals are within the structure. Such structure must have a secure bottom, floor or foundation attached to the sides of the pen or the sides of the pen must be embedded in the ground no less than two (2) feet so as to prevent digging under the walls by the confined dog. All structures erected to house vicious dogs must comply with all zoning and building regulations of the City. All such structures must be adequately lighted and ventilated and kept in a clean and sanitary condition. No vicious dog may be kept on a porch, patio or in any porch of a house or structure that would allow the dog to exit such building on its own volition.
2. **Leashing.** No person shall permit a vicious dog to go outside its kennel or pen unless such dog is securely leashed with a leash no longer than six (6) feet in length. No person shall permit a vicious dog to be kept on a chain, rope, or other type of leash outside its kennel or pen unless both dog and leash are under the actual physical control of a person eighteen years of age or older. Such dogs may not be leashed to inanimate objects such as trees, posts, buildings, or any other object or structure.
3. **At Large.** A vicious dog which is found, more than twice in any calendar year, not to be confined as herein required, shall be destroyed by the City pursuant to this chapter.
4. **Unlicensed.** All unlicensed vicious dogs shall be deemed illegal animals. Said dog will be destroyed by the City pursuant to this chapter.

80.01 DEFINITIONS. For use in this chapter the following terms are defined:

(Code of Iowa, Sec. 321.89[1])

1. “Abandoned vehicle” means any of the following:
 - A. A vehicle that has been left unattended on public property for more than twenty-four (24) hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.
 - B. A vehicle that has remained illegally on public property for more than 24 hours.
 - C. A vehicle that has been unlawfully parked or placed on private property without the consent of the owner or person in control of the property for more than 24 hours.
 - D. A vehicle that has been legally impounded by order of a police authority and has not been reclaimed for a period of ten (10) days. However, a police authority may declare the vehicle abandoned within the ten-day period by commencing the notification process.
 - E. Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.
 - F. A vehicle that has been impounded pursuant to Section 321J.4B of the *Code of Iowa* by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.
2. “Demolisher” means a person licensed under Chapter 321H of the *Code of Iowa* whose business it is to convert a vehicle to junk, processed scrap or scrap metal, or otherwise to wreck, or dismantle vehicles.
3. “Garage keeper” means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.
4. “Police authority” means the Iowa state patrol or any law enforcement agency of a county or city.

80.02 AUTHORITY TO TAKE POSSESSION OF ABANDONED VEHICLES. A police authority, upon the authority’s own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody any abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or

disposing of abandoned vehicles. A property owner or other person in control of private property may employ a private entity which is a garage keeper (as defined in Section 80.01) to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle.

(Code of Iowa, Sec. 321.89[2])

80.03 NOTICE BY MAIL. The police authority or private entity that takes into custody an abandoned vehicle shall notify, within twenty (20) days, by certified mail, the last known registered owner of the vehicle, all lienholders of record, and any other known claimant to the vehicle or to personal property found in the vehicle, addressed to the parties' last known addresses of record, that the abandoned vehicle has been taken into custody. Notice shall be deemed given when mailed. The notice shall describe the year, make, model and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten (10) days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of the notice. The notice shall also state that the failure of the owner, lienholders or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders and claimants of all right, title, claim and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garage keeper's lien as described in Section 321.90 of the *Code of Iowa*, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders or claimants after the expiration of the ten-day reclaiming period.

(Code of Iowa, Sec. 321.89[3a])

80.04 NOTIFICATION IN NEWSPAPER. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under Section 80.03. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in Section 80.03.

(Code of Iowa, Sec. 321.89[3b])

80.05 FEES FOR IMPOUNDMENT. The owner, lienholder, or claimant shall pay three dollars (\$3.00) for each day within the reclaiming period plus towing charges, if stored by the City, or towing and storage fees, if stored in a public garage, whereupon said vehicle shall be

released. The amount of towing charges, and the rate of storage charges by privately owned garages, shall be established by such facility.

(Code of Iowa, Sec. 321.89[3a])

80.06 DISPOSAL OF ABANDONED VEHICLES. If an abandoned vehicle has not been reclaimed as provided herein, the police authority or private entity shall make a determination as to whether or not the motor vehicle should be sold for use upon the highways, and shall dispose of the motor vehicle in accordance with State law.

(Code of Iowa, Sec. 321.89[4])

80.07 DISPOSAL OF TOTALLY INOPERABLE VEHICLES. The City or any person upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost or destroyed, may dispose of such motor vehicle to a demolisher for junk, without a title and without notification procedures, if such motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The applicant shall then apply to the County Treasurer for a junking certificate and shall surrender the certificate of authority in lieu of the certificate of title.

(Code of Iowa, Sec. 321.90[2e])

80.08 PROCEEDS FROM SALES. Proceeds from the sale of any abandoned vehicle shall be applied to the expense of auction, cost of towing, preserving, storing, and notification required, in accordance with State law. Any balance shall be held for the owner of the motor vehicle or entitled lienholder for ninety (90) days, and then shall be deposited in the State Road Use Tax Fund. Where the sale of any vehicle fails to realize the amount necessary to meet costs the police authority shall apply for reimbursement from the Department of Transportation.

(Code of Iowa, Sec. 321.89[4])

80.09 DUTIES OF DEMOLISHER. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk shall junk, scrap, wreck, dismantle, or otherwise demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle, or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

90.01 DEFINITIONS. The following terms are defined for use in the chapters in this Code of Ordinances pertaining to the Water Service System:

1. "Combined service account" means a customer service account for the provision of two or more utility services.
2. "Customer" means, in addition to any person receiving water service from the City, the owner of the property served, and as between such parties the duties, responsibilities, liabilities and obligations hereinafter imposed shall be joint and several.
3. "Superintendent" means the Public Works Superintendent of the City or any duly authorized assistant, agent or representative.
4. "Water main" means a water supply pipe provided for public or community use.
5. "Water service pipe" means the pipe from the water main to the building served.
6. "Water system" or "water works" means all public facilities for securing, collecting, storing, pumping, treating and distributing water.

90.02 SUPERINTENDENT'S DUTIES. The Superintendent shall supervise the installation of water service pipes and their connection to the water main and enforce all regulations pertaining to water services in the City in accordance with this chapter. This chapter shall apply to all replacements of existing water service pipes as well as to new ones. The Superintendent shall make such rules, not in conflict with the provisions of this chapter, as may be needed for the detailed operation of the water system, subject to the approval of the Council. In the event of an emergency the Superintendent may make temporary rules for the protection of the system until due consideration by the Council may be had.

(Code of Iowa, Sec. 372.13[4])

90.03 MANDATORY CONNECTIONS. All residences and business establishments within the City limits intended or used for human habitation, occupancy or use shall be connected to the public water system, if it is reasonably available and if the building is not furnished with pure and wholesome water from some other source.

90.04 ABANDONED CONNECTIONS. When an existing water service is abandoned or a service is renewed with a new tap in the main, all abandoned connections with the mains shall be turned off at the corporation stop and made absolutely watertight.

90.05 PERMIT. Before any person makes a connection with the public water system, a written permit must be obtained from the City. The application for the permit shall include a legal description of the property, the name of the property owner, the name and address of the person who will do the work, and the general uses of the water. If the proposed work meets all the requirements of this chapter and if all fees required under this chapter have been paid, the permit shall be issued. Work under any permit must be completed within sixty (60) days after the permit is issued, except that when such time period is inequitable or unfair due to conditions beyond the control of the person making the application, an extension of time within which to complete the work may be granted. The permit may be revoked at any time for any violation of these chapters.

90.06 CONNECTION CHARGE. Before any permit is issued the person who makes the application shall pay to the Clerk a connection charge in the amount of two hundred dollars (\$200.00) to reimburse the City for costs borne by the City in making water service available to the property served.

(Code of Iowa, Sec. 384.84)

90.07 COMPLIANCE WITH PLUMBING CODE. The installation of any water service pipe and any connection with the water system shall comply with all pertinent and applicable provisions, whether regulatory, procedural or enforcement provisions, of the *International Plumbing Code* and the *City of De Soto Standard Specifications for Street and Utility Improvements*.

90.08 PLUMBER REQUIRED. All installations of water service pipes and connections to the water system shall be made by a plumber licensed by the State.

90.09 EXCAVATIONS. All trench work, excavation and backfilling required in making a connection shall be performed in accordance with the *City of De Soto Standard Specifications for Street and Utility Improvements*.

90.10 TAPPING MAINS. All taps into water mains shall be made by or under the direct supervision of the Superintendent and in accord with the following:

(Code of Iowa, Sec. 372.13[4])

1. Independent Services. No more than one house, building or premises shall be supplied from one tap unless special written permission is obtained from the Superintendent and unless provision is made so that each house, building or premises may be shut off independently of the other.
2. Sizes and Location of Taps. All mains six (6) inches or less in diameter shall receive no larger than a $\frac{3}{4}$ -inch tap. All mains of over six inches in diameter shall receive no larger than a one-inch tap. Where a larger connection than a one-inch tap is desired, two or more small taps or saddles shall be used, as the Superintendent shall order. All taps in the mains shall be made in the top half of the pipe, at least eighteen (18) inches apart. No main shall be tapped nearer than two (2) feet of the joint in the main.

3. Corporation Stop. A brass corporation stop, of the pattern and weight approved by the Superintendent, shall be inserted in every tap in the main. The corporation stop in the main shall be of the same size as the service pipe.
4. Location Record. An accurate and dimensional sketch showing the exact location of the tap shall be filed with the Superintendent in such form as the Superintendent shall require.

90.11 INSTALLATION OF WATER SERVICE PIPE. Water service pipes from the main to the meter setting shall be Type K copper. The use of any other pipe material for the service line shall first be approved by the Superintendent. Pipe must be laid sufficiently waving, and to such depth, as to prevent rupture from settlement or freezing.

90.12 RESPONSIBILITY FOR WATER SERVICE PIPE. All costs and expenses incident to the installation, connection and maintenance of the water service pipe from the main to the building served shall be borne by the owner. The owner shall indemnify the City from any loss or damage that may directly or indirectly be occasioned by the installation or maintenance of said water service pipe.

90.13 FAILURE TO MAINTAIN. When any portion of the water service pipe or curb valve is in need of repair, the property owner shall be notified and given a specific time period in which to repair the same. If the property owner fails to perform such repairs within the specified time period, the City shall shut off the water supply and have the repairs made. Water service shall not be restored until all costs for such repairs have been paid to the City. Alternatively, the City may do the work and assess the costs thereof to the property.

(Code of Iowa, Sec. 364.12[3a & h])

90.14 CURB VALVE. There shall be installed within the public right-of-way a main shut-off valve on the water service pipe of a pattern approved by the Superintendent. The shut-off valve shall be constructed to be visible and even with the pavement or ground. The curb valve shall not be located in or under driveways, sidewalks or other improvements. If the curb valve is subsequently located in or covered by driveways, sidewalks or other improvements, it shall be the responsibility of the current customer to relocate it. If the customer fails to do so, the City may disconnect the water service until the customer complies, or the City may relocate the curb value and assess the cost to the property owner.

90.15 INTERIOR VALVE. There shall be installed a shut-off valve on every service pipe inside the building as close to the entrance of the pipe within the building as possible and so located that the water can be shut off conveniently. Where one service pipe supplies more than one customer within the building, there shall be separate valves for each such customer so that service may be shut off for one without interfering with service to the others.

90.16 INSPECTION AND APPROVAL. All water service pipes and their connections to the water system must be inspected and approved in writing by the Superintendent before they are covered, and the Superintendent shall keep a record of such approvals. If the Superintendent refuses to approve the work, the plumber or property owner must proceed immediately to correct the work. Every person who uses or intends to use the municipal water system shall permit the Superintendent to enter the premises to inspect or make necessary alterations or repairs at all reasonable hours and on proof of authority.

90.17 COMPLETION BY THE CITY. Should any excavation be left open or only partly refilled for twenty-four (24) hours after the water service pipe is installed and connected with the water system, or should the work be improperly done, the City shall have the right to finish or correct the work, and the Council shall assess the costs to the property owner or the

plumber. If the plumber is assessed, the plumber must pay the costs before receiving another permit, and the plumber's bond or cash deposit shall be security for the assessment. If the property owner is assessed, such assessment may be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3a & h])

90.18 SHUTTING OFF WATER SUPPLY. The Superintendent may shut off the supply of water to any customer because of any violation of the regulations contained in these Water Service System chapters that is not being contested in good faith. The supply shall not be turned on again until all violations have been corrected and the Superintendent has ordered the water to be turned on.

90.19 OPERATION OF CURB VALVE AND HYDRANTS. It is unlawful for any person except the Superintendent to turn water on at the curb valve, and no person, unless specifically authorized by the City, shall open or attempt to draw water from any fire hydrant for any purpose whatsoever.

90.20 MAYOR MAY RESTRICT USE OF WATER SERVICE. It is declared that, because of conditions that may prevail in the City, the general welfare requires that the water resources available to the City be put to the maximum beneficial use to the extent to which they are capable when conditions dictate conservation of water supply. The Mayor is authorized and directed to implement restrictions on water use upon the determination that conservation of water is necessary to protect the public welfare and safety. The provisions of this section apply to all persons, customers and property served by the De Soto Water Utility wherever situated. No customer of the water utility shall knowingly make, cause, use or permit the use of water from the City for residential, commercial industrial, agricultural, governmental or any other purpose in a manner contrary to any restriction which is in effect pursuant to action taken by the Mayor in accordance with the provisions of the section. Upon implementation of restrictions of water use pursuant to this section, the Mayor shall cause to be posted the restrictions at the places designated for posting in Section 18.05 of this Code of Ordinances, and the restrictions shall be mailed to City water customers of record. Should the Mayor give personal notification to a water utility customer of the restrictions imposed and the water utility customer does not immediately comply with said restrictions or should the Mayor or other City personnel become aware of a violation of the restrictions on water use after said restrictions have been posted and mailed, the Mayor may cause said water utility customer's water service to be disconnected immediately.

90.21 BACKFLOW PREVENTION.

1. Backflow or Back-siphonage Devices Required.
 - A. Water customers shall prevent pollutants and contaminants from entering their potable water supply system or the City's distribution mains by backflow or back-siphonage.
 - B. All water-using devices must be so designed that back-siphonage or backflow to the system cannot occur.
 - C. Where harmful contaminants or pollutants are used with any device or process connected to the water system, the water customer must install and maintain a reduced pressure backflow prevention device approved by the City.
 - D. All permanently installed underground sprinkling systems shall contain a reduced pressure backflow prevention device approved by the City and so designed that back-siphonage or backflow to the City's system cannot occur.
2. Required Installation. An approved backflow prevention device shall be installed at the water customer's expense under the following circumstances:

- A. For new plants or facilities described under subsection 1(C) or (D) hereof when constructed.
- B. For existing plants or facilities described under subsection 1(C) or (D) hereof when major plumbing changes are made.
- C. For any new or existing residence, plant or facility where a dangerous or potentially dangerous condition is found and where such installation is ordered by the City's Public Water Works personnel.
- 3. Unlawful to Interconnect. It is unlawful to interconnect, in any manner, the municipal water supply to any other source of water.
- 4. Inspection and Maintenance. Customers shall have the responsibility for maintaining their backflow prevention devices in good working order. Periodic testing of the reduced pressure backflow prevention devices may be done by the City at the appropriate intervals as determined by the City Public Works personnel and at such charges as may be established by the City Council. Testing may be requested by the customer for any reduced pressure backflow prevention device which the customer has reason to believe is not in good working order.
- 5. Customer Noncompliance. A customer's water service may be discontinued by the City in the case of noncompliance with any provision of this section. Noncompliance includes, but is not limited to, the following:
 - A. Refusal to allow City personnel access to the property to inspect for purposes of this section.
 - B. Removal of a backflow prevention assembly which has been required by City personnel.
 - C. Bypassing of a backflow prevention assembly which has been required by City personnel.
 - D. Providing inadequate backflow prevention when cross connections exist.
 - E. Failure to install a backflow prevention assembly which has been required by City personnel.
 - F. Failure to test and/or properly repair a backflow prevention assembly as required by City personnel.

91.03 FIRE SPRINKLER SYSTEMS - EXCEPTION. Fire sprinkler systems may be connected to water mains by direct connection without meters under the direct supervision of the Superintendent. No open connection can be incorporated in the system, and there shall be no valves except a main control valve at the entrance to the building which must be sealed open.

91.04 LOCATION OF METERS. All meters shall be so located that they are easily accessible to meter readers and repairmen and protected from freezing. If the meter location is not readily accessible to City personnel, the customer shall be responsible to make the meter readily accessible or to arrange with City personnel to have the meter relocated at the customer's expense. If the meter is found to overrun to the extent of two percent (2%) or more, the cost of the test shall be paid by the City and a refund shall be made to the customer for overcharges collected since the last known date of accuracy but not for longer than three (3) months, plus the meter test deposit. If the meter is found to be

accurate or slow, or less than two percent (2%) fast, the customer deposit shall be forfeited as the reasonable costs of the test, and the customer shall be liable for any deficiency over two percent (2%) up to three (3) months.

(Code of Iowa, Sec. 384.84)

92.07 LIEN EXEMPTION. The lien for nonpayment shall not apply to a residential rental property where water service is separately metered and the rates or charges for the water

service are paid directly to the City by the tenant, if the landlord gives written notice to the City that the property is residential rental property and that the tenant is liable for the rates or charges. The City may require a deposit not exceeding the usual cost of ninety (90) days of water service be paid to the City. The landlord's written notice shall contain the name of the tenant responsible for charges, the address of the rental property and the date of occupancy. A change in tenant shall require a new written notice to be given to the City within thirty (30) business days of the change in tenant. When the tenant moves from the rental property, the City shall refund the deposit if the water service charges are paid in full. A change in the ownership of the residential rental property shall require written notice of such change to be given to the City within ten (10) business days of the completion of the change of ownership. The lien exemption does not apply to delinquent charges for repairs to a water service.

92.08 LIEN NOTICE. A lien for delinquent water service charges shall not be certified to the County Treasurer unless prior written notice of intent to certify a lien is given to the customer in whose name the delinquent charges were incurred. If the customer is a tenant and if the owner or landlord of the property or premises has made a written request for notice, the notice shall also be given to the owner or landlord. The notice shall be sent to the appropriate persons by ordinary mail not less than thirty (30) days prior to certification of the lien to the County Treasurer.

(Code of Iowa, Sec. 384.84)

92.09 CUSTOMER DEPOSITS. There shall be required from every customer a one hundred fifty dollar (\$150.00) deposit intended to guarantee the payment of bills for service.

96.01 PERMIT. No unauthorized person shall uncover, make any connection with or opening into, use, alter, or disturb any public sewer or appurtenance thereof without first obtaining a written permit from the City. The application for the permit shall set forth the location and description of the property to be connected with the sewer system and the purpose for which the sewer is to be used, and shall be supplemented by any plans, specifications, or other information considered pertinent. The permit shall require the owner to complete construction and connection of the building sewer to the public sewer within sixty (60) days after the issuance of the permit, except that when a property owner makes sufficient showing that due to conditions beyond the owner's control or peculiar hardship, such time period is inequitable or unfair, an extension of time within which to comply with the provisions herein may be granted. Any sewer connection permit may be revoked at any time for a violation of these chapters.

96.02 CONNECTION CHARGE. The person who makes the application shall pay to the Clerk a connection charge in the amount of two hundred dollars (\$200.00) to reimburse the City for costs borne by the City in making sewer service available to the property served.

96.04 CONNECTION REQUIREMENTS. The installation of the building sewer and its connection to the public sewer shall conform to the requirements of the *International Plumbing Code*, the laws of the State and the *City of De Soto Standard Specifications for Street and Utility Improvements*.

96.05 SEWER TAP. Connection of the building sewer into the public sewer shall be made at the "Y" branch, if such branch is available at a suitable location. If no properly located "Y" branch is available, a saddle "Y" shall be installed at the location specified by the Superintendent. The public sewer shall be tapped with a tapping machine and a saddle appropriate to the type of public sewer shall be glued or attached with a gasket and stainless steel clamps to the sewer. At no time shall a building sewer be constructed so as to enter a manhole unless special written permission is received from the Superintendent and in accordance with the Superintendent's direction if such connection is approved.

Construction or maintenance of building sewer lines whether located upon the private property of any owner or in the public right-of-way, which construction or maintenance is in violation of any of the requirements of this chapter, shall be corrected, at the owner's expense, within thirty (30) days after date of official notice from the Council of such violation. If not made within such time the Council shall, in addition to the other penalties herein provided, have the right to finish and correct the work and assess the cost thereof to the property owner. Such assessment shall be collected with and in the same manner as general property taxes.

(Code of Iowa, Sec. 364.12[3])

CHAPTER 97

USE OF PUBLIC SEWERS

97.01 Storm Water

97.02 Surface Waters Exception

97.03 Prohibited Discharges

97.04 Restricted Discharges

97.05 Restricted Discharges - Powers

97.06 Special Facilities

97.07 Control Manholes

97.08 Testing of Wastes

97.01 STORM WATER. No person shall discharge or cause to be discharged any storm water, surface water, groundwater, roof run-off, sub-surface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer. Storm water and all other unpolluted drainage shall be discharged to such sewers as are specifically designated as combined sewers or storm sewers, or to a natural outlet approved by the Superintendent. Industrial cooling water or unpolluted process waters may be discharged on approval of the Superintendent, to a storm sewer, combined sewer, or natural outlet.

97.02 SURFACE WATERS EXCEPTION. Special permits for discharging surface waters to a public sanitary sewer may be issued by the Council upon recommendation of the Superintendent where such discharge is deemed necessary or advisable for purposes of flushing, but any permit so issued shall be subject to revocation at any time when deemed to the best interests of the sewer system.

97.03 PROHIBITED DISCHARGES. No person shall discharge or cause to be discharged any of the following described waters or wastes to any public sewers:

1. Flammable or Explosive Material. Any gasoline, benzene, naphtha, fuel oil, or other flammable or explosive liquid, solid, or gas.
2. Toxic or Poisonous Materials. Any waters or wastes containing toxic or poisonous solids, liquids or gases in sufficient quantity, either singly or by interaction with other wastes, to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, create a public nuisance, or create any hazard in the receiving waters of the sewage treatment plant, including but not limited to cyanides in excess of two (2) milligrams per liter as CN in the wastes as discharged to the public sewer.
3. Corrosive Wastes. Any waters or wastes having a pH lower than 5.5 or having any other corrosive property capable of causing damage or hazard to structures, equipment, and personnel of the sewage works.
4. Solid or Viscous Substances. Solid or viscous substances in quantities or of such size capable of causing obstruction to the flow in sewers, or other interference with the proper operation of the sewage works such as, but not limited to, ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feathers, tar, plastics, wood, unground garbage, whole blood, paunch manure, hair and fleshings, entrails and paper dishes, cups, milk containers, etc., either whole or ground by garbage grinders.
5. Excessive B.O.D., Solids or Flow. Any waters or wastes having (a) a five (5) day biochemical oxygen demand greater than three hundred (300) parts per million by weight, or (b) containing more than three hundred fifty (350) parts per million by weight of suspended solids, or (c) having an average daily flow greater than two

percent (2%) of the average sewage flow of the City, shall be subject to the review of the Superintendent. Where necessary in the opinion of the Superintendent, the owner shall provide, at the owner's expense, such preliminary treatment as may be necessary to (a) reduce the biochemical oxygen demand to three hundred (300) parts per million by weight, or (b) reduce the suspended solids to three hundred fifty (350) parts per million by weight, or (c) control the quantities and rates of discharge of such waters or wastes. Plans, specifications, and any other pertinent information relating to proposed preliminary treatment facilities shall be submitted for the approval of the Superintendent and no construction of such facilities shall be commenced until said approvals are obtained in writing.

97.04 RESTRICTED DISCHARGES. No person shall discharge or cause to be discharged the following described substances, materials, waters, or wastes if it appears likely in the opinion of the Superintendent that such wastes can harm either the sewers, sewage treatment process, or equipment, have an adverse effect on the receiving stream or can otherwise endanger life, limb, public property, or constitute a nuisance. In forming an opinion as to the acceptability of these wastes, the Superintendent will give consideration to such factors as the quantities of subject wastes in relation to flows and velocities in the sewers, materials of construction of the sewers, nature of the sewage treatment process, capacity of the sewage treatment plant, degree of treatability of wastes in the sewage treatment plant, and other pertinent factors. The substances restricted are:

1. High Temperature. Any liquid or vapor having a temperature higher than one hundred fifty (150) degrees F (65 degrees C).
2. Fat, Oil, Grease. Any water or waste containing fats, wax, grease, or oils, whether emulsified or not, in excess of one hundred (100) milligrams per liter or six hundred (600) milligrams per liter of dispersed or other soluble matter.
3. Viscous Substances. Water or wastes containing substances which may solidify or become viscous at temperatures between thirty-two (32) and one hundred fifty (150) degrees F (0 and 65 degrees C).
4. Garbage. Any garbage that has not been properly shredded, that is, to such a degree that all particles will be carried freely under the flow conditions normally prevailing in public sewers, with no particle greater than one-half ($\frac{1}{2}$) inch in any dimension.
5. Acids. Any waters or wastes containing strong acid iron pickling wastes, or concentrated plating solution whether neutralized or not.
6. Toxic or Objectionable Wastes. Any waters or wastes containing iron, chromium, copper, zinc, and similar objectionable or toxic substances; or wastes exerting an excessive chlorine requirement, to such degree that any such material received in the composite sewage at the sewage treatment works exceeds the limits established by the Superintendent for such materials.
7. Odor or Taste. Any waters or wastes containing phenols or other taste or odor producing substances, in such concentrations exceeding limits which may be established by the Superintendent as necessary, after treatment of the composite sewage, to meet the requirements of state, federal, or other public agencies of jurisdiction for such discharge to the receiving waters.
8. Radioactive Wastes. Any radioactive wastes or isotopes of such half-life or concentration as may exceed limits established by the Superintendent in compliance with applicable State or Federal regulations.
9. Excess Alkalinity. Any waters or wastes having a pH in excess of 9.5.

10. Unusual Wastes. Materials which exert or cause:
 - A. Unusual concentrations of inert suspended solids (such as, but not limited to, Fullers earth, lime slurries, and lime residues) or of dissolved solids (such as, but not limited to, sodium chloride and sodium sulfate).
 - B. Excessive discoloration (such as, but not limited to dye wastes and vegetable tanning solutions).
 - C. Unusual B.O.D., chemical oxygen demand, or chlorine requirements in such quantities as to constitute a significant load on the sewage treatment works.
 - D. Unusual volume of flow or concentration of wastes constituting "slugs" as defined herein.
11. Noxious or Malodorous Gases. Any noxious or malodorous gas or other substance which either singly or by interaction with other wastes is capable of creating a public nuisance or hazard to life or of preventing entry into sewers for their maintenance and repair.
12. Damaging Substances. Any waters, wastes, materials or substances which react with water or wastes in the sewer system to release noxious gases, develop color of undesirable intensity, form suspended solids in objectionable concentration or create any other condition deleterious to structures and treatment processes.
13. Untreatable Wastes. Waters or wastes containing substances which are not amenable to treatment or reduction by the sewage treatment processes employed, or are amenable to treatment only to such degree that the sewage treatment plant effluent cannot meet the requirements of other agencies having jurisdiction over discharge to the receiving waters.

97.05 RESTRICTED DISCHARGES - POWERS. If any waters or wastes are discharged, or are proposed to be discharged to the public sewers, which waters contain the substances or possess the characteristics enumerated in Section 97.04 and which in the judgment of the Superintendent may have a deleterious effect upon the sewage works, processes, equipment, or receiving waters, or which otherwise create a hazard to life or constitute a public nuisance, the Superintendent may:

1. Rejection. Reject the wastes by requiring disconnection from the public sewage system;
2. Pretreatment. Require pretreatment to an acceptable condition for discharge to the public sewers;
3. Controls Imposed. Require control over the quantities and rates of discharge; and/or
4. Special Charges. Require payment to cover the added cost of handling and treating the wastes not covered by existing taxes or sewer charges under the provisions of Chapter 99.

97.06 SPECIAL FACILITIES. If the Superintendent permits the pretreatment or equalization of waste flows, the design and installation of the plants and equipment shall be subject to the review and approval of the Superintendent and subject to the requirements of all applicable codes, ordinances, and laws. Where preliminary treatment or flow-equalizing facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and effective operation by the owner at the owner's expense.

97.07 CONTROL MANHOLES. When required by the Superintendent, the owner of any property serviced by a building sewer carrying industrial wastes shall install a suitable control manhole together with such necessary meters and other appurtenances in the building sewer to facilitate observation, sampling, and measurement of the wastes. Such manhole, when required, shall be accessibly and safely located, and shall be constructed in accordance with plans approved by the Superintendent. The manhole shall be installed by the owner at the owner's expense, and shall be maintained by the owner so as to be safe and accessible at all times.

97.08 TESTING OF WASTES. All measurements, tests, and analyses of the characteristics of waters and wastes to which reference is made in this chapter shall be determined in accordance with the latest edition of *Standard Methods for the Examination of Water and Wastewater*, published by the American Public Health Association, and shall be determined at the control manhole provided, or upon suitable samples taken at said control manhole. In the event that no special manhole has been required, the control manhole shall be considered to be the nearest downstream manhole in the public sewer to the point at which the building sewer is connected. Sampling shall be carried out by customarily accepted methods to reflect the effect of constituents upon the sewage works and to determine the existence of hazards to life, limb, and property. (The particular analyses involved will determine whether a twenty-four (24) hour composite of all outfalls of a premises is appropriate or whether a grab sample or samples should be taken. Normally, but not always, B.O.D. and suspended solids analyses are obtained from twenty-four (24) hour composites of all outfalls whereas pH's are determined from periodic grab samples).

The Grantee shall have the right, privilege, and authority to lease, rent or in any other manner obtain the use of wooden poles with overhead lines, conduits, trenches, ducts, lines, cables, and other equipment and facilities from any and all holders of public licenses and franchises with the City, and to use such poles, conduits, trenches, ducts, lines, and cables in the course of its business. The Grantee shall install its cable on the existing poles owned by other holders of public licenses and franchises with the City whenever possible for the installation of its cable. When installation of cable on poles is insufficient, or when holders of other public licenses or franchises have installed underground cable, then in that event, the cable used by the Grantee shall be installed underground.

113.15 RESTORATION OF GROUND SURFACE. In case of any disturbance of pavement, sidewalk, driveway or other surfacing, the Grantee shall, at its own cost and expense and in a manner approved by the City, replace and restore all paving, sidewalk, driveway, or surface of any street or alley disturbed, in as good a condition as before said work was commenced.

113.16 ALTERATION OF GRADE. In the event that during the term of the franchise, the City shall elect to alter or change the grade of any street, alley, or public way, the Grantee, upon reasonable notice by the City, shall remove, relay, and relocate its poles, wires, cables, underground conduits, manholes, and other fixtures at its own expense.

113.17 TEMPORARY REMOVAL OF CABLES. The Grantee shall, on the request of any person holding a building moving permit issued by the City, temporarily raise or lower its cables to permit the moving of buildings. The expense of such temporary removal, raising, or lowering of cables shall be paid by the person requesting the same and the Grantee shall have the authority to require such payment in advance. The Grantee shall be given not less than five (5) days' advance notice to arrange for such temporary cable changes.

113.18 TREE TRIMMING. The Grantee shall have the authority to trim trees upon and overhanging streets, alleys, sidewalks, and public places of the City so as to prevent the branches of such trees from coming in contact with the cables of the Grantee. All trimming shall be done at the expense of the Grantee.

113.19 LINE EXTENSIONS. It shall be the obligation of the Grantee to serve all residents of the City except to the extent that density of homes, adverse terrain or other factors render providing service impracticable, technically unfeasible or economically noncompensatory. For purposes of determining compliance with the provisions of this section, and to provide for a reasonable and nondiscriminatory policy governing extensions of cable service within the City, Grantee shall extend service to new subscribers at the normal installation charge and monthly rate for customers of that classification where there is an average of thirty-five (35) homes per each linear mile of new cable construction. In the event the requirements of this section are not met, extensions of service shall be required only on a basis which is reasonable and compensatory.

113.20 SERVICE REQUIREMENTS. During the term of the franchise, the Grantee shall furnish reasonable, adequate and efficient cable television service to subscriber terminals. This requirement may be temporarily suspended due to circumstances beyond the control of the Grantee.

113.21 PERFORMANCE STANDARDS. The Grantee shall produce a picture in black and white or in color that is of high quality accompanied by proper sound on typical standard television sets in good repair. The Grantee shall also transmit signals of adequate strength to produce good pictures with good sound at all subscriber terminals throughout the City without causing cross modulation in the cables or interfering with other electrical or electronic systems.

113.22 CHANNEL CAPACITY AND PERFORMANCE. During the term of the franchise, the cable television system of the Grantee shall conform to the channel capacity and performance requirements contained in the then current regulations of the FCC.

113.23 INSTALLATION AND MAINTENANCE OF SUBSCRIBER TERMINALS IN CITY BUILDINGS AND SCHOOLS. During the franchise, the Grantee shall at its sole cost, install and maintain a subscriber terminal in such buildings owned or used by the City, and in such buildings owned or used by recognized educational authorities within the City, both public and private, as may be designated by the governing body having jurisdiction thereof. Such subscriber terminals shall be placed in such location within such buildings as may be designated by the governing body having jurisdiction thereof. This provision is meant to apply only to those buildings accessible to Grantee's system.

113.24 TELECAST OF EDUCATIONAL ACTIVITIES. The Grantee shall not cablecast, tape, reproduce or otherwise convey to its subscribers the activities of any recognized educational authority, public or private, without the written consent of the governing body of such authority.

113.25 PROGRAM ALTERATION. Any signal received by the Grantee from a television broadcast station shall be cablecast by the Grantee in its entirety, as received, without alteration.

113.26 SUBSCRIBER RATES AND CHARGES. All basic rates and charges made by the Grantee for its services shall be fair, reasonable, just and uniform, designed to meet all necessary costs of service, including a fair rate of return on net valuation of its properties devoted thereto under efficient and economic management.

113.27 SERVICE RULES AND REGULATIONS. The Grantee shall have the right to prescribe reasonable service rules and regulations and operating rules for the conduct of its business. Such rules and regulations shall be consistent with the terms and conditions of the franchise. The Grantee shall file such rules and regulations, and all amendments thereto, with the City.

113.28 SERVICE AGREEMENTS. The Grantee shall have the right to prescribe a reasonable form of service agreement for use between the Grantee and its subscribers. Such service agreement shall be consistent with the terms and conditions of the franchise.

113.29 PAYMENTS TO CITY. The Grantee shall pay to the City one percent (1%) of its annual "basic monthly cable television service" revenue for the service rendered to customers located within the City. All payments as required by the Grantee to the City shall be made annually and shall be due forty-five (45) days after the close of the year. For the purpose of this section, "basic monthly cable television service" is the provision of television broadcast signals and access and origination channels, if any, and does not include advertising services, rental of studios or equipment, provision of program production services, per-channel or per-program charges to subscribers ("pay cable"), rental of channels, sale of channel time, provision of commercial services such as security systems, or any other services of the system.

113.30 INJURY TO PROPERTY OF THE GRANTEE. No person shall wrongfully or unlawfully injure the property of the Grantee.

113.31 INTERCEPTING SIGNALS OF THE GRANTEE. No person shall wrongfully or unlawfully intercept the signals of the Grantee.

113.32 FILING OF REPORTS. On or before April 1 of each year, the Grantee shall file with the City copies of FCC Form 325 and FCC Form 326 for the preceding calendar year.

113.33 FILING OF MAPS AND PLATS. On or before April 1 of each year, the Grantee shall file with the City maps and plats showing the location and nature of all new property of the Grantee within the City as of the end of the preceding calendar year.

113.35 ACCESS. The Grantee shall and does hereby grant to the City the right to enter upon the property of the Grantee, upon reasonable notice, at any and all reasonable times to inspect the same for purposes pertaining to the rights of the City.

113.36 DISCRIMINATION PROHIBITED. The Grantee shall not grant any undue preference or advantage to any person, nor subject any person to prejudice or disadvantage with respect to rates, charges, services, service facilities, rules, regulations, or in any other respect.

113.37 OTHER BUSINESS ACTIVITIES PROHIBITED. During the initial term of the franchise or any extension thereof, the Grantee shall not engage in the business of selling, leasing, renting or servicing television or radio receivers, or their parts and accessories, and the Grantee shall not require or attempt to direct its subscribers to deal with any particular person or firm with respect to said activities.

113.38 ARBITRATION. Any controversy between the City and the Grantee regarding the rights, duties and liabilities of either party under the franchise shall be settled by arbitration. This section shall not apply to termination proceedings under Section 113.10. Such arbitration shall be before three (3) disinterested arbitrators, one (1) named by the City, one (1) named by the Grantee, and one (1) named by the two (2) thus chosen. The decision of the arbitrators shall be conclusive and shall be enforced in accordance with the laws of the State.

113.39 RESERVATIONS. The right is reserved to the Council to adopt, in addition to the provisions contained herein and in existing applicable ordinances, such additional regulations as it shall find necessary in the exercise of the police power.

114.06 Cable Programming Service Tier	114.13 Inconsistent Provisions
114.07 Delegation of Powers Permitted	

114.01 PURPOSE. The Cable Television Consumer Protection and Competition Act of 1992 [Public Law 102-385] amended the Communications Act of 1934 [as codified in 47 United States Code §§521 et. seq.] and changed the manner in which cable television systems that are not subject to effective competition are regulated. The establishment of rates for the basic service tier and associated equipment now is subject to regulation by local governments acting as franchising authorities. It is determined that cable television operators doing business in the City should be subject to regulation by the City.

114.02 FRANCHISING AUTHORITY. The Council shall act as and shall exercise the powers of the Franchising Authority.

114.03 ADMINISTRATION OF RULES AND REGULATIONS. The Franchising Authority has the legal authority to administer and shall enforce against any non-municipally owned cable television system operator, as permitted therein, the provisions of Part 76, Subpart N of the Rules and Regulations of the Federal Communications Commission, concerning Cable Rate Regulation, 47 Code of Federal Regulations §§76.900 et. seq., as they currently read and hereafter may be amended, which are herewith incorporated by reference.

114.04 RATE REGULATION PROCEEDINGS. Any rate regulation proceedings conducted under Section 114.03 shall provide a reasonable opportunity for consideration of the views of any interested party, including but not limited to, the Franchising Authority or its designee, the Cable Operator, subscribers, and residents of the franchise area. In addition to all other provisions required by the laws of the State of Iowa and by this Code of Ordinances, and in order to provide for such opportunity for consideration of the views of any interested party, the Franchising Authority shall take the following actions:

1. The Franchising Authority shall publish in a newspaper of general circulation in the City, post in a conspicuous place in the City Hall, and mail, by certified mail, to the Cable Operator a public notice of the intent to conduct a public proceeding on basic service tier rates and/or charges for equipment to receive such basic service tier, as defined by the Federal Communications Commission ("FCC").
2. The public notice shall state, among other things, that cable television rates are subject to municipal review and explain the nature of the rate review in question;

CHAPTER 114 REGULATION OF CABLE TELEVISION RATES AND ESTABLISHMENT OF
CUSTOMER SERVICE STANDARDS

that any interested party has a right to participate in the proceeding; that public views may be submitted in the proceeding, explaining how they are to be submitted and the deadline for submitting any such views; that a decision concerning the reasonableness of the cable television rates in question will be governed by the Rules and Regulations of the FCC; and that the decision of the Franchising Authority is subject to review by the FCC.

3. The Franchising Authority shall conduct a public proceeding to determine whether or not the rates or proposed rate increases are reasonable. The Franchising Authority may delegate by resolution the responsibility to conduct the proceeding to any duly qualified and eligible individual(s) or entity. If the Franchising Authority or its designee cannot determine the reasonableness of a proposed rate increase within the time period permitted by the FCC Rules and Regulations, it may toll the effective date of the proposed rates for an additional period of time as permitted by the FCC Rules and Regulations, and issue any other necessary or appropriate order and give public notice accordingly.

4. In the course of the rate regulation proceeding, the Franchising Authority may request additional information from the Cable Operator that is reasonably necessary to determine the reasonableness of the basic service tier rates and equipment charges. Any such additional information submitted to the Franchising Authority shall be verified by an appropriate official of the cable television system supervising the preparation of the response on behalf of the entity, and submitted by way of affidavit or under penalty of perjury, stating that the response is true and accurate to the best of that person's knowledge, information and belief formed after reasonable inquiry.

5. The Franchising Authority may request proprietary information, provided that the Franchising Authority shall consider a timely request from the Cable Operator that said proprietary information shall not be made available for public information, consistent with the procedures set forth in Section 0.459 of the FCC Rules and Regulations. Furthermore, said proprietary information may be used only for the purpose of determining the reasonableness of the rates and charges or the appropriate rate level based on a cost-of-service showing submitted by the Cable Operator.

6. The Franchising Authority may exercise all powers under the laws of evidence applicable to administrative proceedings under the laws of the State of Iowa and by this Code of Ordinances to discover any information relevant to the rate regulation proceeding, including, but not limited to, subpoena, interrogatories, production of documents, and deposition.

7. Upon termination of the rate regulation proceeding, the Franchising Authority shall adopt by resolution and release a written decision as to whether or not the rates or proposed rate increase are reasonable or unreasonable, and, if unreasonable, its remedy, including prospective rate reduction, rate prescription, and refunds.

8. The Franchising Authority may not impose any fines, penalties, forfeitures or other sanctions, other than permitted by the FCC Rules and Regulations, for charging an unreasonable rate or proposing an unreasonable rate increase. However, the Franchising Authority may impose monetary fines on a Cable Operator that does not comply with a rate decision or refund order of the Franchising Authority, directed specifically at the Cable Operator, pursuant to the laws of the State of Iowa and Section 1.10 of this Code of Ordinances. Each day a given violation continues shall be considered a separate offense.

9. Consistent with FCC Rules and Regulations, the Franchising Authority's decision may be reviewed only by the FCC.

CHAPTER 114 REGULATION OF CABLE TELEVISION RATES AND ESTABLISHMENT OF CUSTOMER SERVICE STANDARDS

10. The Franchising Authority shall be authorized, at any time, whether or not in the course of a rate regulation proceeding, to gather information as necessary to exercise its jurisdiction as authorized by the laws of the State of Iowa, the Communications Act of 1934, as amended, and the FCC Rules and Regulations. Any information submitted to the Franchising Authority shall be verified by an appropriate official of the cable television system supervising the preparation of the response on behalf of the entity, and submitted by way of affidavit or under penalty of perjury, stating that the response is true and accurate to the best of that person's knowledge, information and belief formed after reasonable inquiry.

114.05 CERTIFICATION TO FCC AND CABLE OPERATOR. The Franchising Authority shall file with the FCC the required certification form (FCC Form 328) on September 1, 1993, or as soon thereafter as appropriate. Thirty days later, or as soon thereafter as appropriate, the Franchising Authority shall notify the Cable Operator that the Franchising Authority has been certified by the FCC and that it has adopted all necessary regulations so as to begin regulating basic service tier cable television rates and equipment charges.

114.06 CABLE PROGRAMMING SERVICE TIER. With regard to the cable programming service tier, as defined by the Communications Act of 1934, as amended, and the FCC Rules and Regulations, and over which the Franchising Authority is not empowered to exercise rate regulation, the Cable Operator shall give notice to the Franchising Authority of any change in rates for the cable programming service tier or tiers, any change in the charge for equipment required to receive the tier or tiers, and any changes in the nature of the services provided, including the program services included in the tier or tiers. Said notice shall be provided within five (5) business days after the change becomes effective.

114.07 DELEGATION OF POWERS PERMITTED. The Franchising Authority may delegate by resolution its powers to enforce this chapter to municipal employees or officers (the "cable official"). The cable official will have the authority to:

1. Administer oaths and affirmations;
2. Issue subpoenas;
3. Examine witnesses;
4. Rule upon questions of evidence;
5. Take or cause depositions to be taken;
6. Conduct proceedings in accordance with this chapter;
7. Exclude from the proceeding any person engaging in contemptuous conduct or otherwise disrupting the proceedings;
8. Hold conferences for the settlement or simplification of the issues by consent of the parties; and
9. Take actions and make decisions or recommend decisions in conformity with this chapter.

114.08 ENFORCEMENT OF CUSTOMER SERVICE STANDARDS. The Franchising Authority shall enforce the customer service standards set forth in the FCC regulations promulgated in 47 Code of Federal Regulations §76.309(c), as they currently read and hereafter may be amended. The Cable Operator shall be subject to the customer service standards of this chapter ninety (90) days after the Franchising Authority has provided the Cable Operator with written notice of its intent to enforce the standards.

CHAPTER 114 REGULATION OF CABLE TELEVISION RATES AND ESTABLISHMENT OF
CUSTOMER SERVICE STANDARDS

114.09 CABLE TELEVISION CUSTOMER SERVICE STANDARDS. A Cable Operator shall be subject to the following customer service standards:

1. Cable System Office Hours and Telephone Availability.
 - A. The Cable Operator will maintain a local, toll-free or collect call telephone access line which will be available to its subscribers 24 hours a day, seven days a week.
 - (1) Trained company representatives will be available to respond to customer telephone inquiries during normal business hours.
 - (2) After normal business hours, the access line may be answered by a service or an automated response system, including an answering machine. Inquiries received after normal business hours must be responded to by a trained company representative on the next business day.
 - B. Under normal operating conditions, telephone answer time by a customer representative, including wait time, shall not exceed thirty (30) seconds when the connection is made. If the call needs to be transferred, transfer time shall not exceed thirty (30) seconds. These standards shall be met no less than ninety percent (90%) of the time under normal operating conditions, measured on a quarterly basis.
 - C. The Cable Operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.
 - D. Under normal operating conditions, the customer will receive a busy signal less than three percent (3%) of the time.
 - E. Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.
2. Installations, Outages and Service Calls. Under normal operating conditions, each of the following four standards will be met no less than ninety-five percent (95%) of the time measured on a quarterly basis:
 - A. Standard installation will be performed within seven (7) business days after an order has been placed. "Standard" installations are those that are located up to 125 feet from the existing distribution system.
 - B. Excluding conditions beyond the control of the Cable Operator, the Cable Operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The Cable Operator must begin actions to correct the service problems the next business day after notification of the service problem.
 - C. The "appointment window" alternatives for installations, service calls, and the installation activities will be either a specific time or, at maximum, a four-hour time block during normal business hours. The Cable Operator may schedule service calls and other installation activities outside of normal business hours for the express convenience of the customer.
 - D. A Cable Operator may not cancel an appointment with a customer after the close of business on the business day prior to the scheduled appointment.

CHAPTER 114 REGULATION OF CABLE TELEVISION RATES AND ESTABLISHMENT OF
CUSTOMER SERVICE STANDARDS

E. If a Cable Operator representative is running late for an appointment with a customer and will not be able to keep the appointment as scheduled, the customer will be contacted. The appointment will be rescheduled, as necessary, at a time which is convenient for the customer.

3. Communications Between Cable Operators and Cable Subscribers.

A. The Cable Operator shall provide written information on each of the following areas at the time of installation of service, at least annually to all subscribers, and at any time upon request:

- (2) Prices and options for programming services and conditions of subscription to programming and other services;
- (3) Installation and service maintenance policies;
- (4) Instructions on how to use the cable service;
- (5) Channel positions of programming carried on the system; and
- (6) Billing and complaint procedures, including the address and telephone number of the Franchising Authority's office [City Hall].

Customers will be notified of any changes in rates, programming services or channel positions as soon as possible through announcements on the cable system and in writing. Notice must be given to subscribers a minimum of thirty (30) days in advance of such changes if the change is within the control of the Cable Operator. In addition, the Cable Operator shall notify subscribers thirty (30) days in advance of any significant changes in the other information required by this subsection.

B. Bills will be clear, concise and understandable. Bills must be fully itemized, with itemizations including, but not limited to, basic and premium service charges and equipment charges. Bills will also clearly delineate all activity during the billing period, including optional charges, rebates and credits. In case of a billing dispute, the Cable Operator must respond to a written complaint from a subscriber within thirty (30) days.

C. Refund checks will be issued promptly, but no later than either:

- (1) The customer's next billing cycle following resolution of the request or thirty (30) days, whichever is earlier, or
- (2) The return of the equipment supplied by the Cable Operator if service is terminated.

D. Credits for service will be issued no later than the customer's next billing cycle following the determination that a credit is warranted.

4. Definitions.

A. "Normal business hours" means those hours during which most similar businesses in the community are open to serve customers. In all cases, "normal business hours" must include some evening hours at least one night per week and/or some weekend hours.

B. "Normal operating conditions" means those service conditions which are within the control of the Cable Operator. Those conditions which are *not* within the control of the Cable Operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and

C. “Service interruption” means the loss of picture or sound on one or more cable channels.

114.10 FILING OF CUSTOMER SERVICE COMPLAINTS. Any customer may file a complaint regarding service with the Franchising Authority, which will, in turn, forward the complaint to the Cable Operator. Any customer may file a service complaint directly with the Cable Operator, in which event the Cable Operator shall, within five (5) days of receipt, forward a copy of the complaint to the Franchising Authority.

114.11 CABLE OPERATOR’S RESPONSE TO SERVICE COMPLAINT. The Cable Operator shall immediately respond to any customer’s service complaint, and shall, within thirty (30) days of its receipt of the complaint, cure any deficiency in the customer service standards prescribed in Section 114.09. The Cable Operator shall, within thirty (30) days of its receipt of the complaint and in writing, notify the Franchising Authority of the disposition of the complaint.

114.12 FAILURE TO CURE DEFICIENCY IN STANDARDS. Any Cable Operator which fails within thirty (30) days of receipt of a complaint to cure any deficiency in the customer service standards prescribed in Section 114.09 shall be in violation of this Code of Ordinances. Each day a given violation continues shall be considered a separate offense.

114.13 INCONSISTENT PROVISIONS. Insofar as the provisions of this chapter are inconsistent with any other provisions of the Code of Ordinances, the provisions of this chapter shall be controlling.

142.01 PURPOSE. The City's right-of-way is held by the City primarily for the purpose of pedestrian and vehicular passage and for the City's provision of essential public safety services, including police, fire, and emergency medical response services, and public health services, including sanitary sewer, water, and storm drainage. Further, the purpose is to eliminate parking problems on streets and improve the ability of the City to remove snow from streets. This chapter shall provide standards for mailboxes in order to maintain the safety and the visual character of the City's right-of-ways.

142.02 DEFINITIONS. For use in this chapter, the following terms are defined

1. "Breakaway support" means a supporting post which shall be no larger than a 4" x 4" wood post or a metal post with a strength no greater than a 2-inch diameter Schedule 40 steel pipe and which is buried no more than 24 inches deep. Such a support post shall not be set in concrete unless specifically designed as a breakaway support system as defined in *A Guide for Erecting Mailboxes on Highways* published by the American Association of State Highway and Transportation Officials, current addition (AASHTO).
2. "Clear zone" means an unobstructed flat area adjacent to the traveled portion of a roadway that is used for the recovery of errant vehicles, as defined by AASHTO.

Cluster-style mailboxes must be manufactured cluster-style mailboxes approved by both the City and the USPS.
4. "Curbside mailbox" means a mailbox consisting of a lightweight sheet metal or plastic box meeting the specifications of the USPS with the inscriptions plainly legible "U.S. MAIL" and "APPROVED BY THE POSTMASTER GENERAL," which is erected at the edge of a roadway or curbside of a street and is mounted on a breakaway support post, and is intended or used for the collection of mail and is to be served by a mail carrier from a vehicle.
5. "Custom-built individual mailbox" means a mailbox erected at the edge of a roadway or curbside of a street constructed using materials that do not meet the definition of a curbside mailbox and breakaway support.
6. "Custom-built cluster mailbox" means a multiple number (two or more) of mailboxes erected at the edge of a roadway or curbside of a street being constructed of materials

that do not meet the definition of a cluster-style mailbox and has no breakaway support.

142.03 CLUSTER-STYLE MAILBOX REQUIRED IN NEW DEVELOPMENTS.

1. Residential Developments. All new residential developments platted or in the site plan stage after the enactment of the regulations contained in this chapter which are situated on any cul-de-sac, street, avenue, or other roadway that is maintained or approved by the City and receive curbside delivery of mail shall have cluster-style mailboxes. Any housing development constructed and already receiving mail service before the regulations in this chapter are enacted is not required to have cluster-style mailboxes.
2. Commercial Developments. All new commercial developments platted or in the site plan stage after the enactment of the regulations contained in this chapter which wish to receive delivery of mail shall make provisions for the delivery of their mail within the development and off the public streets or right-of-ways where possible. Where there is more than one commercial establishment, cluster-style mailboxes will be required. Approval is required by the U.S. Post Office as well as the Planning and Zoning Commission and City Council.

142.04 CLUSTER-STYLE MAILBOX REQUIREMENTS. Cluster-style mailboxes serving housing developments situated on any public street or roadway shall be located between the sidewalk and curb, outside of the three-foot clear zone. Cluster-style mailboxes shall have a four-foot concrete access from the public street and the public sidewalk. The location of the cluster-style mailboxes shall not exceed 600 feet from the property line of those residents served by that cluster-style mailbox. Cluster-style boxes shall typically be located on property lines on the same side as the “no parking” areas. The location of the cluster-style mailbox shall be noted and become part of the requirements of Chapter 166, Subdivision Regulations, of this Code of Ordinances and shall follow the requirements as set out in that chapter. Further, prior to submission of the preliminary plat, approval of the USPS must be obtained and attached with the plat. In the case where the final plat is approved with a performance bond, that bond shall cover the mailboxes and the installation shall occur prior to any occupancy permit being issued for a home in the plat. Mailboxes shall be installed prior to any occupancy permit being issued for any other building requiring cluster-style mailboxes. The cost of installation, including but not limited to box units and concrete pad, shall be borne by the developer, and subsequent maintenance shall be carried out by the USPS. The Portland Cement Concrete pad and associated sidewalk shall conform to the detail below unless otherwise specified on the Preliminary Plat.

CLUSTER MAILBOX PADS

MAILBOXES SHALL FACE SOUTH OR EAST
AS SHOWN ON PLAT

142.05 VISIBILITY; OBSTRUCTION. All cluster-style mailboxes must be erected:

1. Away from the intersection of any street and, in no case closer than 100 feet measured from the center of the intersection in order to prevent obstruction of free and clear vision; and
2. Away from any location where, by reason of its position, shape, or color, it may interfere with, obstruct the view of traffic, or be confused with any authorized traffic sign, signal, or device.

142.06 DRIVEWAY OR STREET ACCESS LIMITATIONS. No driveway or street access shall be constructed within five feet of the cluster-style mailboxes.**142.07 CURBSIDE MAILBOX REQUIREMENTS.** While curbside mailboxes may be installed in developments constructed and already receiving mail service before the adoption of this chapter, the mailbox owner must comply with the following installation requirements:

1. The bottom of the mailbox shall be 41 inches to 45 inches from the road surface. On streets without curbs, the bottom of the mailbox shall be 48 inches from the edge of pavement, as defined by USPS installation requirements.
2. Lateral placement of the face of the mailbox shall be 6 inches minimum from the back of the curb, as defined by USPS installation requirements.
3. The mailbox support post shall be of a breakaway support design, as defined by ASHTO.
4. The post-to-box attachment shall be of sufficient strength to prevent the box from separating from the post if a vehicle strikes the post.
5. Property owner shall be responsible for the maintenance of the curbside mailbox.

142.08 CUSTOM-BUILT INDIVIDUAL MAILBOX REQUIREMENTS. A custom-built individual mailbox may not be installed in developments constructed and already receiving mail service before the adoption of this chapter. If a custom-built individual mailbox existed at the time of the enactment of the ordinance codified in this chapter, the custom-built mailbox will be grandfathered and allowed to stay. However, should the mailbox sustain 50% damage, the custom-built mailbox may not be replaced. Property owners shall be responsible for the maintenance of the custom-built mailbox. If the mailbox is damaged by the City beyond use, a standard curbside mailbox and breakaway post as defined in this chapter will be provided or the property owner may be reimbursed up to a maximum replacement amount set by the Council.**142.09 CUSTOM-BUILT CLUSTER MAILBOX REQUIREMENTS.** A custom-built cluster mailbox may not be installed unless specifically approved by City Council on a Site Plan in accordance with Chapter 156 of this Code of Ordinances. The Homeowner's Association owner shall be responsible for the maintenance of the custom-built mailbox. The City shall not be responsible for any damage to custom-built cluster mailboxes.**142.10 RESPONSIBILITIES OF PROPERTY OWNER.** Any type of mailbox located in the City right-of-way is subject to damage or destruction, at any time, as a result of entrance upon the City right-of-way by the City or a person with a utility easement to construct, repair, or maintain the utilities located in the City right-of-way or as a result of the City's engaging in activities to maintain the public street or right-of-way, such as snow removal, pavement repair, or street cleaning. If a curbside or cluster-style mailbox located in the City right-of-way is damaged during such activities, the City or the utility that damaged the mailbox shall replace said mailbox with a mailbox of the same design, if it has been approved for installation by the USPS with the proper markings inscribed "U.S. MAIL" and "APPROVED BY THE

POSTMASTER GENERAL” and if it is still available for purchase and complies with this chapter. Property owner may choose to be reimbursed in full or have the City reinstall a new mailbox meeting stated requirements. If the property owner chooses to purchase an approved mailbox and be reimbursed, the City will install the mailbox at the property owner’s request.

142.11 SNOW REMOVAL. It is the responsibility of the adjoining property to clear the snow and accumulations from the sidewalk and pad around the cluster-style mailboxes within 24 hours after the snow has ceased to fall.

156.01 PURPOSE AND APPLICATION. It is the intent and purpose of this chapter to establish a procedure which will enable the City to review certain proposed improvements to property within specified zoning districts of the City to insure compliance with all applicable zoning, subdivision and building regulations. Site plans shall only be required whenever any person proposes to place any structure for which a building permit is required under any other section of this Code, on any tract or parcel of and within any district of the De Soto Zoning Ordinance, and for any use, except one- and two-family dwellings.

156.02 DESIGN STANDARDS. The standards of design provided herein are necessary to insure the orderly and harmonious development of property in such manner as will safeguard property values and the public's health, safety and general welfare.

1. The design of the proposed improvements shall make adequate provisions for surface and subsurface drainage, for connections to water and sanitary sewer lines, each so designed as to neither overload existing public utility lines nor increase the danger of erosion, flooding, landslide or other endangerment of adjoining or surrounding property.
2. The proposed improvements shall be designed and located within the property in such manner as not to unduly diminish or impair the use and enjoyment of adjoining property, and to this end shall minimize the adverse effects on such adjoining property from automobile headlights, illumination of required perimeter yards, refuse containers and impairment of light and air. For the purpose of this section, the term "use and enjoyment of adjoining property" means the use and enjoyment presently being made of such adjoining property, unless such property is vacant. If vacant, the term "use and enjoyment of adjoining property" means those uses permitted under the zoning districts in which such adjoining property is located.
3. The proposed development shall have such entrances and exits upon adjacent streets and such internal traffic circulation pattern as will not unduly increase congestion on adjacent or surrounding public streets.
4. To such end as may be necessary and proper to accomplish the standards in subsections 1, 2, and 3 above, the proposed development shall provide fences, walls, screening, landscaping, erosion control or other improvements.
5. The proposed development shall conform to all applicable provisions of the Code of Iowa, as amended, and all applicable provisions of this Code of Ordinances, as amended.

6. Any public improvements completed with the development shall be constructed in accordance with the Urban Design Standards and Urban Standard Specifications for Public Improvements.
7. The design of the proposed improvements shall include storm water facilities to insure that downstream properties are not subjected to storm water flows above current undeveloped levels. Detention facilities shall be designed in accordance with the Urban Design Standards for Public Improvements.

156.03 REQUIRED INFORMATION. All site plans required under Section 156.01 of this chapter, unless waived by the City Council, shall include as a minimum the following information:

1. Date of preparation, north point and scale.

Include finished floor elevations.
8. Existing and proposed utility lines and easements in accordance with the Land Subdivision Regulations.
9. Total number and type of dwelling units proposed; proposed uses for all buildings; total floor area of each building; estimated number of employees for each proposed use where applicable; and any other information which may be necessary to determine the number of off-street parking spaces and loading spaces required by the Zoning Ordinance.

Location, shape, and all exterior elevation views of all proposed buildings, for the purpose of understanding the structures, the location of windows, doors, overhangs, projection height, etc. and the grade relationship to floor elevation, and the number of stories of each existing building to be retained and of each proposed building.
11. All required yard setbacks.
12. Location, grade and dimensions of all existing and proposed paved surfaces and all abutting streets. All objects and structures extended from the original structure plan such as decks, porches, stoops and the like. *(Ord. 332 – Oct. 18 Supp.)*
13. Complete traffic circulation and parking plan, showing the location and dimensions of all existing and proposed parking stalls, loading areas, entrance and exit drives, sidewalks, dividers, planters, and other similar permanent improvements.
14. Locations and dimensions of all storm water and detention facilities. Include flow path slopes, elevations and connections to existing storm sewers or channels. Submit a design report that includes the pipe sizing and detention calculations.

- letters and logos and the full message to appear on the sign. Description of materials and colors of background and letters. Also the means and magnitude of illumination. Exemption: On buildings being constructed for future lease to multiple tenants, the developer will propose, and have approved, a signage theme for the entire property, and the specific signage for individual tenants will be reviewed and approved before a Certificate of Occupancy is issued to that particular tenant.
16. Lighting plan: Provide a site lighting plan, indicating location, type, fixture height, power rating and shielding method of all existing and proposed lighting. Show elevation drawing or manufacturer's photo of each fixture, including its material and color.

Location of all outside mechanical equipment, roof equipment, electrical equipment, and alternative energy sources such as solar panels or wind mills, including the means of screening.
(Ord. 332 – Oct. 18 Supp.)
 22. Location, amount and type of any proposed landscaping. Location of plantings, fences, walls, or other screening as required by the Zoning regulations and the design standards set forth in Section 156.02 of this chapter. Location of Knox Box(s). (Ord. 332 – Oct. 18 Supp.)
 23. A vicinity map at a scale of 1" = 500' or larger, showing the general location of the property, and the adjoining land uses and zoning.
 24. Soil tests and similar information, if deemed necessary by the City Engineer, to determine the feasibility of the proposed development in relation to the design standards set forth in Section 156.02 of this chapter.
 25. Where possible ownership or boundary problems exist, as determined by the City Engineer, a property survey by a licensed land surveyor may be required.
 26. Location of erosion control measures and details of the surface restoration.
 27. Additional Information, drawings, or other materials necessary to describe a proposed project may be requested by the Planning and Zoning Commission or staff. The applicant may include additional information or materials such as sketches, videos, models or photos, if they help explain the proposal.

156.04 OPEN SPACE, LANDSCAPING, PARKING AND ARCHITECTURAL REQUIREMENTS. The requirements set forth in this section for open spaces, landscaping, parking and architectural standards shall apply to any development or redevelopment except one- and two-family dwellings.

1. Open Space Required. On each lot, except for one- and two-family dwellings, there shall be provided open space equal to at least the minimum required in the Zoning Ordinance for each district. Said open space shall be unencumbered with any structure, or off-street parking or roadways and drives, and shall be landscaped and

maintained with grass, trees and shrubbery. When the entire lot is not developed, the open space requirement shall be based in proportion to the area of the improved portion of the lot. Each principal structure of an apartment or office complex on same site shall be separated from any other principal structure in the complex by an open space of not less than sixteen (16) feet.

2. Landscaping Required. Any development shall provide the following minimum number and size of landscape plantings based on the minimum required open space for the development. The following is the minimum requirement of trees and shrubs, by number and size, and type of ground cover. Street trees planted in public street right-of-way subject to approval by the City shall not be counted toward fulfillment of the minimum site requirements set forth below. Plant species to be used for landscaping shall be acceptable to the City that are not considered a nuisance or undesirable species, such as trees with thorns, cottonwood or cotton-bearing poplars, elm trees prone to Dutch Elm Disease, box elder and silver maple. Existing trees and shrubs to be retained on site may be counted toward fulfillment of the landscaping requirements. Specific types of trees may be requested by the City, in order to create a theme, or more uniform appearance.

- A. Minimum requirements at the time of planting - two (2) trees minimum or one (1) tree of the following size per 1,500 square feet of open space, whichever is greater:

- 40 Percent – 2" or greater caliper diameter

- Balance 1" to 2" caliper diameter

- (Evergreen trees shall not be less than six feet in height.)

- Residential One- and Two-Family Lots – 2 trees minimum (1" caliper or greater)

- B. Minimum requirements at the time of planting – 6 shrubs, or 1 shrub per 1,000 square feet of open space, whichever is greater.

- C. To reduce erosion, all disturbed open space areas shall have ground cover of grass or native vegetation that is installed as sod, or seeded, fertilized and mulched.

- D. All development within the arterial corridor overlay, as described by paragraph (13)(F) of this section, shall adhere to the following:

- Minimum requirements at time of planting shall be:

- Two (2) trees minimum or two (2) trees per 1,500 square feet of open space, whichever is greater. Tree plantings shall follow the size schedule set forth above.

- Six (6) shrubs or two (2) shrubs per 1,000 square feet of open space, whichever is greater.

3. Buffer Required. The following conditions shall require a buffer which shall be a landscaped area, wall, or other structure intended to separate and obstruct the view between two adjacent zoning districts, land uses or properties:

- A. Any R-3, R-4, R-5 and R-6 District, all C Districts, and all M Districts which abut any AR, R-1 or R-2 Districts shall require a buffer as described in this section.

- B. All M Districts which abut any R-3, R-4, R-5, R-6, and all C Districts shall provide a buffer as required by this section; however, if the use proposed

within the M District is a use permitted in the adjoining district, the requirement of a buffer may be waived by the City Council after a recommendation from the Planning and Zoning Commission.

C. Any lot for a single-family or two-family or row dwelling in any Zoning District having both its front and rear lot lines abutting a public thoroughfare (a double frontage lot) shall be buffered with a landscape buffer adjoining the thoroughfare from which no access is planned or permitted.

D. Any storage area, garbage storage, junk storage or loading docks, and loading areas, in any District shall be screened from public street view by a buffer.

4. Buffers. Buffers required under the provisions of this section or elsewhere in the Zoning Ordinance shall be accomplished by any one or approved combination of the following methods:

A. Buffer Wall. A buffer wall shall not be less than six (6) feet in height; constructed of a permanent low maintenance material such as concrete block, cinder block, brick, concrete, precast concrete, tile block, etc.; the permanent low-maintenance wall shall be designed by an architect or engineer for both structural adequacy and aesthetic quality; weather resistant wood may be used as a substitute material if designed with adequate structural integrity and permanency and approved by the Planning and Zoning Commission and City Council.

B. Landscape Buffer. A landscape buffer shall not be less than twenty-five (25) feet in width, designed and landscaped with earth berm and predominant plantings of evergreen type trees, shrubs and plants so as to assure year around effectiveness; height of berm and density and height of plantings shall be adequate to serve as a solid and impenetrable screen. A vinyl coated chain link fence may exist for security purposes, but is not considered a part of the landscape screening to satisfy the intent of this requirement.

C. Contiguous to a Conservation and Open (COS) District, or district where adjoining buffer width is required, use of fence or wall, and landscaping required will be determined on a case-by-case basis upon review of the site plan taking into consideration the proposed use of the COS District for open space, trail or other use, unless otherwise specified in the Zoning Ordinance.

5. Burden of Provision of Buffer. The burden of provision and selection of the buffer shall be as follows:

A. Where two different zoning districts, requiring a buffer between them, are developed, the above requirement is not retroactive and a buffer is not required. If a buffer is desired, it shall be provided by mutual agreement between property owners. However, in the event that any or all of the improved property is abandoned, destroyed or demolished, for the purpose of renewal or redevelopment, that portion of such property being renewed or redeveloped shall be considered vacant and subject to the requirements herein.

B. Where one of two different Zoning Districts requiring a buffer between them is partly developed, the developer of the vacant land shall assume the burden, unless otherwise specified herein.

C. Where both Zoning Districts, requiring a buffer between them, are vacant or undeveloped, the burden shall be assumed by the developer of the

land that is improved or developed first, except for agricultural uses and unless otherwise specified herein.

6. Waiver of Buffer Requirements. Where the line between two districts, requiring a buffer, follows a street, right-of-way, railroad, stream, or other similar barrier, the requirement for a buffer may be waived by the City Council, provided such waiver does not permit the exposure of undesirable characteristics of land use to public view.
7. Surfacing Requirements. All off-street parking, display, storage, sales, loading areas, and access roadways shall have a durable and hard surface paved with asphaltic or portland cement concrete pavement in accordance with the specifications as herein set forth. Off-street parking of automobiles, vans, campers, trucks, trailers, tractors, recreational vehicles, boats, construction equipment, and any other mobile vehicles equipped for street and highway travel shall be on an asphaltic or portland cement concrete paved off-street parking area as required herein and not parked or stored within the landscaped open space area of the front yard between the building and public street right-of-way. All off-street parking areas and associated driveways, access roadways and frontage roads, except driveways for single-family residences, shall be constructed with permanent, integrally attached 6" high curbing or curbing of alternate height acceptable to the City (prefabricated portable curb stops shall not be considered an acceptable alternate), and shall be so graded and drained as to dispose of all surface water accumulation within the area; and shall be so arranged and marked as to provide for orderly and safe loading or unloading and parking and storage of self-propelled vehicles. The curbing requirements may be waived if it is determined that surface drainage can be adequately handled by other means. The minimum thickness of pavement of the parking area shall be as follows:
 - A. Portland Cement Concrete shall have a minimum thickness of five (5) inches and the subgrade shall have a minimum subgrade modulus (k) of one hundred fifty (150). Additional thickness of Portland Cement Concrete may be required according to the pavement thickness design in the Urban Design Standards.
 - B. Asphaltic Cement Concrete shall have a minimum thickness of five and one-half (5½) inches and the subgrade shall have a minimum CBR of five (5). Additional thickness of Asphaltic Cement Concrete may be required according to the pavement thickness design in the Urban Design Standards.

Material utilized in the subgrade shall be well drained and not susceptible to frost boils. The part of the parking utilized for driveways and access roadways, shall be specifically designed to accommodate the type and load bearing capacity of traffic anticipated. Driveways for individual single-family, detached or attached townhouse style residences on private property shall be portland concrete or asphaltic cement concrete with minimum thickness of five (5) inches and five and one-half (5½) inches, respectively, with a sufficiently compacted and well-drained subgrade base and not greater than eighteen (18) feet in width.

(Subsection 7 – Ord. 332 – Oct. 18 Supp.)

8. Landscaping, Screening and Open Space Requirements. It is desired that all parking areas be aesthetically improved to reduce obtrusive characteristics which are inherent to their use. Therefore, wherever practical and except for single- and two-family detached and townhouse style residential parking in driveways, parking areas shall be effectively screened from general public view by incorporating the natural landscape and topography with the introduction of permanent earth berming and landscape plantings.
 - A. All parking areas shall include landscaped areas, screens, islands etc., equal to not less than ten percent (10%) of the interior parking area. Such

landscaped area shall be in addition to the open space requirements. Landscaped islands within the parking area shall have suitable, non-erodable groundcover (e.g., grass, shrubs, etc.). Landscape islands shall be at least eight feet (8') in width from the back of curb to the back of curb and landscape planters a minimum of six feet (6') in diameter. No parking space shall be greater than eighty feet (80') from a landscaped open space with a minimum area of two hundred fifty (250) square feet. Parking spaces shall be separated from any adjoining roadway, except that roadway or parking bay aisle providing direct access to the parking space, by a landscaped island or elevated separation (e.g., sidewalk) of a minimum 8-foot width.

B. Earth berming shall be a minimum of three (3) feet above the top of the curb of the adjoining parking lot, if applicable, or public thoroughfare, and shall be designed not to negatively affect the drainage of the surrounding area and to be aesthetically pleasing to the general public. Higher berms may be required if it is determined by the City that this standard is inadequate to provide effective screening and buffering. Plantings and shrubbery may be substituted for a portion of the height of the earth berm if it can be shown that the shrubbery provides adequate screening and improves the appearance of the development.

C. Any berming or planting designed to comply with this chapter must not create a traffic hazard by interfering with line of sight at intersections or driveways. [Section 165.08(12) of this Code of Ordinances]

D. Where berming will impede the owner or developer of a property from operating effectively (e.g., blocking the view of vehicles on a car sales lot) the developer may request relief from this chapter, provided such developer substitutes other design amenities/open space options that meet or exceed the aesthetic objective of this chapter according to the Planning and Zoning Commission and City Council.

9. Off-Street Parking Access to Public Streets and Internal Traffic Circulation. Off-street parking or loading facilities shall be provided in accordance with Section 165.29 of this Code of Ordinances. The parking and loading facilities shall be designed so as to permit entrance and exit by forward movement of the vehicle for all uses, except single-family detached or row dwellings which shall be permitted backward movement from a driveway. The backing or backward movement of vehicles from a driveway, off-street parking or loading area onto a major thoroughfare, including all thoroughfares designated as arterial streets or major collector streets on the Major Streets Plan shall be prohibited for all uses. Driveway approach returns shall not extend beyond the side lot line as extended, unless such driveway is of joint usage by the adjoining lots, and driveway approaches at roadway not greater than twenty-four (24) feet for single-family detached and townhouse residential dwellings, and thirty-seven (37) feet for multi-family, nonresidential uses and multiple building complexes. The number of ingress/egress access points to public streets from off-street parking areas shall be in accordance with the Urban Design Standards as approved by the City and located to limit vehicular conflicts, provide acceptable location of driveway accesses to public streets, preserve proper traffic safety and, where possible, not impair movement of vehicular traffic on public streets. The permitted number of ingress/egress driveway approaches to public streets for an off-street parking lot shall be dependent upon the projected future average daily traffic (ADT) for the public street and, as possible, public street accesses shall be located in alignment with driveway approaches gaining access to the same public street from property on the opposite side of the street. The design of off-street parking and loading facilities shall provide traffic circulation for the internal forward movement of traffic within the

parking lot, so designed, as not to impair vehicular movement on public streets, or backing of vehicles from an off-street parking or loading area to a public street.

10. **Persons With Disabilities – Accessible Parking Requirements.** Provision of persons with disabilities parking spaces within off-street parking areas shall be in accordance with applicable Federal, State and local regulations, properly identified with signage and provided with accessible ramps and walks in accordance with Federal and State regulations, and comply with the following parking space minimum requirements:

Total Parking in Lot	Required Minimum Number of Spaces
1 to 25	1
26 to 50	2
51 to 75	3
76 to 100	4
101 to 150	5
151 to 200	6
201 to 300	7
301 to 400	8
401 to 500	9
501 to 1000	2 percent of total
1001 and over	20, plus 1 for each 100 and over 1000

Access space or aisle adjacent to persons with disabilities accessible parking space shall be a minimum five (5) feet wide. One in every eight spaces, but not less than one, shall be served by an access space or aisle eight (8) feet wide minimum and shall be designated “van accessible.”

11. **Traffic Analysis Requirements.** Any project which contains 100 dwelling units or 1,000 average daily trips as listed for uses in the Trip Generation Handbook; Institute of Transportation Engineers, current edition, shall submit a traffic analysis which provides necessary information to determine the effect that the project will have upon the surrounding traffic. At a minimum, the traffic analysis shall contain project trip generation, directional distribution of project trips, traffic assignment, and capacity analysis, including identification of congestion and turning-movement conflicts.
12. **Waiver Of Requirements.** The City Council reserves the right to waive or modify to a lesser requirement any provision or requirement of off-street parking and loading areas contained in this chapter, provided a report on such change is received from the Planning and Zoning Commission, and further provided said waiver or modification does not adversely affect the intent of these regulations to adequately safeguard the general public and surrounding property. Exceptions will only be considered for those uses where special circumstances warrant a change and whereby the modification or waiver is determined to be in the best interest of the general public.

13. Architectural Standards. As part of the submittal of a site plan for development within any of the zoning districts and for any of the uses except one- and two-family dwellings, architectural plans for buildings shall be submitted for review and approval by the City Council after recommendation from the Planning and Zoning Commission. Documentation to be submitted shall include color building elevations showing the building's design on all sides and a description of structural and exterior materials to be used. A material board shall be submitted if requested prior to consideration by the Planning and Zoning Commission. The following standards shall be used by the City to review architectural plans:

A. All Zoning Districts. Adequate treatment or screening of negative aspects of buildings (loading docks, loading areas, outside storage areas, garbage dumpsters and HVAC mechanical units) from any public street and adjoining properties shall be required. Buildings shall be designed or oriented not to expose loading docks, or loading areas to the public. Districts with primary material requirements shall adhere to these requirements not only by appearance but by actual material used.

(Ord. 332 – Oct. 18 Supp.)

B. Multiple-Family Dwellings In All Districts. Building shall be designed and constructed in a manner that is compatible with the adjoining residential uses in the neighborhood. Multiple-family buildings with single plane walls and/or boxy appearance shall not be considered acceptable. Buildings shall be designed with exterior details, texture, and creative use of angles and a multiplicity of planes within wall and roof design in order to enhance the building's physical appearance and eliminate plainness. All apartments and condominiums shall incorporate, at a minimum, forty percent (40%) brick or stone into the overall building design. All door or window openings shall count toward this requirement if surrounded by the hard surface material. These openings shall not be designed to unreasonably reduce the amount of hard surface material that is used.

C. Nonresidential Uses In R Districts. Any building used for a permitted nonresidential use in an R District shall be designed and constructed with architecture and use of materials compatible with the residential uses within the neighborhood. Buildings located on a residential street in an R District shall be residential in character, and exterior materials shall be wood, brick and/or brick veneer.

D. All Uses Within Any C District. Buildings within any C District shall be designed having as a primary element of the building exterior: fascia glass, brick, concrete panels, textured concrete block or stone, with all sides of any building consistent in design and use of materials. These materials shall make up at least 60% of the total area of each side of each structure. No wood, vinyl, masonite, asphaltic wall material, aluminum or steel siding, non-architectural sheet metal, non-textured concrete block, stucco or other similar materials shall constitute a portion of any building except as a trim material, unless the City Council, after receiving a recommendation from the Planning and Zoning Commission, shall determine said material, when used as a primary element, does not distract from the physical appearance of the building. The architectural design and use of materials for the construction shall be reviewed as part of any site plan.

E. All Uses Within The M Districts. The exterior material of the building's front elevation shall be comprised of brick, concrete panels, textured concrete block, stone panels, or other similar material. These materials shall be

present on at least 60% of the building's front and must be present on other sides as at least trim material. The predominant material in these side walls may be textured metal panels, architectural metal or similar material. The use of sheet metal (ribbed metal panels) as an exterior building material shall not be considered acceptable for any facade. No wood, vinyl, masonite, asphaltic wall material, aluminum or steel siding, non-textured concrete block, stucco or other similar materials shall constitute a portion of any building except as a trim material, unless the City Council, after receiving a recommendation from the Planning and Zoning Commission, shall determine said material, when used as a primary element, does not distract from the physical appearance of the building. The architectural design and use of materials for the construction shall be reviewed as part of any site plan. (M-2 District: This section does not apply to development in an M-2 area, provided that the GFA of the site is in excess of 150,000 square feet per floor.)

F. Arterial Corridor Overlay. All commercial zoned lots within 600 feet of Highway 169 or Interstate 80 shall adhere to the following standards:

- (1) All buildings must be designed to include brick, stone or glass as primary materials on at least 50% of each elevation. Split face block, EFIS and precast materials may be used as a secondary material. Residential-style cementitious or metal siding or paneling may only be used as a trim material and must not make up more than 10% of any elevation. This requirement may be waived in all or in part by application of approval of an alternative design to the Planning and Zoning Commission and City Council if it is demonstrated by the property owner that a durable material such as metal or concrete with appropriate materials for all or part of the building side is inconsistent or unnecessary based upon the proposed use of the structure, the appearance of other buildings in the immediate vicinity, and the attractiveness of the proposed alternative design. If an alternative design is proposed a material board will be required by Planning and Zoning Commission
- (2) All buildings should be designed to minimize single plane walls and boxy appearance through the use of pitched roofs, dormers, cupolas, multiple roof lines, and relief in long wall expanses.
- (3) Every effort should be made to ensure that a building or development is compatible in use and design with its surroundings.
- (4) The Council, in its sole discretion and after receiving a recommendation from the Planning and Zoning Commission, may approve additional primary and/or secondary materials on a case-by-case basis, provided that such materials exhibit the structural strength and permanency desired, contain sufficient architectural relief, and do not distract from the physical appearance of the building.

Buildings proposed in commercial or industrial areas that are adjacent to less intense uses (e.g., residential or civic uses) should be designed with an articulated roofline, giving emphasis to architectural elements that will help divide the mass of a large building into smaller, identifiable parts. Commercial and industrial buildings shall incorporate façade modulation in all building elevations visible to the public or adjacent to other less intense uses in order to preserve building scale and reduce the effect of long, large, or expansive wall surfaces. All loading and doorway area must be protected by quality materials. Variation of these surfaces can be accomplished by physical offsets or the use of color, pattern, or texture. Buildings shall incorporate

architectural design elements, materials, and colors into the side and rear building elevations similar to those used in the front building elevation.

(Subsection F – Ord. 332 – Oct. 18 Supp.)

156.05 REVIEW GUIDELINES. When reviewing a site plan, the Planning and Zoning Commission and City Council shall consider the following guidelines. In no case may these guidelines be used to attempt to replace or override the requirements of the De Soto Zoning Ordinance.

1. Architectural Design – Multiple-Family. Exterior building materials, exterior details and texture, treatment of windows and doors, and a variety in the wall and roof design shall be used to lessen the plainness of appearance which can be characteristic of large residential buildings.
2. Compatibility. Neighboring buildings should fit well together in appearance of architectural style, materials, scale, and color, as viewed from the street scape. This criterion shall not mean that all buildings must look alike.
3. Harmony. The development shall be aesthetically pleasing from the combination of architectural design, landscape elements, miscellaneous structures, and the design of movement of vehicular and pedestrian traffic.
4. Landscape Elements. The various elements of nature, topography, buildings and other manmade objects shall be viewed in relation to one another.
5. Miscellaneous Structures. Consideration shall be given to structures, other than buildings, visible from public ways. Examples are: monuments, antennas, sheds, shelters, fences, and walls, transformers, drive-up facilities.
6. Scale. Consideration shall be given to the relationship of the size of elements to one another and to the human figure.
7. Screening. Consideration shall be given to structures and/or plantings that conceal an area from view from a public way.
8. Street Furniture. Manmade objects other than buildings that are part of the street scape shall be considered. Examples are: benches, litter containers, planting containers, sculptures vending machines and newspaper dispensers.
9. Street Scape. Consideration shall be given to the scene from the public street or way composed of natural and manmade elements, including buildings, paving, plantings, street furniture, and miscellaneous structures.

156.06 BUILDING PERMITS - APPLICATION. No building permit shall be issued for the construction of any structure that is subject to the provisions of this chapter until a site plan has been submitted for review covering the land upon which said structure is to be erected, and further, approved by City Council for such development in accordance with this chapter. No site plan shall be approved for any horizontal property regime until the declaration as to the horizontal property regime required by Section 499B.3, Code of Iowa, shall have been approved by the City Council. No such declaration as to the horizontal property regime shall be recorded with the County Recorder until approval by the City Council shall have been endorsed thereon.

156.07 PROCEDURE.

1. Pre-Application Conference. Whenever any person proposes to place any structure for which a building permit is required under any other section of this Code, on any tract or parcel of land within any district of the De Soto Zoning Ordinance, and any use, except one- and two-family dwellings, the person shall submit to the City Clerk a

request for a Pre-Application Conference. The Conference shall include the applicant (or his or her representative) and the City Staff. The purpose of the Conference shall be to acquaint the City Staff with the proposed construction and to acquaint the applicant or representative with the procedures and with any special problems that might relate to such construction. The applicant shall furnish a legal description of the subject real estate at the time of requesting a Pre-Application Conference, and the Conference shall be held within seven (7) days of such request.

2. Continuous Site Plan Review. After completion of the Pre-Application Conference as required by subsection 1 of this section, and in the event the applicant wishes to proceed with the construction as discussed at said Conference, the applicant shall cause to be prepared a site plan of such proposed construction including colored exterior elevations, and shall submit six (6) copies of the same to the City Clerk and one (1) copy to the City Engineer. The site plan shall be accompanied by a cover letter requesting review and approval of said plan and an application fee in an amount as established by resolution of the Council. *(Ord. 332 – Oct. 18 Supp.)*

The applicant shall also be responsible for just and reasonable costs incurred by the City for review of site plans deemed necessary by the City to insure proper conformance with City ordinances and standard specifications. The site plan shall contain all the information required by Sections 156.04 and 156.05 of this chapter unless otherwise waived by the City Staff. The City Engineer shall review the plan for conformance of the design to the standards and required data set forth in Section 156.03 and Section 156.04 of this chapter.

3. Action:

- A. The City Engineer shall promptly notify the applicant in writing of any revisions or additional information needed. If necessary, the applicant shall make revisions and resubmit the revised plan(s) to the City Clerk and Engineer for compliance. All comments from City Staff must be addressed and documents appropriately revised before Commission review. If the site plan complies with requirements set forth in this chapter, the applicant shall submit twelve (12) copies of the plan to the Planning and Zoning Commission for approval, disapproval or approval subject to conditions.

(Ord. 332 – Oct. 18 Supp.)

- B. The Commission, in its regularly scheduled meeting, shall act upon the site plan and accompanying material. The City Engineer, City staff and other departments shall submit to the Commission their recommendation. The applicant or a representative shall be present at the meeting. Action of the Commission shall be approval, approval subject to conditions, denial, or table for further review.
- C. Approval by Commission. In the case of approval by the Commission, the approval shall be documented on eight copies of the site plan. One copy shall be returned to the applicant, one copy retained by the Commission and six copies shall be forwarded to the City Council. - D. Conditional Approval by Commission. In the case of approval subject to conditions by the Commission, the approval shall be documented on eight copies of the site plan and the conditions determined attached thereto. One copy shall be returned to the builder, one copy shall be retained by the Commission, and six copies shall be forwarded to the City Council. The applicant shall provide revised copies of the site plan in accordance with the Commission action and submit 12 copies to the City Clerk prior to Council action. - I. Resubmittal of Site Plan Denied by Council. A site plan that has been approved by the Commission and denied by the Council may be revised by the applicant in accordance with the Council action and 12 copies resubmitted to the Commission for approval as before.
- J. Resubmittal of Site Plan Denied by Council and Commission. A site plan that has been denied by both the Commission and the Council may be resubmitted to the City by the applicant for Commission and Council approval with respect to the original terms of these procedures, which includes 12 copies of the preliminary plat and filing fees. Resubmittal under these terms shall be considered a new site plan subject to fees and procedures outlined in this section.

156.08 VALIDITY OF APPROVAL.

- 1. A site plan shall become effective upon certification of approval by the City Council.
- 2. The City Council approval of any site plan required by this chapter shall remain valid for one year, allowing one-year extension with approval of City Council upon recommendation of the Commission after the date of approval, after which time the site plan shall be deemed null and void if the development has not been established or actual construction commenced. For the purpose of this chapter, "actual construction" means that the permanent placement of construction materials has started and is proceeding without undue delay. Preparation of plans, securing financial arrangements, issuance of building permits, letting of contracts, grading of property, or stockpiling of materials on the site shall not constitute actual construction.
- 3. Exemption: At the time of site plan approval, the City Council may grant an exemption on the time construction must begin after their approval is given for a utility service structure.

156.09 SITE PLAN AMENDMENT. Any site plan may be amended in accordance with the standards and procedures established herein, including payment of fees, provided that City Staff may waive such procedures for those minor changes hereinafter listed. Such minor

changes shall not be made unless the prior written approval for such changes is obtained from City Staff. No fees shall be required for such minor changes.

1. Moving building walls within the confines of the smallest rectangle that would have enclosed each original approved building. Relocation of building entrances or exits, shortening of building canopies.
2. Changing to a more restrictive commercial or industrial use, provided the number of off-street parking spaces meets the requirement of the De Soto Zoning Ordinance. This does not apply to residential uses.
3. Changing angle of parking or aisle provided there is no reduction in the amount of off-street parking as originally approved.
4. Substituting plant species, provided a landscape architect, engineer or architect certifies the substituted species is similar in nature and screening effect.
5. Increasing peripheral yards.

156.10 APPLICABILITY TO EXISTING DEVELOPMENT.

1. Increasing the Size of a Building, Lot, Parking Area, etc. Any improvement that will increase the size of a building, lot, parking area, etc. shall be submitted for review by the City.

A. If the proposed improvement increases the size of a building or lot by less than 25%, it shall be submitted for review by City staff and approved or disapproved by City staff. In such a case, fees and applicable expenses will be due and payable to the City. City staff shall have the authority to require such a project to be reviewed by the Commission and Council if they feel such review is warranted.

B. If the proposed change is in excess of 25%, it shall be submitted for full review and approval or disapproval by the Planning and Zoning Commission and City Council. In such a case, fees and applicable expenses will be adjusted accordingly and will be due and payable to the City.

2. Noncompliance with Regulations. Any improvement or maintenance to any structure or site feature must not cause the site or building to become non-compliant with the regulations set forth in this chapter. If the site or building is already non-compliant, the change to the building or site proposed by the owner must not cause them to become more non-compliant. For example, a building approved with a given amount of brick, glass or concrete panels may not replace these materials with EIFS, vinyl or metal siding. City Council, after receiving a recommendation from the Planning and Zoning Commission, may determine said material when used as a primary element does not distract from the physical appearance of the building.

156.11 VIOLATIONS AND PENALTIES. Any person, firm, partnership, association or corporation violating any of the provisions of this chapter shall be guilty of a misdemeanor. The imposition of a penalty for any violation shall not excuse the violation or permit it to continue; and all such persons shall be required to correct or remedy such violation or defects within a reasonable time; and when not otherwise specified, each thirty (30) days that prohibitive conditions are maintained shall constitute a separate offense. In addition, the City may proceed in law or in equity to restrain, correct or abate such violation, to prevent the occupancy of said building, structure or land, or to prevent any illegal act, conduct of business, or use in or about said premises.

18. "Floodproofing" means any combination of structural and nonstructural additions, changes, or adjustments to structures, including utility and sanitary facilities, which will reduce or eliminate flood damage to such structures.
19. "Floodway" means the channel of a river or stream and those portions of the floodplains adjoining the channel, which are reasonably required to carry and discharge flood waters or flood flows so that confinement of flood flows to the floodway area will not cumulatively increase the water surface elevation of the base flood by more than one (1) foot.
20. "Floodway fringe" means those portions of the Special Flood Hazard Area outside the floodway.
21. "Highest adjacent grade" means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

31. “Start of construction” includes substantial improvement, and means the date the development permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, or other improvement, was within 180 days of the permit date. The actual start means either the first placement or permanent construction of a structure on a site, such as pouring of a slab or footings, the installation of pile, the construction of columns, or any work beyond the stage of excavation; or the placement of a factory-built home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for a basement, footings, piers, or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of construction means the first alteration of any wall, ceiling, floor, or other structural part of the building, whether or not that alteration affects the external dimensions of the building.

Volunteer labor and donated materials shall be included in the estimated cost of repair. Substantial damage also means flood-related damages sustained by a structure on two separate occasions during a 10-year period for which the cost of repairs at the time of such flood event, on the average, equals or exceeds 25 percent of the market value of the structure before the damage occurred. Volunteer labor and donated materials shall be included in the estimated cost of repair.
34. “Substantial improvement” means any improvement to a structure which satisfies either of the following criteria:
 - A. Any repair, reconstruction or improvement of a structure taking place during a 10-year period, the cumulative cost of which, equals or exceeds fifty (50) percent of the market value of the structure either (i) before the “start of construction” of the first improvement of the structure, or (ii) if the structure has been "substantially damaged" and is being restored, before the damage occurred.

The term does not, however, include any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions. The term also does not include any alteration of an “historic structure”, provided the alteration will not preclude the structure's designation as an “historic structure”.
 - B. Any addition which increases the original floor area of a building by 25 percent or more. All additions constructed after the effective date of the first floodplain management regulations adopted by the community shall be added to any proposed addition in determining whether the total increase in original floor space would exceed 25 percent.
35. “Variance” means grant of relief by a community from the terms of the floodplain management regulations.
36. “Violation” means the failure of a structure or other development to be fully compliant with the community’s floodplain management regulations.

160.03 STATUTORY AUTHORITY, FINDINGS OF FACT AND PURPOSE.

1. The Legislature of the State of Iowa has in Chapter 414, *Code of Iowa*, as amended, delegated the power to cities to enact zoning regulations to secure safety from flood and to promote health and the general welfare.
2. Findings of Fact.
 - A. The flood hazard areas of the City of De Soto are subject to periodic inundation which can result in loss of life and property, health and safety hazards, disruption of commerce and governmental services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base all of which adversely affect the public health, safety and general welfare of the community.
 - B. These flood losses, hazards, and related adverse effects are caused by: (i) The occupancy of flood hazard areas by uses vulnerable to flood damages which create

hazardous conditions as a result of being inadequately elevated or otherwise protected from flooding and (ii) the cumulative effect of obstructions on the floodplain causing increases in flood heights and velocities.

160.04 GENERAL PROVISIONS.

1. **Lands to Which Ordinance Apply.** The provisions of this ordinance shall apply to all lands within the jurisdiction of the City of De Soto which are located within the boundaries of the Floodplain (Overlay) District as established in Section 160.06.
2. **Rules for Interpretation of Floodplain (Overlay) District.** The boundaries of the Floodplain (Overlay) District areas shall be determined by scaling distances on the official Flood Insurance Rate Map. When an interpretation is needed as to the exact location of a boundary, the Zoning Administrator shall make the necessary interpretation. The Board of Adjustment shall hear and decide appeals when it is alleged that there is an error in any requirement, decision, or determination made by the Zoning Administrator in the enforcement or administration of this ordinance.
3. **Compliance.** No structure or land shall hereafter be used and no structure shall be located, extended, converted or structurally altered without full compliance with the terms of this ordinance and other applicable regulations which apply to uses within the jurisdiction of this ordinance.
4. **Abrogation and Greater Restrictions.** It is not intended by this ordinance to repeal, abrogate or impair any existing easements, covenants, or deed restrictions. However, where this ordinance imposes greater restrictions, the provision of this Ordinance shall prevail. All other ordinances inconsistent with this ordinance are hereby repealed to the extent of the inconsistency only.
5. **Interpretation.** In their interpretation and application, the provisions of this ordinance shall be held to be minimum requirements and shall be liberally construed in favor of the governing body and shall not be deemed a limitation or repeal of any other powers granted by State statutes.
6. **Warning and Disclaimer of Liability.** The standards required by this ordinance are considered reasonable for regulatory purposes. This ordinance does not imply that areas outside the designated Floodplain (Overlay) District areas will be free from flooding or flood damages. This Ordinance shall not create liability on the part of the City of De Soto or any officer or employee thereof for any flood damages that result from reliance on this ordinance or any administrative decision lawfully made there under.
7. **Severability.** If any section, clause, provision or portion of this ordinance is adjudged unconstitutional or invalid by a court of competent jurisdiction, the remainder of this ordinance shall not be affected thereby.

b. Development placed in Zones A, AE, AH, and A1-30 that does not include a designated floodway that will cause a rise of more than one foot in the base elevation; or

c. Development relocates or alters the channel.

Within 6 months of the completion of the development, the applicant shall submit to FEMA all scientific and technical data necessary for a Letter of Map Revision.

(10) Perform site inspections to ensure compliance with the standards of this ordinance.

(11) Forward all requests for Variances to the Board of Adjustment for consideration. Ensure all requests include the information ordinarily submitted with applications as well as any additional information deemed necessary to the Board of Adjustment.

2. Floodplain Development Permit.

- A. Permit Required. A Floodplain Development Permit issued by the Administrator shall be secured prior to any floodplain development (any man-made change to improved

and unimproved real estate, including but not limited to buildings or other structures, mining, filling, grading, paving, excavation or drilling operations), including the placement of factory-built homes.

- B. Application for Permit. Application shall be made on forms furnished by the Administrator and shall include the following:
- (1) Description of the work to be covered by the permit for which application is to be made.
 - (2) Description of the land on which the proposed work is to be done (i.e., lot, block, track, street address or similar description) that will readily identify and locate the work to be done.
 - (3) Location and dimensions of all buildings and building additions.
 - (4) Indication of the use or occupancy for which the proposed work is intended.
 - (5) Elevation of the base flood.
 - (6) Elevation (in relation to North American Vertical Datum) of the lowest floor (including basement) of buildings or of the level to which a building is to be floodproofed.
 - (6) For buildings being improved or rebuilt, the estimated cost of improvements and market value of the building prior to the improvements.
 - (7) Such other information as the Administrator deems reasonably necessary (e.g., drawings or a site plan) for the purpose of this ordinance.
- C. Action on Permit Application. The Administrator shall, within a reasonable time, make a determination as to whether the proposed floodplain development meets the applicable standards of this Ordinance and shall approve or disapprove the application. For disapprovals, the applicant shall be informed, in writing, of the specific reasons therefore. The Administrator shall not issue permits for variances except as directed by the County Board of Adjustment.
- D. Construction and Use to be as Provided in Application and Plans. Floodplain Development Permits based on the basis of approved plans and applications authorize only the use, arrangement, and construction set forth in such approved plans and applications and no other use, arrangement or construction. Any use, arrangement, or construction at variance with that authorized shall be deemed a violation of this ordinance. The applicant shall be required to submit certification by a professional engineer or land surveyor, as appropriate, registered in the State of Iowa, that the finished fill, building floor elevations, floodproofing, or other flood protection measures were accomplished in compliance with the provisions of this ordinance, prior to the use or occupancy of any structure.

160.06 ESTABLISHMENT OF FLOODPLAIN (OVERLAY) DISTRICT. The areas within the jurisdiction of the City of De Soto having special flood hazards are hereby designated as a Floodplain (Overlay) District and shall be subject to the standards of the Floodplain (Overlay) District (as well as those for the underlying zoning district). The Floodplain (Overlay) District boundaries shall be as shown on the Flood Insurance Rate Map (FIRM) for Dallas County and Incorporated Areas, City of De Soto, Panels 19049C0320F, 0340F, dated December 7, 2018.

160.07 STANDARDS FOR FLOODPLAIN (OVERLAY) DISTRICT. All uses must be consistent with the need to minimize flood damage and meet the following applicable performance standards. Where base flood elevations and floodway data have not been provided on the Flood Insurance Rate Map, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determination.

1. All development within the Floodplain (Overlay) District shall:
 - A. Be consistent with the need to minimize flood damage.
 - B. Use construction methods and practices that will minimize flood damage.
 - C. Use construction materials and utility equipment that are resistant to flood damage.
 - D. Obtain all other necessary permits from federal, State and local governmental agencies including approval when required from the Iowa Department of Natural Resources.

2. Residential structures. All new or substantially improved residential structures shall have the lowest floor, including basement, elevated a minimum of one (1) foot above the base flood elevations. Construction shall be upon compacted fill which shall, at all points, be no lower than 1.0 ft. above the base flood elevations and extend at such elevation at least 18 feet beyond the limits of any structure erected thereon. Alternate methods of elevating (such as piers or extended foundations) may be allowed subject to favorable consideration by the Board of Adjustment, where existing topography, street grades, or other factors preclude elevating by fill. In such cases, the methods used must be adequate to support the structure as well as withstand the various forces and hazards associated with flooding.

All new residential structures located in areas that would become isolated due to flooding of surrounding ground shall be provided with a means of access that will be passable by wheeled vehicles during the base flood. However, this criterion shall not apply where the Administrator determines there is sufficient flood warning time for the protection of life and property. When estimating flood warning time, consideration shall be given to the criteria listed in 567-75.2(3), Iowa Administrative Code.

3. Non-residential structures. All new or substantially improved non-residential structures shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the base flood elevation, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the base flood; and that the structure, below the base flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator.
4. All new and substantially improved structures:
 - A. Fully enclosed areas below the “lowest floor” (not including basements) that are subject to flooding shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or meet or exceed the following minimum criteria:

- (1) A minimum of two (2) openings, with positioning on at least two (2) walls, having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.
 - (2) The bottom of all openings shall be no higher than one foot above grade.
 - (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided they permit the automatic entry and exit of floodwaters.
 - a. Such areas shall be used solely for parking of vehicles, building access and low damage potential storage.
- B. New and substantially improved structures must be designed (or modified) and adequately anchored to prevent flotation, collapse, or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
- C. New and substantially improved structures shall be constructed with electrical, heating, ventilation, plumbing, air conditioning equipment and other service facilities (including ductwork) elevated or floodproofed to a minimum of one (1) foot above the base flood elevation.
5. Factory-built homes.
 - A. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be elevated on a permanent foundation such that the lowest floor of the structure is a minimum of one (1) foot above the 100-year flood level.
 - B. All new and substantially improved factory-built homes, including those placed in existing factory-built home parks or subdivisions, shall be anchored to resist flotation, collapse, or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. Anchorage systems may include, but are not limited to, use of over-the-top or frame ties to ground anchors as required by the State Building Code.
6. Utility and Sanitary Systems.
 - A. On-site wastewater disposal and water supply systems shall be located or designed to avoid impairment to the system or contamination from the system during flooding.
 - B. All new and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood waters into the system as well as the discharge of effluent into flood waters. Wastewater treatment facilities (other than on-site systems) shall be provided with a level of flood protection equal to or greater than one (1) foot above the 100-year flood elevation.
 - C. New or replacement water supply systems shall be designed to minimize or eliminate infiltration of flood waters into the system. Water supply treatment facilities (other than on-site systems) shall be provided with a level of protection equal to or greater than one (1) foot above the 100-year flood elevation.
 - D. Utilities such as gas or electrical systems shall be located and constructed to minimize or eliminate flood damage to the system and the risk associated with such flood damaged or impaired systems.
7. Storage of materials and equipment that are flammable, explosive or injurious to human, animal or plant life is prohibited unless elevated a minimum of one (1) foot

above the base flood elevation. Other material and equipment must either be similarly elevated or (i) not be subject to major flood damage and be anchored to prevent movement due to flood waters or (ii) be readily removable from the area within the time available after flood warning.

8. Flood control structural works such as levees, flood walls, etc. shall provide, at a minimum, protection from the base flood with a minimum of 3 ft. of design freeboard and shall provide for adequate interior drainage. In addition, structural flood control works shall be approved by the Department of Natural Resources.
9. Watercourse alterations or relocations must be designed to maintain the flood carrying capacity within the altered or relocated portion. In addition, such alterations or relocations must be approved by the Department of Natural Resources.
10. Subdivisions (including factory-built home parks and subdivisions) shall be consistent with the need to minimize flood damages and shall have adequate drainage provided to reduce exposure to flood damage. Development associated with subdivision proposals (including the installation of public utilities) shall meet the applicable performance standards of this ordinance. Subdivision proposals intended for residential use shall provide all lots with a means of access which will be passable by wheeled vehicles during the base flood. Proposals for subdivisions greater than five (5) acres or fifty (50) lots (whichever is less) shall include 100-year flood elevation data for those areas located within the Floodplain (Overlay) District.
11. Accessory Structures to Residential Uses.
 - A. Detached garages, sheds, and similar structures that are incidental to a residential use are exempt from the base flood elevation requirements where the following criteria are satisfied.
 - (1) The structure shall be designed to have low flood damage potential. Its size shall not exceed 600 sq. ft. in size. Those portions of the structure located less than 1 foot above the BFE must be constructed of flood-resistant materials.
 - (2) The structure shall be used solely for low flood damage potential purposes such as vehicle parking and limited storage. The structure shall not be used for human habitation.
 - (3) The structure shall be constructed and placed on the building site so as to offer minimum resistance to the flow of floodwaters.
 - (4) The structure shall be firmly anchored to resist flotation, collapse and lateral movement.
 - (5) The structure's service facilities such as electrical and heating equipment shall be elevated or floodproofed to at least one foot above the base flood elevation.
 - (6) The structure's walls shall include openings that satisfy the provisions of Section 160.07(D)(1) of this ordinance.

Exemption from the 100-year flood elevation requirements for such a structure may result in increased premium rates for flood insurance coverage of the structure and its contents.
12. Recreational Vehicles.

- A. Recreational vehicles are exempt from the requirements of Section 160.07(E) of this ordinance regarding anchoring and elevation of factory-built homes when the following criteria are satisfied.
 - (1) The recreational vehicle shall be located on the site for less than 180 consecutive days, and,
 - (2) The recreational vehicle must be fully licensed and ready for highway use. A recreational vehicle is ready for highway use if it is on its wheels or jacking system and is attached to the site only by quick disconnect type utilities and security devices and has no permanently attached additions.
- B. Recreational vehicles that are located on the site for more than 180 consecutive days or are not ready for highway use must satisfy requirements of Section 160.07(E) of this ordinance regarding anchoring and elevation of factory-built homes.
- 13. Pipeline river and stream crossings shall be buried in the streambed and banks, or otherwise sufficiently protected to prevent rupture due to channel degradation and meandering.
- 14. Maximum Damage Potential Uses. All new or substantially improved maximum damage potential uses shall have the lowest floor (including basement) elevated a minimum of one (1) foot above the elevation of the 500-year flood, or together with attendant utility and sanitary systems, be floodproofed to such a level. When floodproofing is utilized, a professional engineer registered in the State of Iowa shall certify that the floodproofing methods used are adequate to withstand the flood depths, pressures, velocities, impact and uplift forces and other factors associated with the 0.2% annual chance flood; and that the structure, below the 0.2% annual chance flood elevation is watertight with walls substantially impermeable to the passage of water. A record of the certification indicating the specific elevation (in relation to North American Vertical Datum 1988) to which any structures are floodproofed shall be maintained by the Administrator. Where 0.2% chance flood elevation data has not been provided in the Flood Insurance Study, the Iowa Department of Natural Resources shall be contacted to compute such data. The applicant will be responsible for providing the Department of Natural Resources with sufficient technical information to make such determinations.

160.08 ESTABLISHMENT OF VARIANCE PROCEDURES.

- 1. The Board of Adjustment may authorize upon request in specific cases such variances from the terms of this ordinance that will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship. Variances granted must meet the following applicable standards.
 - A. Variances shall only be granted upon: (i) a showing of good and sufficient cause, (ii) a determination that failure to grant the variance would result in exceptional hardship to the applicant, and (iii) a determination that the granting of the variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public or conflict with existing local codes or ordinances.
 - B. Variances shall only be granted upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
 - C. In cases where the variance involves a lower level of flood protection for buildings than what is ordinarily required by this Ordinance, the applicant shall be notified in

- writing over the signature of the Administrator that: (i) the issuance of a variance will result in increased premium rates for flood insurance up to amounts as high as \$25 for \$100 of insurance coverage and (ii) such construction increases risks to life and property.
2. Factors Upon Which the Decision of the Board of Adjustment Shall be Based. In passing upon applications for Variances, the Board shall consider all relevant factors specified in other sections of this ordinance and:
 - A. The danger to life and property due to increased flood heights or velocities caused by encroachments.
 - B. The danger that materials may be swept on to other land or downstream to the injury of others.
 - C. The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
 - D. The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner.
 - E. The importance of the services provided by the proposed facility to the County.
 - F. The requirements of the facility for a floodplain location.
 - G. The availability of alternative locations not subject to flooding for the proposed use.
 - H. The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
 - I. The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
 - J. j. The safety of access to the property in times of flood for ordinary and emergency vehicles.
 - K. The expected heights, velocity, duration, rate of rise and sediment transport of the flood water expected at the site.
 - L. The cost of providing governmental services during and after flood conditions, including maintenance and repair of public utilities (sewer, gas, electrical and water systems), facilities, streets and bridges.
 - M. Such other factors which are relevant to the purpose of this Ordinance.
 3. Conditions Attached to Variances. Upon consideration of the factors listed above, the Board of Adjustment may attach such conditions to the granting of variances as it deems necessary to further the purpose of this Ordinance. Such conditions may include, but not necessarily be limited to:
 - A. Modification of waste disposal and water supply facilities.
 - B. Limitation of periods of use and operation.
 - C. Imposition of operational controls, sureties, and deed restrictions.
 - D. Requirements for construction of channel modifications, dikes, levees, and other protective measures, provided such are approved by the Department of Natural Resources and are deemed the only practical alternative to achieving the purpose of this ordinance.
 - E. Floodproofing measures.

160.09 NONCONFORMING USES.

1. A structure or the use of a structure or premises which was lawful before the passage or amendment of this ordinance, but which is not in conformity with the provisions of this ordinance, may be continued subject to the following conditions:
 - A. If such use is discontinued for six (6) consecutive months, any future use of the building premises shall conform to this ordinance.
 - B. Uses or adjuncts thereof that are or become nuisances shall not be entitled to continue as nonconforming uses.
2. If any nonconforming use or structure is destroyed by any means, including flood, it shall not be reconstructed if the cost is more than fifty (50) percent of the market value of the structure before the damage occurred, unless it is reconstructed in conformity with the provisions of this ordinance. This limitation does not include the cost of any alteration to comply with existing state or local health, sanitary, building or safety codes or regulations or the cost of any alteration of a structure listed on the National Register of Historic Places, provided that the alteration shall not preclude its continued designation.

160.10 PENALTIES FOR VIOLATION. Violations of the provisions of this ordinance or failure to comply with any of the requirements shall constitute a misdemeanor. Any person who violates this ordinance or fails to comply with any of its requirements shall upon conviction thereof be fined not more than five hundred dollars (\$500.00) or imprisoned for not more than thirty (30) days. Nothing herein contained prevent the City of De Soto from taking such other lawful action as is necessary to prevent or remedy violation.

160.11 AMENDMENTS. The regulations and standards set forth in this ordinance may from time to time be amended, supplemented, changed, or repealed. No amendment, supplement, change, or modification shall be undertaken without prior approval of the Department of Natural Resources.

161.01 HOUSING CODE. This chapter shall be known as the De Soto, Iowa, Housing Code, and may be cited as such, and will be referred to herein as “this chapter.”

161.02 PURPOSE. The purpose of this chapter is to protect and promote the health, safety and welfare of those persons renting residential property and renting hotel/motel rooms as well as the general public. This will be accomplished by establishing reasonable minimum requirements for rental property within the City limits.

161.03 SCOPE. The provisions of this chapter apply to all residential rental property and hotel/motel property within the City limits, used or intended to be used for human occupancy.

161.04 DEFINITIONS. The following definitions apply to the interpretation and enforcement of this chapter:

1. “Acceptable” or “approved” means substantial compliance with the provisions of this chapter.
2. “Dwelling Unit” means one or more rooms, designed, occupied or intended for occupancy as a separate living quarter, with cooking, sleeping, and sanitary facilities provided within the dwelling unit for the exclusive use of a single family maintaining a household.
3. “Hotel and Motel” shall mean any building containing guest rooms intended or designed to be used and rented out for sleeping purposes by guests.

4. “Inspector” means the person(s) designated by the City of De Soto to conduct the inspections of rental properties and units for this program. The City of De Soto may contract with an outside entity to conduct these inspection services.
5. “Major violation” means a violation of the rental housing code that if left as is would constitute an immediate threat to the life and/or safety of those living in the home. (Examples could include: lack of or damaged water heater, furnace; smoke detectors that are missing, inoperable or are improperly placed; storage of flammable liquids in a dwelling; and damaged electrical cords, wiring or equipment.)
6. “No show” means when the owner of the structure or any other responsible adult designated by the owner do not attend the scheduled inspection.
7. “Owner (landlord)” means the person(s) or entity listed as the deed holders as shown by the Dallas County Assessor’s Office.
8. “Owner’s Representative (Property Manager)” means a person who is appointed by the rental property owner to provide access to the Rental Inspector to the owner’s rental property. The representative must have keys for all portions of the rental property, must be authorized to act on behalf of the owner concerning compliance with the requirements of the Rental Housing Inspection Program, and must be at least 18 years of age.
9. “Rent” means any form of payment, including but not limited to cash, services, or other valuable considerations, provided as a condition of occupying a dwelling not owned by the occupant.

161.05 ADOPTION OF HOUSING CODE. In accordance with the requirements of Section 364.17 of the *Code of Iowa*, the City hereby adopts the 2018 Edition of the *International Series of Building Codes* and its Appendices. An official copy of such code is on file in the office of the Rental Inspector.

161.06 REGULAR INSPECTIONS. Regular inspections of rental dwelling units and hotels and motels shall be required within the first two years of the adoption of this Housing Code. Inspection fees will be set by the Rental Inspector and established by resolution of the City Council. Inspection fees will be paid directly to the Rental Inspector at the time of inspection.

161.07 APPLICATION FOR CERTIFICATE; REGISTRATION. Every person that offers for rent a dwelling unit or guest room within the City shall register the property on a bi-annual basis and submit to City Hall, on forms provided, an application requesting an inspection certificate. Such application shall be accompanied by a registration fee in an amount established by resolution of the City Council. Upon receipt of such application, the Rental Inspector shall conduct an inspection of the premises, and if the same complies with the provisions of this chapter, issue an inspection Certificate of Approval. If the premises fail to comply, the Rental Inspector shall notify the applicant in writing, stating the reasons for such noncompliance.

161.08 ADDITIONAL INSPECTIONS. In addition to the inspections required under Section 161.06, the Rental Inspector is also empowered to make similar inspections of all rental units as frequently as may be necessary and may make inspections at any reasonable time on a written complaint submitted by the owner, tenant, or other concerned person.

161.09 INSPECTION FEES FOR ADDITIONAL INSPECTIONS. When an inspection is made at the request of the owner, an inspection fee as provided in Section 161.06 shall be charged. If an inspection is made at the written request of a tenant and the dwelling is found

to be in noncompliance due to an omission of the owner, such owner shall be responsible for the reinspection fee. No inspection shall be conducted at the request of a tenant unless the tenant has first submitted the complaint in writing to the landlord no less than 14 days prior to filing the complaint with the City, unless the complaint is regarding a major violation. Any complaint that requires an onsite inspection shall have an associated fee, as established by resolution of the City Council. If the complaint is found to have merit and violations are found in the rental property, the property owner will be responsible for paying the fee. If the complaint is found to have no merit and violations are not found in the rental property, the tenant filing the complaint will be responsible for paying the reinspection fee.

161.10 ENTRANCE AND SURVEY OF BUILDINGS. The Rental Inspector and any such other persons as may be authorized by the City Council may, without fee except as provided in Section 161.07, enter, examine, make necessary records, and survey all rental dwellings within the City. If entry into the interior portion of a dwelling unit is required, 72 hours' notice shall be given to the tenant. The owner or agent or representative of the owner and the lessee and occupant of every rental dwelling and every person having the care and management of the same shall, at all reasonable times when required by such officers or persons, give them free access to such rental dwellings and premises. The owner of a rental dwelling and any agents and employees shall have right of access to such dwellings at reasonable times for the purpose of bringing about compliance with the provisions of this Code or any order issued thereunder.

161.11 INSPECTION CERTIFICATE REQUIRED. No person shall rent, lease, operate, or otherwise allow the occupancy of any dwelling unless such person holds a valid inspection certificate as is required by this chapter.

161.12 ISSUANCE DURATION; VALIDATION. If the dwelling and premises are found to comply with the requirements of this chapter upon reinspection, the Rental Inspector shall issue a temporary inspection certificate. This certificate shall be valid for a period of 30 days from the date of inspection. Upon payment of the appropriate fees, the Rental Inspector shall validate it.

161.13 CERTIFICATE DISPLAYED; TRANSFERABILITY. Inspection certificates shall be transferable to succeeding owners, provided all the proper paperwork has been submitted to the City, as required in Section 161.14. They shall be displayed by the owner for the tenant to examine before the dwelling may be rented, leased, or otherwise occupied.

161.14 NOTICE ON SALE OF DWELLING. Every person holding an inspection certificate under this chapter shall give notice in writing to the Rental Inspector and the City prior to or within 90 days after having sold, transferred, conveyed or otherwise disposed of the ownership, interest in or control of any dwelling. This notice shall include the name and address of the person succeeding to the ownership or control thereof.

161.15 NAME AND ADDRESS OF AGENT FILED. Every owner, agent or lessee of a dwelling may file with the Clerk a notice containing the name and address of an agent of such dwelling for the purpose of receiving service of all notices required by this chapter.

161.16 EMERGENCY ORDER. Whenever the Rental Inspector finds that an emergency exists which immediately threatens public health, the Rental Inspector may issue an order reciting the existence of such an emergency and requiring that such action be taken as the Rental Inspector deems necessary to meet the emergency. Notwithstanding the other provisions of this Code, such order shall be effective immediately. Any person to whom such order is directed shall comply therewith immediately.

161.17 DESIGNATION OF UNFIT DWELLING; CONDEMNATION. No person shall let to another for occupancy any rental dwelling for the purpose of living, inhabiting, sleeping, cooking, or eating therein which has been designated unfit or condemned. Any dwelling which shall be found to have any of the following defects shall be condemned as unfit for human habitation and shall be so designated and placarded by the Rental Inspector.

1. One which is so damaged, decayed, dilapidated, unsanitary, unsafe or vermin infested that it creates a serious hazard to the health or safety of the occupants or the public.
2. One which lacks illumination, ventilation or sanitation facilities adequate to protect the health or safety of the occupants or of the public.
3. One which, because of its general condition or location is unsanitary or otherwise dangerous to the health or safety of the occupants or of the public.

161.18 VACATED IMMEDIATELY. Any dwelling or any portion thereof condemned as unfit for human habitation and so designed and placarded by the Rental Inspector shall be vacated immediately as ordered by the Rental Inspector. The Rental Inspector shall notify the City of such action prior to placarding the dwelling.

161.19 ELIMINATION OF DEFECTS. No dwelling or any portion thereof which has been condemned and placarded as unfit for human habitation shall again be used for human habitation until written approval is secured from, and such placard is removed by, the Rental Inspector. The Rental Inspector shall remove such placard whenever the defects upon which the condemnation and placarding action were based have been eliminated.

161.20 DEFACE OR REMOVE PLACARD. No person shall deface or remove the placard from any dwelling which has been condemned as unfit for human habitation and placarded as such, except as provided in this Code.

161.21 AUTHORITY TO EXECUTE. In case any notice or order issued by the Rental Inspector or City is not complied with, the Rental Inspector may recommend that the City apply to the District Court for an order authorizing the City to execute and carry out the provisions of the notice or order to correct any violation specified in the notice or order or to abate any nuisance in or about the dwelling.

161.22 ACTION TO ENJOIN. In case any dwelling, building, or structure is constructed, altered, converted or maintained in violation of any provisions of this chapter or of any order or notice of the Rental Inspector, or in case a nuisance exists in any such dwelling, building or structure or upon the lot on which it is situated, the Rental Inspector may cause the institution of any appropriate action or proceeding to prevent such unlawful construction, alteration, conversion or maintenance, to restrain, correct or abate such violation, nuisance, to prevent the occupation of the dwelling, building, or structure, or to prevent any illegal act, conduct business in or about such dwelling lot.

161.23 INJUNCTION. In any such action or proceeding, the Rental Inspector may, by a petition duly verified setting forth the facts, request that the City apply to the District Court for an order granting the relief for which the action or proceeding is brought, or for an order enjoining any persons from doing or permitting to be done any work in or upon such dwelling, building, structure, lot, or from occupying or using the same for any purpose until the entry of final judgment or order.

161.24 DUTIES OF OCCUPANT. It is unlawful for any tenant to deliberately or recklessly destroy, deface, damage, or remove a part of the premises or to knowingly permit any other person to do so, or to remove without permission of the landlord any personal

property belonging to the landlord or to cause damage resulting in noncompliance with the Building Code.

161.25 NOTICE OF ACTIONS. In any action brought by the City in relation to a dwelling or injunction, vacation of premises, or abatement of nuisance or to establish a lien thereon, or to recover a civil penalty, service of notice shall be in the manner provided by law for the service of original notices.

161.26 CITY LIABILITY. The City or any employee is not liable for damages to a person or property as a result of any act or failure to act in the enforcement of this Code. This Code shall not be construed to relieve from or lessen the responsibility of any person owning, operating or controlling any equipment or structure regulated herein for damages to a person or property caused by its defects, nor shall the City or any City employee be held as assuming any such liability by reason of the inspections authorized by this Code or any approvals issued under this Code.

161.27 CIVIL LIABILITY. The owner of any dwelling or of any building or structure upon the same lot with a dwelling, or of the lot, or any violation of this chapter or where a nuisance as defined in this Code of Ordinances exists, who has been guilty of such violation or of creating or knowingly permitting the existence of such violation, or any occupant who shall violate or assist in violating any provisions of this chapter, shall also jointly and severally for each such violation and each such nuisance be subject to a civil penalty to be recovered for the use of the City in a civil action brought in the name of the City by the Rental Inspector. Such person or persons and also the premises shall be liable in such case for all costs, expenses, and disbursements paid or incurred by the City and Rental Inspector including attorneys' fees, paid or incurred by the City, by any officers, agents, or employees thereof, in the removal of any such nuisance or violation.

161.28 ADDITIONAL LIABILITY. Any person who, having been served with a notice or order to remove any such nuisance or violation, fails to proceed in good faith to comply with the notice or order within five days after such service, or continues to violate any provisions or requirements of this Code shall also be subject to a civil penalty. For the recovery of such penalties, costs, expenses or disbursements, an action may be brought in the Courts of Dallas County.

161.29 APPEALS. The Official Zoning Map is identified by the signature of the Mayor, attested by the City Clerk. If, in accordance with the provisions of this chapter and Chapter 414, Code of Iowa, changes are made in district boundaries or other matters portrayed in the Official Zoning Map, copies of such changes shall be filed with the Official Zoning Map promptly after the amendment has been approved by the City Council. Regardless of the existence of purported copies of the Official Zoning Map which may from time to time be made or published, the Official Zoning Map, together with amending ordinances, shall be the final authority as to the current zoning status of land and water areas, buildings, and other structures in the City. In the event that the Official Zoning Map becomes damaged, destroyed, lost or difficult to interpret because of use, the City Council may by resolution adopt a new Official Zoning Map which shall supersede the prior Official Zoning Map. The new Official Zoning Map may correct drafting or other errors or omissions in the prior Official Zoning Map, but no such correction shall have the effect of amending the original Zoning Ordinance or any subsequent amendment thereof. The new Official Zoning Map shall be identified by the signature of the Mayor attested by the City Clerk, under the following words: "This is to certify that this Official Zoning Map supersedes and replaces the Official Zoning Map adopted (date of adoption of map being replaced) by the City of De Soto, Iowa."

165.05 RULES FOR INTERPRETATION OF DISTRICT BOUNDARIES. In cases where the exact location of a district boundary is not clear as shown on the Official Zoning Map, the following rules shall be used in determining the location of said district boundary:

1. Boundaries indicated as approximately following the centerlines of streets, highways, or alleys shall be construed to follow such centerlines.
2. Boundaries indicated as approximately following platted lines shall be construed as following such lot lines.
3. Boundaries indicated as approximately following corporate limits shall be construed as following corporate limits.

4. Boundaries indicated as approximately following section lines, quarter section lines, or quarter-quarter section lines shall be construed as following such lines.
5. Boundaries indicated as following railroad lines shall be construed to be midway between the main tracks.
6. Boundaries indicated as following shore lines shall be construed to follow such shore lines, and in the event of change in the shore line shall be construed as moving with the actual shore line; boundaries indicated as approximately following the centerlines of streams, rivers, canals, lakes, or other bodies of water shall be construed to follow such centerlines.
7. Boundaries indicated as parallel to or extensions of features indicated in subsections 1 through 6 above shall be so construed. Distances not specifically indicated on the Official Zoning Map shall be determined by the scale of the map.
8. Where physical or cultural features existing on the ground are at variance with those shown on the Official Zoning Map, or in other circumstances not covered by subsections 1 through 6 above, the Board of Adjustment shall interpret the district boundaries.

165.06 APPLICATION OF DISTRICT REGULATIONS. The regulations set forth by this chapter within each district shall be minimum regulations and shall apply uniformly to each class or kind or structure or land, and particularly, except as hereinafter provided.

1. No building, structure, or land shall hereafter be used or occupied, and no building or structure or part thereof shall hereafter be erected, constructed, reconstructed, or structurally altered unless in conformity with all of the regulations herein specified for the district in which it is located.
2. No building or other structure shall hereafter be erected or altered:
 - A. To exceed the height;
 - B. To accommodate or house a greater number of families;
 - C. To occupy a greater percentage of lot area; or
 - D. To have narrower or smaller rear yards, front yards, side yards, or other open spaces than herein required; or in any other manner contrary to the provisions of this chapter.
3. No part of a yard, or other open space, or off-street parking or loading space required about or in connection with any building for the purpose of complying with this chapter shall be included as part of a yard, open space or off-street parking or loading space similarly required for any other building.
4. No yard or lot existing at the time of passage of the Zoning Ordinance shall be reduced in dimension or area below the minimum requirements set forth herein. Yards or lots created after the effective date of the Zoning Ordinance shall meet at least the minimum requirements established by this chapter.

165.07 NONCONFORMING USES. Within the various districts established by the Zoning Ordinance or amendments that may later be adopted, there exist structures and uses of land and structures which were lawful prior to the adoption of the Zoning Ordinance but which would be prohibited, regulated, or restricted under the provisions of this chapter. It is the intent of this chapter to permit these nonconformities to continue until they are removed, but not to encourage their survival. Such uses are declared by this chapter to be incompatible with permitted uses in the districts involved.

1. Nonconforming Use of Land in Residential Districts. The lawful use of land upon which no building or structure is erected or constructed which becomes nonconforming under the terms of the Zoning Ordinance as adopted or amended may be continued so long as it remains otherwise lawful, subject to the following provisions:
 - A. No such nonconforming use shall be enlarged or increased or extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of the Zoning Ordinance.
 - B. No such nonconforming use shall be moved in whole or in part to any other portion of the lot or parcel which was not occupied by such use at the effective date of adoption or amendment of the Zoning Ordinance.
 - C. If any such nonconforming use of land ceases for any reason for a period of more than thirty (30) days, any subsequent use of such land shall conform to the district regulations for the district in which such land is located.
2. Nonconforming Use of Structures in Residential Districts. If a lawful use of a structure, or of a structure and land in combination, exists at the effective date of adoption or amendment of the Zoning Ordinance that would not be allowed in the district under the terms of this chapter, the use may be continued so long as it remains otherwise lawful, subject to the following provisions:
 - A. No existing structure devoted entirely or in part to a use not permitted by this chapter in the district in which it is located, except when required by law, shall be enlarged, extended, reconstructed, moved or structurally altered, unless the use is changed to a use permitted in the district in which such structure is located.
 - B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of the Zoning Ordinance. No such use shall be extended to occupy any land outside such building.
 - C. If no structural alterations are made, a nonconforming use of a structure may be changed to another nonconforming use within the same or a more restricted classification. Whenever a nonconforming use has been changed to a more restricted use or to a conforming use, such use shall not thereafter be changed to a less restrictive use.
 - D. In the event that a nonconforming use of a structure, or structure and land in combination, is discontinued or abandoned for a period of two (2) years, the use of the same shall thereafter conform to the uses permitted in the district in which it is located. Where nonconforming use status applies to a structure and land in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land.
 - E. Any structure devoted to a use made nonconforming by this chapter that is destroyed by any means to an extent of sixty percent (60%) or more of its assessed value cost at the time of destruction, exclusive of the foundations, shall not be reconstructed and used as before such happening. If the structure is less than 60% destroyed above the foundation, it may be reconstructed and used as before provided it is done within six (6) months of such happening, and built of like or similar materials.
3. Nonconforming Structures in Residential Districts. Where a structure exists at the effective date of adoption or amendment of the Zoning Ordinance that could not be built under the terms of this chapter by reason of restrictions on area, lot coverage, height, yards, or other characteristics of the structure or its location on the lot, such

structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No such structure may be enlarged or altered in a way which increases its nonconformity.
- B. Should such structure be destroyed by any means to an extent of sixty percent (60%) or more of its assessed value at time of destruction, it shall not be reconstructed except in conformity with the provisions of this chapter.
4. Nonconforming Use of Land in Other than Residential Districts. The regulations described in subsection 165.07(1), shall also apply to this subsection.
5. Nonconforming Use of Structures in Other than Residential Districts. The regulations described in subsection 165.07(2) shall also apply to this subsection with the following exception: Any structure in any district other than a residential district devoted to a use made nonconforming by this chapter may be structurally altered or enlarged in conformity with the lot area, lot coverage, frontage, yard, height, and parking requirements of the district in which located, provided such construction shall be limited to buildings on land owned, of record, by the owner of the land devoted to the nonconforming use prior to the effective date of the Zoning Ordinance. Such structural alteration or enlargement shall not authorize the substitution of a nonconforming use that is less restrictive than the one to which the structure was devoted at the time of passage of the Zoning Ordinance.
6. Nonconforming Structures in Other than Residential Districts. The regulations described in subsection 165.07(3) shall also apply to this subsection.
7. Required Repairs and Unauthorized Nonconformities. Nothing in this chapter shall be deemed to prevent the restoring to a safe condition of any building or part thereof declared to be unsafe by any official charged with protecting the public safety, upon order of such official.

Any use of land, use of structure, or structure, in existence at the time of adoption of the Zoning Ordinance which was not an authorized nonconformity under any previous zoning ordinance or similar regulations shall not be authorized to continue its nonconforming status pursuant to this chapter or amendments thereto.

165.08 GENERAL REGULATIONS.

1. Conformance Required. Except as hereinafter specified, no building, sign or structure shall be erected, converted, enlarged, reconstructed or structurally altered, nor shall any building or land be used, which does not comply with all of the district regulations established by this chapter for the district in which the building or land is located.
2. Street Frontage Required. Except as permitted in Section 165.28 of this chapter, no lot shall contain any building used in whole or in part for single-family or two-family residence purposes unless such lot abuts for at least forty (40) feet on at least one public street.
3. Accessory Buildings. No accessory building shall be erected in any front yard. Accessory buildings shall be distanced at least five (5) feet from alley lines or easement lines, and five feet from the lot lines of adjoining lots which are in any "R" district, except the R-6 District, and on a corner lot they shall conform to the setback regulations on the side street; however, in no case shall any eave or overhang extend closer than twelve (12) inches to a rear or side yard line, or an easement line. Accessory buildings must be erected separately from and a minimum horizontal

distance of six (6) feet from any building projection, and may not be connected by a breezeway or similar structure. If any unenclosed balcony or unenclosed porch including any deck shall be constructed within six feet from any accessory building the adjacent wall of said accessory building shall be not less than a two-hour fire wall. No unenclosed balcony or unenclosed porch or deck shall be constructed closer than three (3) feet to any accessory building. Any building so connected to the principal building shall be considered a part of the said principal building and must meet the space requirements thereof. An accessory building shall not occupy more than thirty percent (30%) of the rear yard except in an R-6 District, and shall not exceed fourteen (14) feet in height in any "R" District. This regulation shall not be interpreted to prohibit the construction of a 440-square foot garage on a minimum rear yard. No accessory building shall be constructed upon a lot until the construction of the main building has been actually commenced, and no accessory building shall be used unless the main building on the lot is also being used.

4. **Corner Lots.** For corner lots, the front yard regulation shall apply to each street side of the corner lot.
5. **Front Yard.** In all residential districts there shall be a minimum front yard required as stated in the bulk regulations for that particular district; provided, however, where lots comprising thirty percent (30%) or more of the frontage within two hundred (200) feet of either side lot line are developed with buildings at a greater or lesser setback, the front yard requirement shall be the average of these building setbacks and the minimum front yard required for the undeveloped lots. In computing the average setback, buildings located on reverse corner lots or entirely on the rear half of lots shall not be counted. The required front yard as computed herein need not exceed fifty (50) feet in any case.
6. **Required Yard Cannot Be Reduced.** No yard or lot existing at the time of passage of the Zoning Ordinance shall be reduced in dimension or area below the minimum required by this chapter. No part of a yard or other open space, or off-street parking or loading space provided about any building, structure, or use for the purpose of complying with the provisions of this chapter shall be included as part of a yard, open space, or off-street parking or loading space required under this chapter for another building, structure, or use.
7. **Permits Previously Issued.** Nothing herein contained shall require any change in the overall layout, plans, construction, size or designated use of any building, or part thereof, for which approvals and required permits have been granted before the enactment of the Zoning Ordinance, the construction of which in conformance with such plans shall have been started prior to the effective date of the Zoning Ordinance and completion thereof carried on in a normal manner and not discontinued for reasons other than those beyond the builder's control.
8. **Zoning Districts Dividing Property.** Where one parcel of property is divided into two or more portions by reason of different zoning district classifications, each of these portions shall be used independently of the other in its respective zoning classification, and for the purpose of applying the regulations of this chapter, each portion shall be considered as if in separate and different ownership.
9. **Home Occupations.** Subject to the limitations of this section, any home occupation that is customarily incidental to the principal use of a building as a dwelling shall be permitted in any dwelling unit. Any question of whether a particular use is permitted as a home occupation, as provided herein, shall be determined by the administrative official pursuant to the provisions of this chapter. The regulations of this section are designed to protect and maintain the residential character of established neighborhoods while recognizing that certain professional and limited business

activities have traditionally been carried on in the home. This section recognizes that, when properly limited and regulated, such activities can take place in a residential structure without changing the character of either the neighborhood or the structure.

A. Use Limitations. In addition to all of the use limitations applicable to the district in which it is located, no home occupation shall be permitted unless it complies with the following restrictions:

- (1) Not more than one person who is not a resident on the premises shall be employed.
- (2) No more than 50%, including storage area, of no more than one floor of the dwelling unit, shall be devoted to the home occupation.

- (4) No stock of goods shall be displayed or sold on the premises in excess of storage area available as defined in subparagraph (2) above.
- (5) The home occupation shall be conducted entirely within the principal dwelling unit, and in no event shall such use be apparent from any public way.
- (6) There shall be no outdoor storage of equipment or materials used in the home occupation.
- (7) Not more than two commercially licensed vehicles used in connection with any home occupation shall be parked on the property.
- (8) No mechanical, electrical or other equipment which produces noise, electrical or magnetic interference, vibration, heat, glare or other nuisance outside the residence shall be permitted.
- (9) No home occupation shall be permitted which is noxious, offensive or hazardous by reason of vehicular traffic, generation or emission of noise, vibration, smoke, dust or other particulate matter, odorous matter, heat, humidity, glare, refuse, radiation or other harmful, objectionable emissions.

B. Home Occupations Permitted. Customary home occupations include, but are not limited to, the following list of occupations; provided, however, each such home occupation shall be subject to the use limitations set out in paragraph A of this subsection.

11. Parking and Storage. No person shall park, place, keep or store, or permit the parking or storage of a stock car, racing car, inoperable vehicle, vehicular component parts, or miscellaneous junk and debris on any public or private property unless it shall be in a completely enclosed building. This regulation shall not apply to legitimate businesses operating in a lawful place and manner provided, however, that such outside areas are screened from public view.
12. Visibility at Intersections in Residential Districts. On a corner lot in any residential district, nothing shall be erected, placed, planted, or allowed to grow in such a manner as materially to impede vision between a height of two and one-half (2½) and ten (10) feet above the centerline grades of the intersecting streets in the area bounded by the street lines of such corner lots and a line joining points along said street lines twenty-five (25) feet from the point of intersection of right-of-way lines.
13. Fences, Walls and Hedges. Notwithstanding other provisions of this chapter, fences, walls, and hedges may be permitted in any required yard, or along the edge of any yard with the following provisions;
- A. No fence, wall or hedge shall exceed four (4) feet in height along the street side yard of a corner lot within the area of the front yard extended of an abutting lot to the rear of said corner lot, unless located along building setback lines in which case the fence, wall, or hedge shall not exceed the height of six (6) feet.

Whenever the plat of a land subdivision approved by the Commission and on record in the office of the County Recorder shows a building line along any frontage for the purpose of creating a front yard or side street yard line, the building line thus shown shall apply along such frontage in place of any other yard line required in this chapter unless specific yard requirements in this chapter require a greater setback. Building lines shall be measured to the foundation.
15. Signs. Certain signs shall be allowed on the condition they are adequately maintained and subject to a permit to be issued by the Council.
- A. Real Estate Signs. Real estate signs are allowed in all districts.

- (1) The sign shall not exceed eight (8) feet in length or height and shall not contain more than ten (10) intermittent lights.
 - (2) Each intermittent light shall not exceed sixty (60) watts.
 - (3) Each intermittent light shall be covered or colored (which cover or color shall not be red, clear, green or blue) to prevent the light from glaring or impairing the vision of the driver of any motor vehicle.
 - (4) The sign shall not encroach upon or hang over the street or highway right-of-way.
 - (5) The intermittent lights shall only be allowed at hours determined by the Council when the permit is issued, which shall take into consideration the location of the sign and any problems specifically contemplated by that permit application.
- F. Official Signs. Only an official traffic, street or related sign approved for placement by an official public body shall be placed on any street or highway right-of-way or other public property. Other signs shall not closely resemble or approximate the shape, form and color of official signs, signals and devices.
- G. Safety. Signs and sign structures shall not be located where size, content, coloring or illumination is a traffic hazard by obstructing driver vision, detracting from any traffic control device, or being confused with an authorized traffic control device.
16. Rear and Side Yard Parking Requirements. Property owners may park currently licensed automobiles, trailers, campers, boats and/or outdoor recreational vehicles on a City-approved parking pad placed in their rear or side yard. The property owner must complete a Parking Pad Site Plan Application, pay a \$20.00 permit fee, and comply with all of the site plan requirements before receiving approval by the City. The parking of any automobiles, trailers, campers, boats and/or outdoor recreational vehicles in the front yard of any property is prohibited unless parked completely upon a driveway.

165.16 R-5 PLANNED UNIT DEVELOPMENT DISTRICT. The R-5 District is intended and designed to provide a means for the development of large tracts of ground on a unit basis, allowing greater flexibility and diversification of land uses and building locations than the conventional single lot method provided in other sections of this chapter in AR, R-1, R-2, R-3, and R-4 districts. It is the intent of this section that the basic principles of good land use planning including an orderly and graded relationship between various types of uses be maintained and that the sound zoning standards as set forth in this chapter and statutes concerning population density, adequate light and air, recreation and open space, and building coverage be preserved.

1. Procedure. The owner or owners of any tract of land comprising an area of not less than five (5) acres may submit to the City Council a petition requesting a change to the R-5 zoning district classification. The petition shall be accompanied by a plan for the use and development of the entire tract of land. The development plan shall be referred to the Commission for study and report. The Commission shall review the conformity of the proposed development with the standards of the Comprehensive Plan, and with recognized principles of architectural design, land use planning and landscape architecture. The Commission may approve the plan as submitted or, before approval, may require that the applicant modify, alter, adjust, or amend the plan as the Commission deems necessary to the end that it preserve the intent and purpose of this chapter to promote public health, safety, morals and the general welfare. The development plan as approved by the Commission shall then be reported to the City Council, whereupon the Council may approve or disapprove said plan as reported or may require such changes thereto as it deems necessary to effectuate the intent and purposes of this chapter. If the Council approves the preliminary plan and request for rezoning, the applicant shall submit within 270 days, or such longer period as may be approved by the Council, to the Commission a final development plan, in triplicate, of not less than one stage of the proposed development showing in detail the location of all proposed:
 - A. Buildings and uses, the height and exterior design of typical dwellings and the number of dwelling units in each;
 - B. Parking areas;
 - C. Access drives;
 - D. Streets abutting or within the proposed development;
 - E. Walks;
 - F. All proposed walls and fences;
 - G. Landscaping and plant material;
 - H. Required peripheral yards;
 - I. Common land, recreation areas and parks;
 - J. Existing and proposed utilities and public easements;
 - K. Proposed signs and their area and dimensions;
 - L. Storm and sanitary sewer lines;
 - M. Water mains; and
 - N. Development stages and timing.
2. Required Documents. The final development plan shall be accompanied by the following required documents:

A. If the proposed development includes common land which will not be dedicated to the City, and the proposed development will not be held in single ownership, proposed by-laws of a homeowner's association fully defining the functions, responsibilities and operating procedures of the association shall be included. The proposed by-laws shall include but not be limited to provisions: (a) automatically extending membership in the association to all owners of dwelling units within the development; (b) limiting the uses of the common property to those permitted by the final development; (c) granting to each owner of a dwelling unit within the development the right to the use and enjoyment of the common property; (d) placing the responsibility for operation and maintenance of the common property in the association; (e) giving every owner of a dwelling unit voting rights in the association; and (f) if the development will combine rental and for sale dwelling units, stating the relationship between the renters and the homeowner's association and the rights renters shall have to the use of the common land.

B. Performance bond which shall insure to the City that the dedicated public streets, utilities, and other common development facilities shall be completed by the developer within the time specified in the final development plan.

C. Covenant to run with the land, in favor of the City and all persons having a proprietary interest in any portion of the development premises, that the owner of the land or successors in interest will maintain all interior streets, parking areas, sidewalks, common land, parks and plantings which have not been dedicated to the City in compliance with this Code of Ordinances.

D. Any additional agreements required by the Council at the time of preliminary plat approval.

E. A final plat shall be submitted with each stage of the final development plan. The plat shall show buildings lines, lots and/or blocks, common land, streets, easements, and other applicable items required by the subdivision regulations. Following approval of the final plat by the Commission and Council, the plat shall be recorded with the County Auditor and Recorder.

3. The final development plan and required documents shall be reviewed by the Commission, for compliance with the R-5 standards and substantial compliance with the preliminary plan. The Commission's recommendations and report on the final development plan shall be referred to the Council for final approval. The final development plan and final plat shall be approved by the Council before any building permit is issued.

4. Permitted principal and accessory land uses, lot area, yard and height requirements shall be as set out below, which shall prevail over conflicting requirements of this section or the Subdivision Regulations.

A. Buildings shall be used only for:

- (1) Residential purposes;
- (2) Occupant garages, occupant storage and similar accessory uses;
- (3) Noncommercial recreational facilities; and
- (4) Community activities including churches and schools.

- B. The minimum lot and yard requirements of the zoning districts in which the development is located shall not apply, except that minimum yards specified in the district shall be provided around the boundaries of the development. The Council may require open space or screenings be located along all or a portion of the development boundaries. The height requirements of the zoning district in which the development is located shall apply within 125 feet of the development boundary.
- C. All public streets, water mains, sanitary sewer and storm sewer facilities shall comply with appropriate ordinances and specifications of the City.
- D. "Common land" as used in this section refers to land retained in private ownership for the use of the residents of the development, or to land dedicated to the general public.
- E. Any land gained within the development because of the reduction in lot sizes, below minimum Zoning Ordinance requirements, shall be placed in common land to be dedicated to the City or retained in private ownership to be managed by a homeowner's association.
- F. The requirements of this chapter relating to off-street parking and loading shall apply to all R-5 Districts.
- G. The final development plan shall comply with the density requirement.

5. The maximum number of dwelling units permitted in an R-5 District shall be determined by dividing the net development area by the minimum lot area per dwelling unit required by the zoning district or districts in which the area is located then multiplied by 115 percent. (In the R-2 District, the one-family dwelling requirement shall apply.) Net development area shall be determined by subtracting the area set aside actually proposed for streets from the gross development area. The area of land set aside for common land, open space, or recreation shall be included in determining the number of dwelling units permitted. The maximum number of multiple dwelling units permitted in the R-5 development shall be determined by the zoning district in which the development is located as follows:

Zoning District	Percentage of Total Dwelling Units Permitted as Multiples
AR	10%
R-1	25%
R-2	50%
R-3	100%
R-4	100%

If the development area contains two (2) or more different zoning classifications, the number of dwelling units permitted shall be determined in the direct proportion to the area of each zoning classification contained in the entire tract.

6. The Council may make the approval of the development plan contingent upon the completion of construction and improvements within a reasonable period of time; provided, however, in the determination of such period, the Council shall consider the scope and magnitude of the development project and any schedule of construction and improvements submitted by the developer. Failure to complete all construction and improvements within said period of time shall be deemed sufficient cause for the Council to rezone the unimproved property to the classification effective at the time of

original submission of the development plan, unless an extension as recommended by the Commission and approved by the Council for due cause shown. Any proposed change in the development plan after approval by the Council shall be resubmitted and considered in the same manner as the original proposal. The term “unimproved” property means all property situated within a stage or stages of the final development plan upon which the installation of improvements has not been commenced.

7. In no event shall the installation of any improvements be commenced in the second or subsequent stages of the final development plan until such time as ninety percent (90%) of infrastructure improvements including streets and utilities have been completed in any prior stage of such plan.

165.17 PD PLANNED DEVELOPMENT DISTRICT. The PD (Planned Development) Overlay District is intended to provide flexibility in the design of planned projects; to encourage innovation in project design that incorporates open space and other amenities; and to insure compatibility of developments with the surrounding urban environment. The PD (Planned Development) District is intended to promote developments that will be advantageous to the City and its urban form by permitting project design that will surpass the quality of development resulting from application of the regulations of conventional zoning districts. While the PD District may appear to deviate from a literal interpretation of the land development regulations, it is not intended to encourage deviations from the City's comprehensive plan or overall development objectives. The District shall not be used to secure approval for projects that do not conform to the City's comprehensive plan.

1. PD-1 (General PD) District. In order to permit maximum applicability of the PD District, the PD-1 District is hereby created. The PD-1 (General PD) District is intended to accommodate large, comprehensively planned developments that are likely to develop over a relatively long period of time. The PD-1 creates special guidelines and regulations to ensure that development over time conforms to an established master plan. The PD-1 also may establish the preliminary plat for those projects which require platting.
2. Criteria for Use. The PD (Planned Development) District is generally intended for use in the following urban contexts.
 - A. Vacant Land. Areas of substantial open space where the structure of conventional zoning may artificially limit or constrain good urban design, may restrict the achievement of the City's development objectives, or may not be appropriate to changes in technology or demand consistent with the best interests of the City.
 - B. Community Development Areas. Areas of the City that are in need of rehabilitation or redevelopment, including areas that may be deficient in public facilities or services. In these situations, the PD District may encourage private investment by recognizing the need for flexibility that conventional zoning regulations do not provide.
 - C. Neighborhood Contexts. Areas in which sensitive project design is critical to maintain and protect the value of surrounding residential neighborhoods and other sensitive or vulnerable urban settings.
 - D. Large Projects. Projects that have substantial effects on their urban and rural surroundings because of their size and scale.
 - E. Large areas that may be zoned prior to development by the Planning and Zoning Commission and City Council consistent with the Comprehensive Plan, but which require individual project approval as development occurs.
4. Permitted Land Uses. A Planned Development may include residential, office, commercial, industrial, or public land uses, subject to the requirements of the underlying zoning district.
5. PD-1 (General PD) District: Application Procedures.
 - A. Minimum Size. The minimum size of a PD-1 District shall be three acres.
 - B. Pre-application Concept Plan. Prior to filing an application for approval of a PD-1 District, the applicant shall meet with the City Council for the purpose of submitting a pre-application concept plan. This plan shall illustrate the conceptual overall plan for the District and shall include at a minimum the information required in Table One. The City Council shall review and comment on the proposed concept plan and shall provide the applicant with written comments within thirty days of submission of the

concept plan. The review of the concept plan shall include consideration of the following criteria:

- (1) Land use intensity and density.
- (2) Ability to provide a positive environment for intended uses, including schematic building configurations, arrangements, and general landscaping and site design.
- (3) Use of open space.
- (4) Impact on the surrounding natural and built environment.
- (5) Adequacy of on- and off-site transportation and utility systems to serve the proposed project.
- (6) Consistency with the City's comprehensive plan.

Following review of the pre-application concept plan, the applicant may proceed with filing a formal application for approval of a PD-1 District. This plan shall illustrate the development master plan for the District and shall include at a minimum the information required in Table One.

- C. **Development Agreement.** A PD-1 application shall include a Development Agreement establishing the development regulations for the district unless initiated by the Planning and Zoning Commission or City Council. The Development Agreement shall specify the following regulations:

- (1) Location and quantities of various land uses.
- (2) Maximum floor area ratios and residential densities.
- (3) Maximum building and impervious coverage.
- (4) Front, side, and rear yard setbacks.
- (5) Maximum heights of proposed structures.
- (6) Design standards applicable to the project.
- (7) Incorporation of graphic development plans and drawings into the site development regulations.

- D. **Review and Action on Applications.** The Planning and Zoning Commission and City Council shall review and evaluate each PD-1 District application. The Planning and Zoning Commission and City Council may impose reasonable conditions, as deemed necessary to ensure that a PD shall be compatible with adjacent land uses, will not overburden public services and facilities and will not be detrimental to public health, safety and welfare. The Commission, after proper notice, shall consider and act upon each application. The Commission may recommend amendments to PD-1 District applications. The recommendation of the Commission shall be transmitted to the Council for final action. The City Council, after proper notice, shall hold a public hearing and act upon any ordinance establishing a PD-1 District. "Proper notice" means the same notice established for any other zoning amendment. In their respective reviews of the PD-1 application, the Commission and Council shall base decisions on findings of fact as set forth in the criteria presented in Table Two. Upon approval by the Council, the Development Plan and Agreement shall become a part of the ordinance creating or amending the PD District. All approved plans shall be filed with the City Clerk.

- E. **Issuance of Building Permits.** The City shall not issue a building permit, certificate of occupancy, or other permit for a building, structure, or use within a PD-1 District

unless it is in compliance with the approved Development Plan or any approved amendments.

- F. Changes or Modifications to Development Plans. The City Council is authorized to approve amendments to an approved development plan provided that:

- (1) A written request is filed with the City Council, along with information specifying the exact nature of the proposed amendment.
- (2) The amendment is consistent with the provisions of this section.
- (3) The amendment does not alter the approved site regulations of the development plan and does not materially alter other aspects of the plan, including traffic circulation, land uses or land use intensity, mixture of use types, and physical design.
- (4) Any amendment not conforming to these provisions shall be submitted to the Commission and Council for action.

- G. Termination of PD-1 District. If no substantial development has taken place in a Planned Development District for three years following approval of the District, the Commission shall reconsider the zoning of the property and may, on its own motion, initiate an application for rezoning the property.

5. Planning and Zoning Commission or City Council Initiated PD-1 Districts. In some situations, the Commission and/or Council may initiate or approve a rezoning of an area to a PD-1 District without submission of a detailed development plan. This action establishes the land uses permitted in an area consistent with the Comprehensive Development Plan, but requires subsequent approval of specific projects through the normal PD-1 submission or approval procedures. An application for creation of such a PD-1 District shall include the following, prepared by the City Council or applicant:

- A. A statement describing the special characteristics of the district and the reason for its creation.
- B. A map indicating the boundaries of the proposed district.
- C. A generalized area development plan for the proposed district, including:
 - (1) A land use component, identifying proposed uses and the extent and location of each use.
 - (2) A transportation element, identifying any relevant vehicular, pedestrian, or bicycle transportation improvements necessary to ultimate development of the area.
 - (3) A utility service statement, identifying any necessary utility or infrastructure improvements necessary to the ultimate development of the area.
 - (4) An urban design element, if applicable, describing design frameworks, building scale and relationships, siting, landscape design, and other guidelines relating to the specific physical or urban environment of the proposed district.

165.18 R-6 MOBILE HOME RESIDENTIAL DISTRICT. The R-6 District is intended and designed to provide for certain medium density residential areas of the City, which by reason of their design and location, are suitable for mobile home development and which are compatible with surrounding residential areas.

1. **Principal Permitted Uses.** Mobile Home Parks, in accordance with regulations of the State of Iowa and minimum requirements contained herein, but not including mobile home sales and display areas. No part of any park shall be used for nonresidential purposes except such uses that are required for the direct servicing and well-being of park residents and for the management and maintenance of the park. This shall in no way prohibit the sale by a resident owner of a mobile home located on a mobile home stand and connected to the pertinent utilities.

165.22 C-3 PLANNED COMMERCIAL DEVELOPMENT DISTRICT.

1. **Statement of Intent.** The C-3 District is intended to provide for the development of shopping centers and/or commercial office buildings. For the purposes of this section, the term “shopping center” means a planned retail and service area under single ownership, management or control characterized by a concentrated grouping of stores and compatible uses, with various facilities designed to be used in common, such as ingress and egress roads, extensive parking accommodations, etc. Since shopping center developments, whether large or small, have a significant effect upon the Comprehensive Plan for the development of the City, extensive authority over their development is retained by the Council and Commission. Many matters relating to the shopping center’s design, its potential for success or failure and its effect upon surrounding neighborhoods must be considered by the Council and Commission in order to be reasonably assured that the area will not eventually become blighted. It is further intended that in the event of an applicant’s failure to construct a shopping center/office commercial structure in accordance with a reasonable time schedule the City Council shall enact the necessary legislation to reclassify the area to another classification consistent with the surrounding neighborhood. Such action would also, because of the reduction in commercial zoning in a given area, provide conditions whereby it could be reasonable for the Council to classify other areas in the vicinity for shopping center use.
2. **Procedures.** The owner or owners of any tract of land comprising an area of not less than five (5) acres may submit to the City Council a petition requesting a change to the C-3 zoning district classification. The petition shall be accompanied by a plan for the commercial use and development of the tract for the purposes of meeting the requirements of this section and be evidence of the feasibility of the project and its effects on surrounding property, including each of the following:
 - A. A site plan defining the areas to be developed for buildings, the areas to be developed for parking, the location of sidewalks and driveways and the points of ingress and egress, including access streets where required, the location and height of walls, existing and proposed grades, the location and type of landscaping and the location, size and number of signs, type or style or architecture, building materials, color or other significant features.
 - B. An analysis of market conditions in the area to be served. Including types and amount of service needed and general economic justification.
 - C. A traffic analysis of the vicinity indicating the effect of the proposed shopping center on the adjacent streets.
 - D. A statement of financial responsibility to assure construction of the shopping center, including landscaping, in accordance with the plan and the requirements of this section.
 - E. The development plan shall be referred to the Commission for study and report. The Commission shall review the conformity of the proposed development with the standards of the Comprehensive Plan, and with recognized principles of civic design, land use planning, and landscape architecture. The Commission may approve the plan as submitted or, before approval, may require that the applicant modify, alter, adjust, or amend the plan as the Commission deems necessary to the end that it preserve the intent and purpose of this chapter to promote public health, safety, morals, and general welfare. The development plan as approved by the Commission shall then be reported to the City Council, whereupon the City Council may, approve or disapprove said plan as reported or may require such changes thereto as it deems necessary to effectuate the intent and purpose of this chapter.

3. Standards. Uses permitted in the C-3 district shall include any use permitted in the C-1A or C-2 districts and as limited by these districts, provided, however, the Council may consider any additional restrictions proposed by the owner. The bulk regulations of the C-2 district shall be considered minimum for the C-3 district; however, it is expected that these minimums will be exceeded in all but exceptional situations. Buildings may be erected to heights greater than those allowed in the C-2 district in accordance with the intent and purpose of this section.
4. Completion. The Council may make the approval of the shopping center/commercial office structure plan contingent upon the completion of construction and improvements within a reasonable period of time, provided, however, that in the determination of such period, the Council shall consider the scope and magnitude of the project and any schedule or timetable submitted by the developer. Failure to complete the construction and improvements within said period of time shall be deemed sufficient cause for the Council to rezone the subject property to the classification effective at the time of original submission of the shopping center plan, unless an extension is recommended by the Commission and approved by the Council for due cause shown. Any proposed change in the shopping center plan, after approval by the Council, shall be resubmitted and considered in the same manner as the original proposal.
5. Off-Street Parking and Loading. Spaces for off-street parking and loading shall be provided in accordance with the provisions of Section 165.29.
6. Landscaping. A minimum of twenty-five percent (25%) of the total area shall be retained as landscaped open space to include such items as walks, trees, shrubs, fountains or other ornamental features.

165.30 ADMINISTRATION AND ENFORCEMENT.

1. Administration Official. An administrative official designated by the Council shall administer and enforce this chapter. The administrative official may be provided with the assistance of such other persons as the Council may direct. If the administrative official finds that any of the provisions of this chapter are being violated, the official shall notify in writing the person responsible for such violations, indicating the nature of the violation and ordering the action necessary to correct it. The administrative official shall order discontinuance of any illegal use of land, buildings, or structures; removal of illegal buildings or structures or of additions, alterations or structural changes thereto; discontinuance of any illegal work being done; or shall take any other action authorized by this chapter to insure compliance with or to prevent violation of its provisions.

2. Building Permits Required. No building or other structure shall be erected, moved, added to or structurally altered without a permit therefor, issued by the administrative official. No work on such building or structure shall be done until a permit shall have been issued. No building permit shall be issued except in conformity with the provisions of this chapter, except after written order from the Board of Adjustment. (See Section 165.33 for schedule of fees.) The Council may, for good cause shown, waive the fee required herein where the building, structure, accessory building or fence is constructed by a charitable, educational, or religious organization for public purposes.

3. Application for Building Permit. All applications for building permits shall be accompanied by plans in duplicate, drawn to scale, showing the actual dimensions and shape of the lot to be built upon; the exact sizes and locations on the lot of buildings already existing, if any, and the location and dimensions of the proposed building or alteration. The application shall include such other information as lawfully may be required by the administrative official, including existing or proposed building or alteration; existing or proposed uses of the building and land; the number of families, housekeeping units, or rental units the building is designed to accommodate; conditions existing on the lot; and such other matters as may be necessary to determine conformance with and provide for the enforcement of this chapter. The administrative official shall have twelve (12) days excluding Sundays and legal holidays in which to accept or reject an application for building permits after the same has been submitted in proper form.

4. Certificates of Zoning Compliance for New, Altered, or Nonconforming Uses. It is unlawful to use or occupy or permit the use or occupancy of any building or premises, or both, or part thereof hereafter created, erected, changed, or converted, or wholly or partly altered or enlarged in its use or structure until a certificate of zoning compliance shall have been issued therefor by the administrative official stating that the proposed use of the building or land conforms to the requirements of this chapter. No nonconforming structure or use shall be maintained, renewed, changed, or extended until a certificate of zoning compliance shall have been issued by the administrative official. The certificate of zoning compliance shall state specifically wherein the nonconforming use differs from the provisions of this chapter, provided that upon enactment or amendment of this chapter, owners or occupants of nonconforming uses or structures shall have one year to apply for certificates of zoning compliance. Failure to make such application within one year shall be presumptive evidence that the property was in conforming use at the time of enactment or amendment of the Zoning Ordinance. Certificates of zoning compliance shall be applied for coincidentally with the application for a building permit, and shall be issued within ten (10) days after the lawful erection or alteration of the building is completed in conformity with the provisions of this chapter. A temporary certificate

of zoning compliance may be issued by the administrative official for a period not exceeding six (6) months during alterations or partial occupancy of a building pending its completion, provided that such temporary certificate may require such conditions and safeguards as will protect the safety of the occupants and the public. The administrative official shall maintain a record of all certificates of zoning compliance, and copies shall be furnished upon request to any person. Failure to obtain a certificate of zoning compliance shall be a violation of this chapter.

5. Expiration of Building Permit. If the work described in any building permit has not begun within ninety (90) days from the date of issuance thereof, said permit shall expire; it shall be canceled by the administrative official, and written notice thereof shall be given to the persons affected. If the work described in any building permit has not been substantially completed within two (2) years after the date of issuance thereof, said permit shall expire and be canceled by the administrative official, and written notice thereof shall be given to the persons affected, together with notice that further work as described in the canceled permit shall not proceed unless and until a new building permit has been obtained.

6. Construction and Use to be as provided in Applications, Plans, Permits and Certifications of Zoning Compliance. Building permits or certificates of zoning compliance issued on the basis of plans and applications, approved by the administrative official authorize only the use, arrangement and construction set forth in such approved plans and applications, and no other use, arrangement, or construction. Use, arrangement, or construction at variance with that authorized shall be deemed a violation of this chapter.

165.31 BOARD OF ADJUSTMENT.

1. Board Created. A Board of Adjustment is hereby established which shall consist of five (5) members. The terms of office of the members of the Board and the manner of their appointment shall be as provided by Statute.

2. Meetings. Meetings of the Board shall be held at the call of the Chairperson, and at such other times as the Board may determine. Such Chairperson, or in the Chairperson's absence, the acting Chairperson may administer oaths and compel the attendance of witnesses. All meetings of the Board shall be open to the public. The Board shall keep minutes of its proceedings, showing the vote of each member on each question, or if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the office of the Board and shall be a public record. The presence of three (3) members shall be necessary to constitute a quorum.

3. Appeals. Appeals to the Board may be taken by any person aggrieved, or by any official, department, board or bureau of the City affected by any decision of the administrative official. Such appeal shall be taken within ten (10) days by filing with the administrative official and with the Board a notice of appeal specifying the grounds thereof. The administrative official shall forthwith transmit to the Board all papers constituting the record upon which the action appealed from is taken. An appeal stays all proceedings in furtherance of the action appealed from, unless the administrative official certifies to the Board after notice of appeal shall have been filed, that by reason of facts stated in the certificate a stay would, in the official's opinion, cause imminent peril to life or property. In such case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board or by a court of record on application and notice to the administrative official, and on due case shown.

4. Fee for Appeal. See Section 165.33 for schedule of fees.

5. Hearings, Notice. The Board shall fix a reasonable time for the hearing on the appeal, give public notice thereof as well as due notice to the parties in interest and decide the same within a reasonable time. At the hearing, any party may appear in person or by agent, or by attorney. Before an appeal is filed with the Board, the appellant shall pay a fee as set forth in Section 165.33.

6. Powers Administrative Review. The Board shall hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by the administrative official in the enforcement of this chapter.

7. Powers Special Exceptions. The Board shall permit the following exceptions to the District regulations set forth in this chapter subject to the requirements of this section:

A. Permit erection and use of a building or the use of premises or vary the height and the regulations in any location for a public service corporation for public utility purposes or purposes of public communication, which the Board determines, is reasonable and necessary for the public convenience or welfare.

B. Permit the extension of a use into a district where it would be otherwise prohibited in a case where a district boundary line is so located that a lot or plot is in more than one district.

C. Hear and decide only such other special exceptions as the Board is specifically authorized to pass on by the terms of this chapter; decide such questions as are involved in determining whether special exceptions should be granted; and grant special exceptions when in harmony with the purpose and intent of this chapter. A special exception shall not be granted by the Board unless and until:

(1) A written application for a special exception is submitted indicating the section of this chapter under which the special exception is sought and stating the grounds on which it is requested.

(2) Notice of public hearing shall be given at least ten (10) days in advance of public hearing. The owner of the property for which the special exception is sought or the owner's agent and any other affected property owners shall be notified by mail. Notice of hearing shall also be posted on the property for which a special exception is sought.

(3) The public hearing shall be held. Any party may appear in person, or by agent or attorney.

(4) The Board shall make a finding that it is empowered under the section of this chapter described in the application to grant the special exception and it will not adversely affect the public interest.

In granting any special exception the Board may prescribe appropriate conditions and safeguards in conformity with this chapter. Violations of such conditions and safeguards, when made a part of the terms under which the special exception is granted, shall be deemed a violation of this chapter. The Board may prescribe a time limit within which the action for which the special exception is required shall be begun or completed, or both. Failure to begin or complete such action within the time limit set shall void the special exception.

8. Powers Variances. The Board shall authorize upon appeal in specific cases such variance from the terms of this chapter as will not be contrary to the public interest where, owing to special conditions, a literal enforcement of the provisions of this chapter would result in unnecessary hardship. A variance from the terms of this chapter shall not be granted by the Board unless and until:

- A. A written application for a variance is submitted demonstrating:
 - (1) That special conditions and circumstances exist which are peculiar to the land, structure, or building involved, and which are not applicable to other lands, structures, or buildings in the same district;
 - (2) That literal interpretation of the provisions of this chapter would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this chapter;
 - (3) That the special conditions and circumstances do not result from the actions of the applicant;
 - (4) That granting the variance requested will not confer on the applicant any special privilege that is denied by this chapter to other lands, structures, or buildings in the same district;

No nonconforming use of neighboring lands, structure, or buildings in the same district, and no permitted use of land, structures, or buildings in other districts shall be considered grounds for the issuance of a variance.

B. Notice of public hearing shall be given in advance of public hearing. The owner of the property for which the variance is sought or the owner's agent and any other affected property owners shall be notified by mail.

C. The public hearing shall be held. Any party may appear in person, or by agent or by attorney.

D. The Board shall make findings that the requirements of this section have been met by the applicant for a variance.

E. The Board shall further make a finding that the reasons set forth in the application justify the granting of the variance, and that the variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.

F. The Board shall further make a finding that the grant of the variance will be in harmony with the general purpose and intent of this chapter, and will not be injurious to the neighborhood or otherwise detrimental to the public welfare.

In granting any variance, the Board may prescribe appropriate conditions and safeguards in conformity with this chapter. Violation of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this chapter. Under no circumstances shall the Board grant a variance to allow a use not permissible under the terms of this chapter in the district involved, or any use expressly or by implication prohibited by the terms of this chapter in said District.

9. Decisions of the Board of Adjustment. In exercising the above-mentioned powers, the Board may, so long as such action is in conformity with the terms of this chapter, reverse or affirm, wholly or partly, or may modify the order, requirements, decision, or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the

powers of the administrative official from whom the appeal is taken. The concurring vote of three (3) members of the Board shall be necessary to reverse any order, requirement, decision, or determination of the administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under this chapter, or to effect any variation in this chapter.

10. Appeals from Decision of the Board of Adjustment. Any taxpayer, or any officer, department, board or bureau of the City or any person or persons jointly or severally aggrieved by any decision of the Board of Adjustment may present to a court of record a petition, duly verified, setting forth that such decision is illegal, in whole or in part, specifying the grounds of the illegality. Such petition shall be presented to the court within thirty (30) days after the filing of the decision in the office of the Board. The court may reverse or affirm, wholly or in part, or may modify the decision brought up for review.

165.32 DUTIES ON MATTERS OF APPEAL. It is the intent of this chapter that all questions of interpretation and enforcement shall be first presented to the administrative official, and that such questions shall be presented to the Board of Adjustment only on appeal from the decision of the administrative official, and that recourse from the decisions of the Board of Adjustment shall be to the courts as provided by law and particularly by Statute. However, no such amendment, supplement, or change of boundaries or regulations shall become effective until after a public hearing in relation thereto, at which parties in interest and citizens shall have an opportunity to be heard. Such amendment, supplement, or change shall not become effective except by favorable vote of a majority of all the members of the City Council. This chapter shall be administered to insure the orderly growth and development and to insure adequate provision for circulation, utilities, and services. All land in a subdivision shall be automatically zoned Residential in compliance with the Zoning Ordinance.

170.02 ADMINISTRATION. The provisions of this chapter shall be administered by the Planning and Zoning Commission of the City. Plats shall be reviewed by the Commission, after which the Commission shall submit its recommendations and the plats to the Council, which shall have the final power to approve or disapprove the application.

170.04 PRE-APPLICATION PROCEDURES.

1. Before subdividing any tract of land and previous to the filing of an application for conditional approval of the preliminary plat, the subdivider should meet with the Commission and discuss plans. Plans and data should be presented to the Commission as specified in Section 170.07. This step does not require formal application, fee or filing of plat with the Commission.
2. Either at the time of meeting or within 15 days after such meeting and discussion, the Commission shall inform the subdivider of preliminary comments indicating the official opinions of the Commission on the applicable project. After that, the project documents should be revised in order to appear in front of the Commission again. 170.05 PRELIMINARY PLAT PROCEDURE. On reaching conclusions informally, as recommended in Section 170.04 above, regarding the subdivider's general program and objectives, the subdivider shall cause to be prepared a preliminary plat, together with improvement plans and other supplementary material as specified in accordance with the following:

1. Plat Submitted. At least four prints of the preliminary plat together with four completed application forms for preliminary approval shall be submitted to the administrative officer at least two weeks prior to the Commission meeting at which consideration is desired. The administrative officer shall immediately refer two copies of said plat to the Secretary of the Commission and one copy to the Mayor upon receipt of a preliminary plat.
2. Flood Lands. No land shall be approved for subdivision which is subject to periodic flooding or which contains extremely poor drainage facilities. However, if the subdivider agrees to make improvements which will, in the opinion of the Commission, make the area completely safe for occupancy and provide adequate drainage, the preliminary plat may be approved.
3. Notice of Meeting. The Commission shall notify the owner or subdivider as to the time and place of the meeting at which the plat and plan will be studied. The Commission may direct that the owner or subdivider attend any deliberation on the submitted plat.
4. Commission Action. The Commission shall study and act on the preliminary plat and plans in regard to street layout and the provision of water and sewage and make recommendations on these aspects, all to be accomplished within 45 days after submission to the administrative officer. If the Commission disapproves a plat, the reasons for disapproval shall be remedied prior to further consideration. The preliminary plat shall not be approved until the plans and specifications for necessary improvements are acceptable to the Commission.
5. Council Action. If the Commission acts favorably on a preliminary plat, a notation to that effect shall be made on the plat above the signature of the Chairperson and Secretary, and it shall be referred to the Council for action. The Council shall act within 30 days. Its action shall be noted on the plat, signed by the Mayor, attested to by the Clerk and the plat shall be returned to the subdivider for compliance with final plat requirements.
6. Conditional Approval. Conditional approval of a preliminary plat shall confer upon the applicant the following rights for a two-year period from the date of approval.
 - A. The general terms and conditions under which the preliminary approval was granted will not be changed.
 - B. The said applicant may submit on or before the expiration date the whole or part or parts of said plat for final approval.

170.06 FINAL PLAT PROCEDURE. The following procedure shall govern the submission, consideration, and approval of final plats.

1. Improvements Installed. Before consideration of a final subdivision plat, the subdivider shall have installed the improvements required under Section 170.11, or

the Commission shall require posting of adequate performance guarantees with the administrative officer to assure the installation of the required improvements within one year after final approval of the plat.

2. Plat Submitted. The final plat or in the case of large subdivisions, a final plat of the area covered by the approved preliminary plat, shall be submitted to the administrative officer. The original tracing, four prints and four copies of the application form for final approval shall be submitted to the administrative officer at least 14 days prior to the date of a regular Commission meeting at which action is sought. Unless a preliminary plat is approved without changes, the final plat shall have incorporated all changes or modifications required by the Commission. The final plat shall be accompanied by a statement from the engineer that the engineer has received a map showing all utilities in exact location and elevation, identifying those portions already installed, those to be installed and that the subdivider has complied with one or a combination of the following:
 - A. Installed all improvements in accordance with the requirements of these regulations; or
 - B. A performance bond, approved by the City Attorney, has been posted with the administrative officer in sufficient amount to assure the completion of required improvements within one year after final approval of the plat. The amount of the bond shall be not less than the estimated cost of the improvements as determined by a registered professional engineer acting for the subdivider. The amount of bond shall also have the approval of the Commission.
3. Commission Action. The administrative officer shall immediately refer two copies of the plat to the Secretary of the Commission and one copy to the engineer upon receipt of a final plat. The Commission shall act upon the final plat within 30 days after the date of submission for final approval to the administrative officer.
4. Commission Approval and Council Action. If approval is given, the Commission shall note such approval, on the plat over the signature of both the Chairperson and Secretary of the Commission, and the Commission shall then forward the plat to the Council for final approval and acceptance of all streets, alleys, ways, easements, parks or areas preserved for or dedicated to the public.
5. Commission Disapproval and Council Action. If the Commission does not recommend approval of the final plat of a subdivision, the Council may approve the plat and accept all streets, alleys, ways, easements, parks or areas preserved for or dedicated to the public by unanimous favorable vote by the entire membership of the Council.
6. Filing of Approved Plat. Upon final approval, copies of the approved final plat shall be filed with the following:
 - A. Planning and Zoning Commission.
 - B. Administrative officer.
 - C. Mayor.
7. Recording of Final Plat. After final approval by the Council, the Commission shall notify the owner or the subdivider, and the subdivider shall cause plat to be filed with the County Recording officer as provided by the Code of Iowa; and shall file satisfactory evidence of such recording in the office of the administrative officer before the City shall recognize the plat being in full force and effect.

 - A. Provide for the continuation or appropriate projection of existing principal streets in surrounding areas, or
 - B. Conform to a plan for the neighborhood approved or adopted by the Commission to meet a particular situation where topographical or other conditions make continuance or conformance to existing streets impracticable.
3. Minor Streets. Minor streets shall be so laid out that their use by through traffic will be discouraged.
4. Arterial Streets. Where a subdivision abuts or contains an existing or proposed arterial street, the Commission may require marginal access streets, reverse frontage with screen planting contained in a non-access reservation along the rear property line, deep lots with rear service alleys or such other treatment as may be necessary for adequate protection of the residential or other proposed properties and to afford separation of through and local traffic.
5. Railroad or Limited Access Highway. Where a subdivision borders on or contains a railroad right-of-way or limited access highway right-of-way, the Commission may require a street approximately parallel to and on each side of such right-of-way, at a distance suitable for the appropriate use of the intervening land, as for park purposes in appropriate districts. Such distances shall also be determined with due regard for the requirements of approach grades and future grade separations.
6. Reserve Strips Prohibited. Reserve strips controlling access to streets shall be prohibited except where control is definitely placed with the City under conditions approved by the Commission.
7. Street Jogs. Street jogs with centerline offsets of less than 125 feet shall be avoided.

9. Curves. When connecting street lines deflect from each other at any point by more than 10 degrees, they shall be connected by a curve with a radius adequate to insure a

sight distance of not less than 100 feet for minor and collector streets, and of such greater radii as the City Engineer shall determine for special cases.

10. Intersections. Streets shall be laid out so as to intersect as nearly as possible at right angles and no street shall intersect any other street at less than 60 degrees. More than two streets intersecting at the same location shall be prohibited.
11. Corners. When the Commission finds it necessary for reasons of safety and the protection of property, property lines at street intersections shall be rounded with a radius of 15 feet or they may permit comparable chords in lieu of the rounded corner.
12. Right-of-Way Widths. Street right-of-way widths shall be not less than as follows:

Street Type	Right-of-Way	Minimum Width of Roadway Surface
State Arterial	Requirements set by Iowa State Highway Commission

Parking restrictions on community arterial, collector and other 31-foot streets shall be set by the Council.		

13. Half Streets. Half streets shall be prohibited, except where essential to the reasonable development of the subdivision in conformity with the other requirements of these regulations, and where the Commission finds it will be practicable to require the dedication of the other half when the adjoining property is subdivided. Wherever a half street is adjacent to a tract to be subdivided, the other half of the street shall be platted within such tract.
14. Dead-End Streets. Dead-end streets, designated to be so permanently, shall not be longer than 300 feet except that the Commission may approve a maximum length not to exceed 1,000 feet due to property limitations. Such streets shall be provided at the closed end with a turnaround having an outside roadway diameter of at least 80 feet, and a street property line diameter of at least 100 feet. The Commission may approve a "T" or "Y" type turnaround in lieu of the circular turnaround.
15. Street Names. No street names shall be used which will duplicate or be confused with the names of existing streets. Street names shall be subject to the approval of the Commission.
16. Granular Paving Adjacent to Subdivision. †
 - A. A developer may be required to extend or expand existing off-site public infrastructure as necessary to fully improve a proposed subdivision, or the City

† Ordinance 331 added 170.10(16), the remaining subsections were renumbered.

Council may, at its sole discretion, require a proposed subdivision to be delayed until such extension or expansion can be funded and constructed.

- B. **Costs; responsibilities.** Developers shall be fully responsible for the entire costs of improving all collector and local streets within a subdivision, and for the costs of paving a width of not less than 15.5 feet of roadway along all arterial street frontages by providing a cash escrow to be held in a city account or by posting surety therefore, and turn lanes that serve or will serve the subdivision whether located within the subdivision or on an arterial street.

(Subsection 16 – Ord. 331 – Oct. 18 Supp.)

Collector	8%
Minor	8%
Cul-de-sac	8%
Marginal Access	8%

18. **Minimum Street Grades.** No street grade shall be less than 0.5 percent where drainage is carried within the traveled roadway.
19. **Alleys Required.** Alleys shall be provided in commercial and industrial districts except that the Commission may waive this requirement where other definite and assured provision is made for service access, such as off-street loading, unloading, and parking consistent with and adequate for the uses proposed.
20. **Alleys Prohibited.** Alleys shall not be permitted in a Residential District unless deemed necessary by the Commission.
21. **Width of Alleys.** The minimum width of an alley shall be 20 feet.
22. **Alley Intersections.** Alley intersections and sharp changes in alignment shall be avoided; but where necessary, corners shall be cut off sufficiently to permit safe vehicular movement.
23. **Dead-end Alleys.** Dead-end alleys shall be avoided where possible; but if unavoidable, shall be provided with adequate turnaround facilities at the dead end, as determined by the Commission.
24. **Easements.** Easements across lots or centered on rear or side lot lines shall be provided for utilities and shall be not less than 12 feet in width on each side of all rear lot lines and side lot lines where necessary for poles, wires, conduits, storm sewer and sanitary sewers, gas, water and heat mains. Greater width easements may be required in some cases.
25. **Watercourse and Drainage Easements.** Where a subdivision is traversed by a watercourse, drainage way, channel or stream, there shall be provided a storm water easement or drainage right-of-way conforming substantially with the lines of such watercourse, and such further width or construction or both as will be adequate for the purpose. Parallel streets or parkways may be required in connection therewith. If it is deemed advisable by the Commission, such watercourse or drainage way may be re-

established to conform with the proposed street pattern, in which case suitable storm drainage facilities shall be installed as designed and established by a registered professional engineer for the subdivider.

26. Blocks.

A. General Requirements. The lengths, widths and shapes of blocks shall be determined with due regard to:

- (1) Provision of adequate building sites suitable to the special needs of the type of use contemplated.
- (2) Requirements as to lot sizes and dimensions.
- (3) Needs for convenient access, circulation, control and safety of street traffic.
- (4) Limitations and opportunities of topography and other natural features.

B. Length. Block lengths shall not exceed one thousand three hundred twenty (1,320) feet, or be less than three hundred (300) feet. For unusual circumstances the Commission may grant a variance to these distance requirements.

C. Crosswalks. Pedestrian crosswalks, not less than ten (10) feet wide, shall be required where deemed essential to provide circulation, or access to schools, playgrounds, shopping centers, transportation and other community facilities.

27. Lots.

A. General. The lot size, width, depth, slope and orientation, and the minimum setback lines shall be appropriate for the location of the subdivision and for the type of development and use contemplated.

B. Dimensions. Lot dimensions shall be as follows:

- (1) Residential lots where served by public sewer shall be not less than 80 feet wide at the building setback line or less than 8,000 square feet in area.
- (2) Residential lots where not served by public sewer shall be not less than 100 feet wide at the building setback line or less than 14,000 square feet in area.

C. Commercial and Industrial Lots. Depth and width of properties reserved or laid out for commercial and industrial purposes shall be adequate to provide for the off-street service and parking facilities required by the type of use and development contemplated.

D. Street Access. The subdividing of the land shall be such as to provide, by means of a public street, each lot with satisfactory access to an existing public street.

E. Large Lot Subdivisions. Whenever the area is divided into lots containing one or more acres and there are indications that such lots will eventually be subdivided into smaller building lots, consideration shall be given to the street and lot arrangement of the original subdivision so that additional minor streets can be opened which will permit a logical and functional arrangement of smaller lots.

F. Double or Reverse Frontage. Double frontage and reverse frontage lots should be avoided except where essential to provide separation of residential development from traffic arteries or to overcome specific disadvantages of topography and orientation. A planting screen easement of at least 10 feet, and across which there shall be no right of

access, shall be provided along the line of lots abutting such a traffic artery or other disadvantageous use.

- G. Side Lines. Side lot lines shall be substantially at right angles or radial to street lines. Side lines of lots formed by radial projections shall form a lot having not less than 20 feet across the rear property line.
- H. Corner Lots. Corner lots for residential use shall have additional width to permit appropriate building setback from an orientation to both streets.
- 28. Public Sites and Open Spaces. Where a proposed park, playground or other public use is located in whole or in part in a subdivision, the Commission may require that such area be reserved or dedicated to the City in those cases in which the Commission deems such requirements reasonable.
- 29. Utilities. The source of domestic water supply and type of sewage disposal shall accompany each plat for the information of the Commission and the Council.
- 30. Outlots shall be prohibited. *(Ord. 331 – Oct. 18 Supp.)*

170.11 REQUIRED IMPROVEMENTS.

- 1. Monuments.
 - A. Where Required. Durable iron monuments shall be placed at all lot and block corners, at all angle points in any line, at each end of all curves, and at such other points as may be required by the Commission.
 - B. Thirty-inch Monuments. The external boundaries of the subdivision, block corners, angle points and ends of curves shall be monumented in the field by iron rods or pipes at least 30 inches long and one and one-half (1½) inches in diameter.
 - C. Twenty-four-inch Monuments. All lot corners and other points not referred to in paragraph B above shall be monumented in the field by monuments at least 24 inches long and one inch in diameter.
 - D. Set Flush. All monuments shall be properly set flush with the ground by a licensed land surveyor.
- 2. Street Construction.
 - A. Street Grading and Paving. The subdivider shall grade and improve all streets within the subdivision to the full right-of-way width of the street. Roadway pavement shall be either full width Portland cement concrete with integral curbs or 30-inch Portland cement concrete curb and gutter sections with full depth asphaltic concrete surface. Pavement location shall be concurrent with the entire frontage of property or at location approved by the Commission. Pavement thickness and specification shall be approved by the Commission. *(Ord. 331 – Oct. 18 Supp.)*
 - B. Roadway Width. The width of the roadway shall conform to the requirements of its functional classification as specified in subsection 170.10(12).
 - C. Alley Paving. Alleys shall be paved with either Portland cement concrete or full depth asphaltic concrete to their full width in accordance with specifications approved by the Commission.

- D. Sod or Seeding. All streets shall be sodded or seeded with grass in a manner which shall provide suitable protection from erosion over that area lying between the right-of-way lines and back of street curbs.
- E. Profiles and Drainage. Street profiles and the necessary drainage plans to serve the area shall be determined and designed by a registered professional engineer for the subdivider. All construction of such facilities shall be in accordance with such profiles and plans and shall be subject to the recommendations, supervision and approval of the Commission.
- 3. Sidewalk Construction. The subdivider shall install or cause to be installed sidewalks on each side of surfaced streets (for the full length of blocks). Sidewalks shall be a minimum of four feet wide and located in the street right-of-way with the outer edge one foot from the right-of-way line.
- 4. Water Facilities.
 - A. Where a public water main is accessible, the subdivider shall install adequate water facilities (including fire hydrants) according to the specifications of the City's engineer and Municipal Water Department. Proposed locations of fire hydrants shall be approved by the City's engineer and the Municipal Water Department.
 - B. If a public utility system is not available, individual wells may be used provided that construction is in accordance with Iowa State Department of Health standards and that samples submitted to the Iowa State Department of Health are approved for human consumption.
- 5. Sewer Facilities.
 - A. Public Sewer. Where a public sanitary sewer is accessible, the subdivider shall install adequate sanitary sewer facilities (including the installation of house service lines to the street right-of-way lines) subject to the specifications of the City's engineer.
 - B. Installation of Pumping Stations. Where sewage pumping stations are required, the location will be determined by the City Council. The subdivider will install the lift station together with all required appurtenances and force main. The subdivider may be reimbursed in the proportion of which the area outside the subdivision, but served by the pumping station, bears to the total area served by the pumping station.
 - C. Existing Pumping Stations. If the subdivider connects to a sewer leading to a sewage pumping station, the subdivider will be required to pay to the City the pro rata share of the subdivider of the cost of the pumping station and force main according to the ratio of area the subdivision has to the total area served by the sewage pumping station.
 - D. Septic Tanks. Where a public sanitary sewer is not available, the minimum lot areas shall conform to the requirements of subsection 170.10(26)(B) of this chapter. The subdivider shall make or cause to be made percolation tests of the soil as required by the Commission. These tests shall be the basis for design of individual sanitation facilities.
 - E. Future Connections. In the future, however, if a public sanitary sewer is accessible and a sanitary sewer is placed in a street, alley or easement abutting upon property, the owner thereof shall be required to connect to said sewer for the purpose of disposing of waste; and it shall be unlawful for any such owner or occupant to maintain upon such property an individual sewage disposal system.
- 6. Storm Water. When a public storm sewer is accessible, the developer shall install storm sewer facilities. Where no outlets are available within a reasonable distance, adequate provision shall be made for disposal of storm water. All storm sewer design

and construction shall be done in accordance with the standards and specifications of the City.

7. **Street Lights.** Street lights shall be installed to illuminate all roadways and sidewalk surfaces as determined by the Council in accordance with design and specification standards.
8. **Utilities.** It shall be the responsibility of the subdivider to contact utility companies to determine the availability of services and to make the necessary arrangements for their installation within necessary right-of-way and easements. Public water, storm drainage and sanitary sewer or septic system plans shall be designed by a registered professional engineer for the subdivider. The facilities shall be constructed in accordance with such plans prior to construction of buildings upon the lots, and shall be subject to supervision and approval by the Council.

170.12 VARIANCES. Variances from the strict compliance with these regulations may be granted in accordance with the following:

1. **Hardship.** Where the Commission finds that extraordinary hardships may result from strict compliance with these regulations, it may vary the regulations so that substantial justice may be done and the public interest secured, provided that such variation will not have the effect of nullifying the intent and purpose of this chapter.
2. **Large Scale Development.** The standards and requirements of these regulations may be modified by the Commission in the case of a plan and program for a self-contained, complete community or a neighborhood unit, which would in the judgment of the Commission provide adequate public spaces and improvements for the circulation, recreation, light, air and service needs of the tract when fully developed and populated; and which would also provide such covenants or other legal provisions as will assure conformity to and achievement of the plan.
3. **Conditions.** In granting variances and modifications, the Commission shall weigh the benefits or hardships against the general standards and objectives of this chapter, and may require such conditions as will, in its judgment, secure substantially the objectives of the standards or requirements so varied or modified.

170.13 AMENDMENTS. Any regulations or provisions of this chapter may be changed and amended from time to time by the Council with such amendment being initiated by the Council, by a motion of the Commission, or by a petition by any person, provided that such changes or amendments shall not become effective until they have first been reviewed and a recommendation has been made thereon by the Commission; and further provided, a public hearing shall be held by the Council, public notice of which shall be given in the legal newspaper of the City not less than four or more than 20 days before the date of hearing.

170.14 CONFLICT AND VALIDITY. Wherever the requirements of this chapter are at variance with the requirements of any other lawfully adopted rules, regulations, or ordinances, the most restrictive or that imposing the higher standard shall govern. Should any section, sentence, clause or provision of this chapter be declared by a court to be invalid, the same shall not affect the validity of this chapter as a whole or the remaining portions of this chapter.

170.15 VIOLATION; PENALTY. Any person who violates, disobeys, omits, neglects or refuses to comply with or who resists the enforcement of any of the provisions of this chapter shall be in violation of this Code of Ordinances. Each day that a violation is permitted to exist shall constitute a separate offense.

170.16 DEVELOPMENT APPLICATION PARK LAND DEDICATION.

1. This Park Land Dedication section is effective for any plat that has not received final approval prior to adoption.
2. For purposes of this section the term “development application” shall mean any presentation or filing with the City for residential development purposes of any subdivision of land over which the City has subdivision review and approval authority, or the filing or presentation of any site plan, PUD, PUD specific plan, permitted conditional use plan or development, subdivision master plan or area development plan, over which the City has approval authority or a declaration of horizontal property (condominium) regime pursuant to Iowa Code Chapter 499B.
3. All persons making a development application shall dedicate to the City, within the land covered by the development application, land for park and recreational purposes sufficient to meet the requirements of this section.
4. In each tract of land covered by a development application, there shall be reserved and dedicated to public use ten (10) acres of land for park purposes for each one thousand (1,000) people, based upon the projected population of the completed development application as calculated in accordance with this section. Such dedication shall be prorated to the amount indicated by the projected population to the nearest one thousand (1,000) square feet of land to be dedicated, but in any event, no dedication of land for park use shall contain a total for park usage of less than ten thousand (10,000) square feet of land so dedicated. For purposes of this section, property subject to a horizontal property condominium regime under Iowa Code Chapter 499B shall be treated as single-family detached.
5. For purposes of this section, population in the completed area covered by the development application will be determined by multiplying the number of housing units projected in the area covered by the development application for each use category times the anticipated average per unit as given below. The quantity calculated for each residential type shall be added together and the sum shall be the projected population for purposes of the development application. For the purposes of this section, the following population estimates per residential type will be used:
 - A. Single-family detached: 2.90 people.
 - B. Single-family attached: 2.59 people.
 - C. Multi-family unit: 1.82 people.
6. The City may require that all land dedicated under this section be configured or located to optimize aggregations of land and thus may require that the dedicated land be adjacent to the land affected by other development applications or to otherwise maximize usefulness of the land in accordance with the City’s Comprehensive Plan.
7. This section shall not apply to any development application which does not include residential development, provided, however, to the extent any development application includes residential uses then dedication of park land shall be required to the extent determined in accordance with this section.
8. For purposes of this section the water area of ponds, streams, retention basins, detention basins and other bodies of water, or the land area of buffer park easements and site plan open space requirements, shall not be included in determining any area dedicated for park purposes.
9. The dedication of land for park purposes shall include dedication of a corridor or point of connection for public pedestrian access, the areas of which shall be included in determining compliance with this section.

10. The required land dedication under this section shall be reduced when the person making the development application provides public access by easement to recreational facilities, playgrounds, unobstructed open spaces, ball fields, soccer fields, tennis courts, basketball courts, volleyball courts, picnic shelters, recreational trails and other similar non-duplicated recreational facilities which have been (or will be) constructed and maintained by the applicant. There shall not be any credit for swimming pools, clubhouses, and other similar facilities. In order to determine the credit, the City shall ascertain the fair market value of the land required to be dedicated under this section and from such value subtract the cost of the recreational facilities constructed by the applicant and provided under this section. The person making the development application shall then only be required to dedicate land equal in value to the remainder.
11. As an alternative to dedication under this section, any person filing a development application may provide jointly with other persons for the dedication of land in an amount at least equal to the amount required under this section, at a location which is not part of the land for which approval is sought, provided such alternative is within the same neighborhood park area as the land for which a development application has been made, that the alternative jointly provided will provide for a park with a total land area of at least five (5) acres, consistent with the Comprehensive Plan and that such alternative dedication of land is or has actually been dedicated to the City and has been accepted by the City for use in accordance with the Comprehensive Plan.
12. Where application of the formula set forth in subsection 4 of this section results in a dedication requirement of less than ten thousand (10,000) square feet the person making or filing the development application may elect to dedicate ten thousand (10,000) square feet of land or fulfill their obligation by participating in an option provided by subsection 10 of this section, but such alternative participation shall be based upon the actual calculation under subsection 4 of this section and not upon the equivalent of ten thousand (10,000) square feet of land.
13. Subsections 10 and 11 of this section notwithstanding, any entity required to comply with this section may present an alternate plan which meets the purposes of this section as a means of complying herewith. It will be the burden of the entity presenting such plan to establish that such plan meets the purposes of this section. Any such plan shall be first reviewed by the Plan and Zoning Commission. Any alternate proposal must directly and proportionately benefit the development. A plan may include a payment in lieu of land dedication equal to the fair market value of the land to be dedicated. Such payment may be used only for park and recreation facility purposes consistent with the Comprehensive Plan.
14. This section shall not apply to any development application containing three (3) or fewer single-family residential units. A person making or filing a development application shall not divide land into separate plats in order to seek a waiver under this provision. Where a development application is made for multiple contiguous tracts within any two (2) years the City may treat all the development applications as one for purposes of this section.
15. No declaration of a condominium regime and under Iowa Code Chapter 499B, nor any conversion of an apartment to a condominium under Iowa Code Section 499B.3 shall be completed before the person or entity filing the declaration shall have complied with the land dedication requirements of this chapter.
16. If any subsection or provision of this section is held invalid by a court of competent jurisdiction, such holding shall not affect the validity of any other provisions of this section which can be given effect without the invalid portion or portions and to this end each subsection and provision of this section is severable.

17. Any person making or filing a development application or any person, entity, or developer affected by any decision made by any department acting under this chapter, may appeal to the City Council by filing notice of appeal with the City Clerk and a filing fee of one hundred dollars (\$100.00) payable to the City of De Soto to be credited to the general fund of the City. Such appeal shall be taken within ten (10) days from the decision of the department acting under this chapter and shall set out in detail the reasons and grounds for the appeal. The City Clerk shall forthwith transmit to the City Council all papers constituting the record upon which the action appeal is taken. An appeal stays all proceedings in furtherance of the appeal.
18. The City Council shall upon the filing of an appeal fix a reasonable time for a hearing, giving public notice thereof as well as due notice to the parties in interest. All interested persons may offer oral or written testimony at the public hearing on the appeal. A vote of three (3) members of the City Council may affirm, modify, or reverse any decision of any department acting under this chapter.
19. Any person, entity, or developer aggrieved by any appeal decision of the City Council may within thirty (30) days from the date of the City Council rendering a decision, appeal therefrom to the district court of Dallas County, Iowa, in accordance with the rules of civil procedure, division XIV, entitled "certiorari."
